SOLDIERS' COMFORTS ASSOCIATION IN SPECIAL APPEAL. Owing to the urgent and constant appeals from our overseas contingent now in the trenches for socks the above association has decided to hold a "special sock week" commencing January 8, 1916, when it is hoped that every town and village throughout the province will make special efforts to assist by donating socks or money to buy same. Our hearts are so much in sympathy with those who have gone to fight in the trenches that this effort seems a worthy and fitting way to enter on the new year. Please all do your best as by this special effort we hope to have a pair of socks for every man in the battalions from the maritime provinces. Please address all parcels and money to Soldiers' Comforts Association, C. P. R. Building, corner King and Germain, St. John, N. B.

What disposition will be made of the large quantity of liquor that has accumulated through the recent seizures by Inspector John B. Jones still remains a problem. More than \$1,000 worth of liquor is now piled up in the warehouse of J. H. Poole & Co., Water street. It is said that there is no legal provision for its destruction and it is intimated that an order from the police magistrate must be secured before any course is authorized.

By the will of the late Hon. Joseph Matheson, of L'Ardoise, Cape Breton, the handsome sum of \$15,000 has been left to the Halifax Presbyterian College to form part of the endowment fund of that institution. No college of our city has a longer, more honorable record, and none is rendering better service to the church than is Pine Hill, as it is popularly designated.

Another Nova Scotia officer who was intimately acquainted with several St. John boys and who arrived on the Metagama was Captain Fletcher, general for Major J. G. McKensie. He was attached to the 25th Nova Scotia Battalion and has seen some very severe service. He is invalided home, having had his spine seriously injured in a mine explosion in front of the lines held by the 25th, in which many lives were lost.

A recent letter from Pte. Spurgeon Tompkins, of Hartland, who is over in England, states that he has been sent to the water street warehouse.

There are a number of girls who are working in the shops and are doing a splendid job. They are in uniform. I was in a blacksmith shop today. I was run by an old man and his two daughters were helping him. I told you they could take a horse out of a horse just as good as anybody.

Brief Despatches. London, Dec. 23—After two days in prison in the magistrate's court, Lieut. Geo. Coderre, of Sherbrooke, Quebec, 41st battalion, was today committed to stand trial for the murder of Sgt. George Spikeman, of the same unit. During the inquiry a question was asked by counsel for the defence.

Washington, Dec. 22—The United States will not argue with Austria any points involved in the slaying of the Archduke in the Austro-Hungarian capital, Vienna, today, when it was delivered to the Austrian foreign minister, Count Von Burian, in Vienna, this government has a definite and respectful demand in its communication of the sixth of December.

London, Dec. 22—(Montreal Gazette Cable)—The Hamilton police are now investigating the mysterious disappearance of a Canadian soldier from Branshott Camp, and it is possible that the case may have an intimate connection with the murder of Sgt. George Spikeman, of the same unit, which Lieutenant George Coderre, of Sherbrooke, is charged. At the Ottawa inquest, the orderly Keller testified that Coderre used these words: "Don't speak, Joe; I have just killed a man. I killed him because there was only him that saw me kill a soldier, a man I was afraid to pass a court-martial."

Vancouver, B. C., Dec. 22—The Empress of Japan, which arrived last night, brought the largest silk cargo that has ever come to Vancouver. It consisted of more than 4,000 bales, valued at more than \$2,500,000. The shipment was sent east aboard the Empress.

Philadelphia, Dec. 22—The death rate from the epidemic of diphtheria, now sweeping the state, has been so high that Samuel Dixon, state health commissioner, issued a statement at his tonight calling attention to the seriousness of the situation, and cautioning the public that if the disease is to be avoided, "Keep out of crowded places." Dr. Dixon says, "as one person having the gripe may give it to a carload of passengers."

New York, Dec. 23—Indictments were returned today charging Paul Koerner, chief detective of the Hamburg-American line, and Richard Leyendecker, an antique dealer, with conspiring to dynamite the Welland Canal. Edmund Justice, a Hamburg-American line waterman, was also indicted with Koerner, on charges of conspiring to secure military information for the German government. The indictments against Koerner and Leyendecker charge them with conspiring to "set on foot in the United States a military enterprise against the dominion of Canada."

Paris, Dec. 22—As he was embarking for America, Adolphe Crémier was arrested on a charge of theft of bonds, preferred by a Belgian broker. In Crémier's baggage was found a picture thought to be a Murillo. The canvas was represented by the Virgin Mary seated and holding the infant Jesus on her knee. It is unsigned, but is dated 1682. The canvas, which was insured for 75,000 francs, was, according to Crémier, received from an Italian monk, who claimed to have taken it from a monastery.

CONDENSED NEWS. METAGAMA BRINGS WOUNDED MEN. Monday, Dec. 27. The C. P. R. liner Metagama arrived last night bearing 187 cabin passengers and 250 third class passengers. Prominent on the passenger list were the returned soldiers of different Canadian units.

The big ship docked about 5:30 o'clock and those who were desirous of continuing their journey to the westward were accommodated by a special train which pulled out as soon as all the passengers had debarked.

The Metagama brought a large quantity of mail and freight. She also conveyed the bodies of the late Mrs. Thomas E. Kenny of Halifax, whose husband was the late president of the Royal Bank of Canada. Mrs. Kenny died in Great Messenden, England, on December 4. The body was met at the boat by her two sons, and taken in charge by Brunson & Sons, local undertakers. The body will be shipped to Halifax tomorrow for interment.

Nursing Sister Miss Grace Kaye, of Moncton, who died of a considerable length of time in the city of St. John, was also a passenger on the Metagama. She had been at the Dardanelles in the service of king and country and had been invalided home by illness.

