

Co-Operation Not Competition is the Life of Business

CO-OPERATION is simply working together. By such action we can accomplish what is hard or impossible to obtain by individual effort. By pooling our interests, concerted action is promoted, and co-operative effort attains the desired result. Those who ordered their cement before March 29, may consider themselves fortunate; as the price is now twenty cents per barrel higher for MAY shipment. We are also advised that the railroads are liable to advance their freight rates, and they do before that time we shall be obliged to charge accordingly.

Coal Oil and Gasoline have advanced two cents per gallon, and sugar six cents per hundredweight during the past three weeks.

Coal Oil and Gasoline have advanced two cents per gallon, and sugar sixty cents per hundredweight during the past three weeks.

Farmers having seed corn and potatoes for sale may forward samples to this office, stating price, variety and quantity. We expect to have

We expect to have our coal prices ready in about one week or ten days, and are still soliciting estimates.

Our Produce Department is progressing rapidly. Get our prices before selling your butter and eggs elsewhere. Always send us a statement of what you are shipping.

We are in position to quote special prices on fertilizers, groceries, implements, seeds, spray material, gasoline engines, etc.

THE AVONDALE CONSIGNMENT TO
THE BROCKVILLE SALE.

A VONDALE Farm is planning to carry over their annual sale for at least another year, owing to the shortage of cattle. A number from Avondale will, however, be consigned to the Brockville sale on April 25. They will consist of a number of very select

animals. It will be noted that the herd sires that have so far been used in the date—namely that the herd sire, King Pontiac Arts Canada, Prince Hengerveld, Woodcrest Sir Clyde, and possibly the greatest sire, CHIEF OF THE SYLVIA PONTIAC. In regard to these noted sires, it will be remembered that the senior sire, Prince Hengerveld Pietje was one of the greatest producing sires of the breed, and his sons, hardly without an exception, through their production of milk and butter, only prove the great transmitting power that is found in this wonderful sire. He now has a number of daughters well over the 30 lb. mark. Two of the daughters are under four years old. Another one is, reg-

If the proper selection of seed is not made, the labor, the time, and the land is bound to be wasted to some extent at least.

"McDonald's Tested Seeds" are famed far and near as producers of abundant yields—they are thoroughly reliable.

The following are a few of McDonald's outstanding specialties:
