What To Do With The Coat You Never Worn

CITIZEN DRAWS ATTENTION TO OPPORTUNITY.

Opportunity to do a bit of charity work is drawn attention to by a business man. He says:

Like many others, I was not aware that the Red Cross is carrying on this necessary work. I am sure, right here in Kitchener, our charitable attitude would equal at least a car load of wearing apparel that would be highly welcomed by these people.

The article referred to follows: A shivering, well-nigh naked body is aching to huddle its emaciated form within that coat you never wear. Charity begins at home, but it only ends when suffering is no more. Almost naked and the destitute refugees of lands just released from the Teuton grasp, according to Col. Harvey D. Gibson, the American Red Cross representative in Europe. Therefore the Red Cross appeals to every man, woman and child to send every available discarded article to the local chapter from which it will be forwarded to the suffering people abroad with all dispatch. More than ten thousand tons of used clothing, shoes and blankets must be sent immediately.

The appeal is timed for the season of the year when people are laying aside their winter garments and clearing out their wardrobes and storerooms. There is not one person in a hundred—perhaps not one person in a thousand—whose eyes fall upon this appeal whose home will not yield at least one cast-off piece of clothing or bedding. But let everybody send something. If it be clean and whole it is acceptable. We who are well nourished and warm cannot conceive what relief his clothing gives to these until recently hounded human beings, so long deprived of even the bare necessities of life, not to mention the ordinary creature comforts.

Don't fail to extend the helping hand. The need is great to a degree that few here at home can possibly realize. Every garment furnished will cover a body which lacks proper clothing. If it is only a pair of baby's socks—send it. It will help to alleviate suffering beyond description.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the closest of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to so fasten the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Good-Business Head
Maggie had a new baby brother which everybody agreed was such a baby as had never been seen before. Says an exchange, "One day the baby was being weighed, and Maggie asked what that was for."
"Oh," said her father Uncle George has taken a great fancy to baby and he's offered to buy him for a shilling an ounce."

Maggie looked startled. You're not going to sell him, are you, daddy?"
"Of course not, precious," answered daddy "proud to see his little girl loved her brother so."

No. Keep him until he gets a bit bigger" the child went on; he'll fetch more money then."