The St. John people aboard the Metagama were Mrs. J. McPhee, Miss C. McPhee, Master E. McPhee, Mrs. White, church has a longer, more honorable record, and none is rendering better service to the church than is Pine Hill, as it is popularly designated.

Among the New Brunswick officers returned was Captain Bennett, of the Princess Patricia Light Infantry. He joined the Princess Pats whilst he was resident in Edmonton, but the place of his nativity is Hopewell Cape (N. B.). The most important of the Nova Scotia officers on board the Metagama was Major J. G. McKensie. He was attached to the 25th Nova Scotia Battalion and has seen some very severe service. He is invalided home, having had his spine seriously injured in a mine explosion in front of the lines held by the 25th, in which many lives were lost.

DISASTROUS SPREE ENDED FATAIY. Sussex, N. B., Dec. 26—A jollification which brought with it a fatal ending, happened here Christmas eve, and George Spikeman, of the 41st battalion, now lies in the morgue at the Bristol Waterworks.

Spikeman got into the Sussex Express and was noticed by the influence of liquor. He was found by Chief of Police Adams and his wife, and conveyed him to the police cell. Early Christmas morning Spikeman went to the cell and to his great surprise found Spikeman dead.

He died, was about 23 years of age and had been in Canada about ten years. He had worked for several years in this vicinity and was for a short time employed by the C. P. R. as a section man. About a year ago he contracted blood poisoning in the right hand which was amputated in the St. John hospital. Coroner Wallace has empanelled a jury and an inquest will be held tomorrow at 2 o'clock.

FURTHER EVIDENCE OF WRONG DOING. (Continued from page 5.) Property could be obtained and misrepresented the facts in order to make this "rake-off" as it is called, for himself.

Mr. Gilchrist, the secretary of the board, in his evidence, stated that he thought the Royal Bank of Canada owned the property in question and that he expected that the bank would convey the property to the board; instead of this being done, Mr. Stewart argued with the bank to convey the land to him as he to put him in a position to obtain for himself personally the difference between what the board thought was the actual price of the property and the amount which the bank was willing to take for it.

In my judgment, Mr. Stewart's conduct throughout this transaction was reprehensible and altogether unworthy of a man occupying the position of a public representative.

MURRAY MCG. BAIRD. Murray MCG. Baird, who, it has been announced, is the Rhodes scholar this year from U. N. B., is a son of Mr. and Mrs. H. E. Baird, of Fredericton. He is a member of the senior class and was elected out of four candidates. The new Rhodes scholar is a native of Salmon Creek, Queens county. With his family he removed to Fredericton in 1905 and since that time has attended the public schools of the city, the Fredericton High school and the University of New Brunswick. He gave evidence of an excellent scholarship while at High school among other honors winning the prize for highest general standing on graduation. At the University of New Brunswick he also distinguished himself. During his course he won the William Crockett memorial prize, the Wilford scholarship and the alumni gold medal. In addition to showing the marks of a good student, he has been prominent in various branches of college activities. He played forward on the Rugby team and was a member of the Intercollegiate championship. He also was a member of the debating team last year. He is an editor of the University Monthly and is prominent in Y. M. C. A. work. Mr. Baird is being warmly congratulated. He will take up residence at Oxford next September. Albert C. Baird, a brother, led the U. N. B. class last year and is now professor of physics in the Kansas State Agricultural College. His sister, Edna, was studying music in Germany at the outbreak of war but managed to get out of the country. Mr. Baird is the third Rhodes scholar to be sent from Fredericton. The others were Rev. L. Ralph Sherman and Prof. J. Arthur Estey, Arthur N. Carter, now serving in France, and the last scholar sent by U. N. B., attended Fredericton High school for a time.

Senior physics—Class I—MacLean, Gilbert. Class II—Mooney, Baxter, Flood. Class III—Turner. Junior physics—Class I—McGibbon, Turner, MacLean. Class II—Moore, Oldham. Class III—MacDonald. Senior electrical engineering laboratory—Class I—MacLean, Moore, Oldham. Senior machine design—Class I—MacLean, Baxter. Junior machine design—Class I—Moore, McGibbon, Oldham. Senior mechanics of materials—Class I—Flood, Mooney. Class II—MacLean, Lynch. Class III—Baxter, Turner. Sophomore mechanics of materials—Class I—McWilliam, Barnett, Carney (Burgess, McAllister). Senior physics laboratory—Class I—Barnett, Turner, Carney, Bennett, Burgess. Class II—McWilliam, Bruce, Saunders, McAllister, Snodgrass. Senior machine design—Class I—MacLean, Baxter. Junior machine design—Class I—Moore, McGibbon, Oldham. Senior mechanics of materials—Class I—Flood, Mooney. Class II—MacLean, Lynch. Class III—Baxter, Turner. Sophomore mechanics of materials—Class I—McWilliam, Barnett, Carney (Burgess, McAllister). Senior physics laboratory—Class I—Barnett, Turner, Carney, Bennett, Burgess. Class II—McWilliam, Bruce, Saunders, McAllister, Snodgrass. Senior machine design—Class I—MacLean, Baxter. Junior machine design—Class I—Moore, McGibbon, Oldham. Senior mechanics of materials—Class I—Flood, Mooney. Class II—MacLean, Lynch. Class III—Baxter, Turner. Sophomore mechanics of materials—Class I—McWilliam, Barnett, Carney (Burgess, McAllister). Senior physics laboratory—Class I—Barnett, Turner, Carney, Bennett, Burgess. Class II—McWilliam, Bruce, Saunders, McAllister, Snodgrass. Senior machine design—Class I—MacLean, Baxter.
