

THE BLESSING OF A HEALTHY BODY

Has Not Had An Hour's Sickness Since Taking "FRUIT-A-TIVES".

MR. MARRIOTT
73 Lees Ave., Ottawa, Ont.,
August 9th, 1915.

"I think it my duty to tell you what 'Fruit-a-tives' has done for me. Three years ago, I began to feel run down and tired, and suffered very much from Liver and Kidney Trouble. Having read of 'Fruit-a-tives', I thought I would try them. The result was surprising. During the 2 1/2 years past, I have taken them regularly and would not change for anything. I have not had an hour's sickness since I commenced using 'Fruit-a-tives', and I know now what I haven't known for a good many years—that is, the blessing of a healthy body and clear thinking brain."

WALTER J. MARRIOTT.
Box 6, for \$2.50, trial size, 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

A Beautiful Hope.

Every day is a fresh beginning
Every morn is the world made new
You who are weary of sorrow and sinning.

Here is a beautiful hope for you—
A hope for me and a hope for you.

Every day is a fresh beginning;
Listen, my soul, to the glad refrain:
And, spite of old sorrow and older sinning,

And puzzles forecasted and possible pain,
Take heart with the day, and begin again.

—Susan Coolidge.

Concerning the Tobacco Craze.

As we look around and see, and hear, and read of the well nigh overwhelming force of nicotine obsession, that seems to have blinded the eyes, and bewildered the brain of so many of our Canadian women, we cannot but wonder what it all means. Sometimes it seems as though instead of supporting national righteousness, and personal purity, we had capitulated to the enemy, and was giving him the right of way, of which he is not slow to avail himself.

A glimmer of light in the overhanging darkness, is the stand taken by our loyal, patriotic, and consecrated women of the W. C. T. U. sisterhood, who because of their mother-love for the soldier boys who have gone out from their own and other homes, have risen to protest against the injury inflicted upon them by the wholesale administration of tobacco poison—a great and grave wrong by whomsoever perpetrated.

Our Canadian citizenship ought to know something of the damaging effects of tobacco fit its various forms upon the human heart, nerve and brain. Surely the women at least know, if they would stop to consider, that whether in Canada or "Some-where in France," the beneficial results of its use are the same.

According to reports that come to us, it is smoke, smoke, always and everywhere, wherever the soldiers are, in the trenches, in the tents, and worst of all, in the hospitals. Pity the soldier!

A returned soldier, speaking in Toronto, is reported to have said, "Ninety-eight per cent. of the men in the trenches smoke, the other two per cent. will."

Presumably they have to do it in self-defence, as the abominable stuff begets them on every hand. Will it be possible for any mother's son to escape its contamination, no matter what his up-bringing may have been? We have to face the appalling fact, however unwilling we may be to do so, that the poor fellows have not much chance, with gas poison hurled upon them from the enemy's side and tobacco poison thrust upon them from the side of their mistakes friends—

fusillades of poison, both alike deadly in their effects.

Among the much to be dreaded aftermath of this heart-breaking war, we may be morally sure, that not the least, will be the mental and physical wreckage that will come back in the place of the pure, strong, virile, intelligent young men who went out from us. And we may be just as sure that one large factor in it will be this stupendous folly that seems to have taken possession of our people.

C. B. BIGLOW.
Aultsville, March 9th.

Temperance.

A TERTOTAL LORD MAYOR.

For the first time in its 700 years' history the City Corporation of the British metropolis is to have a teetotal Lord Mayor next year. "Yes there never was another," said Sir Vezev Strong, the gentleman who will break the ancient record, when, in due course, he succeeds to the Lord Mayorial dignity. Speaking prior to the voting, the distinguished candidate said: "It's a bold departure—if it should happen. For you must not forget that I am merely a candidate for the office. There are probably five or six other candidates, and the choice rests absolutely with the Livery of the City—which numbers no fewer than 8,000 voters—to say which of the candidates shall be elected to this ancient office."

"The Corporation's views on Sir Vezev's temperance opinions remained," he said, "to be seen. I have always felt in the City of London that the greatest toleration is shown in these matters," remarked Sir Vezev, "and I have confidence in believing that the practice I have pursued for so many years, and intend to pursue for the rest of my life, will make no difference whatever to their undoubted right of selection for the post of Lord Mayor."

"And how do you drink the King's health?" was asked by a press representative. The coming Lord Mayor replied: "In such innocent liquids as happen to be at hand. King Edward expressly authorized, through an official communication, the drinking of his health in any non-intoxicating liquid; and King George V., very early in his reign, gave his permission to follow the practice."

It will be a source of satisfaction to temperance workers in Great Britain and elsewhere that Sir Vezev duly secured the majority at the election. When inaugurated in office he will be a distinguished and steadfast advocate of the teetotal principle.

A Talk On Rheumatism.

TELLING HOW TO CURE THIS COMMON AND PAINFUL MALADY.

This article is for the man or woman who suffers from rheumatism who wants to be cured, not merely relieved—but actually cured. The most the rheumatic sufferer can hope for is rubbing something on the tender, aching joint, is a little relief. No lotion or liniment ever did or can make a cure. The rheumatic poison is rooted in the blood. Therefore rheumatism can only be cured when this poisonous acid is driven out of the blood. Any doctor will tell you this is true. If you want something that will go right to the root of trouble in the blood take Dr. Williams' Pink Pills. They make new, rich blood which drives out the poisonous acid and cures rheumatism to stay cured. The truth of this statement has been proved in thousands of cases throughout Canada, and the following cure is a striking instance. Mr. Henry Smith St. Jerome-Que., says: "For upwards of a year I was a victim of rheumatism in a most painful form. The trouble was located in my legs and for a long time it was so bad that I could not walk. The suffering which I endured can only be imagined by those who have been similarly afflicted. Doctors' treatment did not help me and then I began trying other remedies, but with no better results. Finally I was advised to try Dr. Williams' Pink Pills, and although I had begun to lose faith in medicine, I finally decided to give the pills a trial. I am very grateful now that I did so, for after taking eight boxes of the pills the trouble completely disappeared. I was free from pain and could walk as well as ever I did in my life. I have since taken the pills occasionally as a precautionary measure, and I can not speak too highly in their favor."

Dr. Williams' Pink Pills cure all the troubles due to weak, watery blood or broken down nerves. You can get these pills through any dealer in medicine, or by mail postpaid, at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

"I say, Mike, what's all this talk about saving daylight?"
"Well, you see, Pete, it's like Rafferty's blanket."

"It was too short to cover his feet, so he cut a fut off the top an' sewed it on the bottom, an' he's powers the blanket wasn't a bit longer than it was before."

Could Not Sleep.

Miss Gertrude Pratt, Wolsley St., Barrie, Ont., writes: "I was very much run down and could not sleep either day or night and my arms and legs ached so that I was very miserable. After using six boxes of Dr. Chase's Nerve Food I feel well and strong again."

Wife—John, you'll have to take that ball away from baby; he's sister on the head with it.
John—Yes, dear, but you should have seen the curve the cute little runs had on it.

Minard's Liniment for sale every-where.

THE OLDEST FLAG

If the question was asked which country's national flag has been long set in time, the answer would be either the dragon banner of China or the chrysanthemum flag of Japan. The former has been used from a very early period, and the latter is as old as the present dynasty in Japan, which is the most ancient in the world. Amongst European national flags that of Denmark, a white St. George's cross on a red ground, is the most ancient, having been in use since 1219. No other flag has existed without change for anything like the same period as a national emblem although there are Royal Standard flags that are older. The Spanish color date only from 1785, and the British flag, in its present form, was first flown after the union with Ireland in 1801. The Stars and Stripes of the United States is older than Britain's for it was first planned and ordered by Washington of an upholsterer in Philadelphia, and formally adopted on June 14th, 1777.

Repairing Window Screens

An old broken fly-screen frame was made quite rigid with the use of metal braces, cut as shown and fastened with nails to each corner. The brace was cut from sheet metal, and the edges a and b were cut and bent at right angles to the main part, with their extreme edges bent over the frame. These were sufficient to make the frame as rigid as a new one.—From Popular Mechanics.

THRIFT MEANS DETAILS

Canada Needs New Quality, if She Becomes Great

A writer in the Canadian Tatler says: "What is thrift? To my mind, thrift to Canada today is the same as thrift to the Americans at the present moment. It is an essential factor in our national life. The Government has recognized this principle, by carrying on an extensive campaign with the idea of educating Canadians. Good as the educational campaign along this line has been it has lacked the first essentials that make for success. Thrift begins with the little things in the daily routine of our living.

It was the late Sir William Van Horne, that great Canadian with the same ideas of life, who told an interviewer that "success in life means spending one dollar, if you only earn two dollars." With this as the fundamental idea must we begin to instill thrift into Canadians as a people. Canada may be likened to the young man who has sown his wild oats and a young nation Canada has "had its fling." It is just about time we Canadians decided to settle down if we are to become great in a world sense.

Lost Liners Many

It seems incredible that a ship could utterly vanish, but that such an occurrence is possible is shown by the long list of liners that have been lost with all hands in the wide Atlantic. There was the President, with 136 souls on board, which utterly vanished in 1841; 480 passengers and crew, which disappeared without trace in 1844; and two years later the Pacific, which sailed from Liverpool with 240 aboard and was never more heard of. The Tempest, another big liner, vanished in 1859; the City of Boston in 1870; the Haronian in 1892; the Warwick in 1910, and of the fate that befell them the world has never yet gained tidings and probably never will.

Aviators as Fire Rangers

In Wisconsin the forest service established an aeroplane patrol. The State expert reports: "The efficiency of an aeroplane in spotting forest fires is without doubt as practicable as any use to which it could be put. I myself was very much surprised with that ease a fire could be spotted and located, and there is no question in my mind but what the aeroplanes will practically do away with some observation towers. The use of the aeroplane in the European war in the way of spotting and locating gun fire, armies of men, supply trains, etc., is well known, all of which objects show up comparatively small in comparison with forest fires.

Lancashire Lassies on the Land
"Judicially amongst Lancashire farmers against the national movement for employment of women on the land has almost entirely disappeared, says a correspondent.

NOTICE

Town of Wolfville

DAIRIES AND MEAT DEALERS

All persons keeping a dairy for the purpose of selling milk to the citizens of this town will be required to register at the Town Office annually; a periodical inspection of such dairies shall be made by the Medical Officer of Health.

The vendors of meat shall also be subject to the same regulation. (Sec. 69 and 70.)

Extracts from Provincial Health Act, approved and adopted by Board of Health, Town of Wolfville.

Application for license must be in the hands of the town clerk on or before Oct. 21st, 1915.

W. M. BLACK, Town Clerk.

Pupils Should Know.

1. That no alcoholic drink, whether beer, wine, brandy or any other, contains any nourishing or strengthening value worth mentioning.
2. That the alcohol contained in all alcoholic drinks is a poison which disturbs the life processes of the cells and tissues; and therefore injurious to the health.
3. That the use of alcohol induces serious acute and chronic diseases of all the vital organs—particularly the stomach, the kidneys, the liver, the heart and the brain.
4. That the use of a "cognac" leads to mental and physical fatigue.
5. That the habit of "one of alcohol" is a daily enfeebling of the brain.
6. That whoever wishes to be efficient must not get the habit of using alcohol, which leads easily to the same.
7. That the sober worker usually outstrips his fellow workmen who use alcohol.
8. That alcohol intoxication, by disordering the mental faculties leads easily to unlawful conduct, as well as to debauchery.
9. That every expenditure for alcoholic drink diminishes the means for attending to the duties of the day.
10. That efficiency in manufacture and other industries is impaired by alcohol, as is the power to compete with the makers of the world.—"Vanguard."

Minard's Liniment Cures Dandruff

Pat Was Patriotic.

A man in a certain Irish regiment had lost an arm at Ypres, and was found a job at minding a level crossing on a railway.

One of the officials explained his lutes to him, and showed him the different flags and the way they were used.

"You'll have this green flag," he said, "if everything is all right, but if a train is coming along, and you think there is any danger about you wave this red flag."

Pat interrupted hurriedly: "No, that'll never do," he declared, shaking his head. "I'd never trust myself to remember to wave a red flag when there was a green one handy."

Minard's Liniment Co., Limited.

Gentlemen, last winter I received great benefit from the use of MINARD'S LINIMENT in a severe attack of La Grippe, and I have frequently proved it to be very effective in cases of Inflammation.

Yours,
W. A. HUTCHINSON.
