

Dr. Hess' Stock Food

WILL MAKE MONEY FOR YOU

It is a scientific compound of the essential elements that are lacking in the various foods upon which Horses, Cattle, Hogs and Sheep generally subsist.

It produces flesh by compelling the system to do its best. It permits no food to pass off undigested. It wards off disease. It is called a food for want of a better name. It is not exactly a medicine, nor a substitute for hay and grain and other foods. It is both nutritious and curative. It is not a stimulant, but a tonic. It aids the digestion, and thereby gets the most muscle and fat and milk and wool out of the various foods that the horses and hogs and cows and sheep eat.
