	PAGE.
Detailed report, regulation and alorage possibilities—Continued.	
Ridean locks gauge and flow measured at Besserer's Grove	
Highest and lowest recorded waters on the Ottawa river	266
Discharge curve at Besserer's Grove	271
Snow tests at Britannia Ray	272
Floods	274
Years of extreme low water	274
High, ordinary and low flow of the Ottawa river, with corresponding water lev	
Reservoirs	
Upper Ottawa watershed	276
Storage possibilities	
	280
Cost of reservoirs	280
Non-interference with lumbering operations	280
Discharge at Beserer's Grove, 1874	
Regulation of flow	
Gradient	285
Water Powers	287
Preservation of forested areas recommended	288
Federal control recommended	288
Present development	291
Possible development	292
Investigations by the hydraulic engineer	294
Leases or sales of water-powers on the Ottawa River by the Ontario and Qu	
governments	299
Conditions at the Chandière Falls, Ottawa	300
Dams proposed in connection with the regulation of the waters of the Upper Ot	tawa

Dams proposed in connection with the regulation of the waters of the Upper Ot River vatershed	tawa 303 308
Dams proposed in connection with the regulation of the waters of the Upper Ot River vatershed	tawa 303 308 309
Dams proposed in connection with the regulation of the waters of the Upper Ot River vatershed	tawa 303 308 309
Dams proposed in connection with the regulation of the waters of the Upper Ot River vatershed	tawa 303 308 309 310
Dams proposed in connection with the regulation of the waters of the Upper Ot River outershed	tawa 303 308 309 310
Dams proposed in connection with the regulation of the waters of the Upper Ot River vatershed	tawa 303 308 309 310 310
Dams proposed in connection with the regulation of the waters of the Upper Ot River vatershed	tawa 303 308 309 310 310 311
Dams proposed in connection with the regulation of the waters of the Upper Ot River vatershed. Recommendations. Leases or sales of water lots. Damage cansed by raised water surface. Linmber Interests and Floating of Logs. Present conditions. Yearly ontput. Necessity of improved methods. Preservation of the forests.	tawa 303 308 309 310 310 311 312
Dams proposed in connection with the regulation of the waters of the Upper Ot River vatershed. Recommendations. Leases or sales of water lots. Damage cansed by raised water surface. Linmber Interests and Floating of Logs. Present conditions. Yearly ontput. Necessity of improved methods.	tawa 303 308 309 310 310 311 312
Dams proposed in connection with the regulation of the waters of the Upper Ot River outershed. Recommendations. Leases or sales of water lots. Damage cansed by raised water surface. Linmber Interests and Floating of Logs. Present conditions. Yearly ontput. Necessity of improved methods. Preservation of the forests. Conditions on the Mattawa and French rivers.	tawa 303 308 309 310 310 311 312 312
Dams proposed in connection with the regulation of the waters of the Upper Ot River vatershed. Recommendations. Leases or sales of water lots. Damage cansed by raised water surface. Linmber Interests and Floating of Logs. Present conditions. Yearly ontput. Necessity of improved methods. Preservation of the forests. Conditious on the Mattawa and French rivers.	tawa 303 308 309 310 310 311 312 312
Dams proposed in connection with the regulation of the waters of the Upper Ot River vatershed. Recommendations. Leases or sales of water lots. Damage cansed by raised water surface. Linmber Interests and Floating of Logs. Present conditions. Yearly ontput. Necessity of improved methods. Preservation of the forests. Conditious on the Mattawa and French rivers. Distances. Comparative distances, Fort William to Liverpool.	tawa 303 308 309 310 311 312 312 313
Dams proposed in connection with the regulation of the waters of the Upper Ot River vatershed. Recommendations. Leases or sales of water lots. Damage cansed by raised water surface. Linmber Interests and Floating of Logs. Present conditions. Yearly ontput. Necessity of improved methods. Preservation of the forests. Conditious on the Mattawa and French rivers. Distances. Comparative distances, Fort William to Liverpool. Sailing distances.	tawa 303 308 309 310 311 312 312 313 313
Dams proposed in connection with the regulation of the waters of the Upper Ot River vatershed. Recommendations. Leases or sales of water lots. Damage cansed by raised water surface.
