

June 6, 1918.

Another breeder, who, as a member of the executive of the association, did not wish to have his name known, said that as far as he was concerned, he did not care for the proposed change, but he had such difference to the breed, but he could see no real reason for making the change. "Friesian" sounds just as foreign as the name "Holstein," said he, "and is not Prussian." Now, if the name were "Prussian-Friesian" I wouldn't stand for it a minute. But you lack on a certain point. This breeder informed us further that recently the Government of Holland was asking for 1000 black and white cattle from America after the way and the Dutch didn't even mention "Friesian" cattle; what they asked for was "Holsteins."

GRADE HOLSTEIN BRINGS \$400.
The sale of grade Holsteins held May 1st at Denver, Colo., by Hall Bros., establishes a new world's record for high prices paid for unregistered animals of any breed. These were all grade Holsteins and had been bred from pure bred cows at the Western Holstein Farm. Hall Bros. maintained a pure bred herd in connection with it, keeping the grade to produce the extra amount of milk required in their business. As the grade had been now grown to a considerable size, they decided to sell the grade, and the sale was extremely advertised. The high price for the grade was \$100, paid by H. Leadman, of Golden, Colo., for a four-year-old of Canada breeding. No less than fifteen cows were sold for \$100 each, and a total of 76 of these grade Holsteins bought over \$500 per head. The entire lot of 134 head totaled \$27,875, which is an average of \$206.59 per head. The cattle were largely taken by Colorado dairymen.

A 43.08 CANADIAN COW.
The most sensational butter record ever made in Canada, is that of a registered Dutchland Aris. Freshening at the age of six years and three months, she made 416 lbs. butter from 50.4 lbs. of milk, with an average butter fat test of 5.26 per cent. This same cow, three years ago, as a three-year-old, made 34.6 lbs. butter from 37.2 lbs. milk testing 4.88 per cent. record that has never since been beaten by any other cow of her age. The row comes back as a mature cow with this record, beating all other cows in Canada at the age of six years. Her last day she gave 190.4 pounds milk, testing 5.58 per cent. fat, equal to 107 lbs. butter. She is a sister to Lakeview Dutchland Calamity Rose, the world's champion two-year-old with first calf. Her dam, Lakeview Aris, is a sister to Lakeview Aris, who has 32.8 lbs. milk and 38.08 lbs. butter. Her sire is Sir Mona, whose three sisters are world record year cows. This was bred and is owned by Major E. F. Osler, Jersey Stock Farms, Bronte, Ont.

GOD LAKESVIEW FOR CANADA.
B. M. BULL AND SON, of Brampton, write us that their cow, purchased on the Island of Jersey, the cow, and her name is "The Jersey Cup," which is the highest prize that is awarded on the Island of Jersey, and this will be the first time that the Theatre Cup cow has come to Canada. In addition to this they have purchased "The Jersey Cup" for \$10,000 and the daughter of a \$10,000 cow and the sire of their island purchases is a heifer that is just finishing a two-year-old record with 827 1/2 lbs. of milk and 402 lbs. of fat. This new importation, which is expected to arrive in Quebec during the early part of June, will be composed of 22 females and two bulls. One of the bulls is a two-year-old prize winner on the Island of Jersey, owned by H. J. His dam, granddam and great-granddam, have all official island butter records. The second bull purchased, "The Jersey Cup," is a son of the bull for which Mr. Proctor paid \$25,000. This bull being purchased with a number of his daughters under the latter are making such a wonderful showing.

THE JERSEY TWO-YEAR-OLD CHAMPIONSHIP.
In last week's issue of Farm and Dairy, I mentioned that the Jersey cow, owned by E. W. Grammett, Echo Place, Ont., was credited with being the champion two-year-old Jersey cow of Canada in Record of Performances, with a production of 9,447 lbs. of milk and 573 lbs. of fat. This is not correct. The Jersey heifer, Dorothy of Ayrnroth, owned and bred by E. H. Barton, Chilliwack, B.C., stands at the head of the Jersey two-year-old class in the Record of Performances, with 11,837 lbs. of milk and 666 lbs. of fat. Both are good heifers, but the British Columbia animal is holding first place by a considerable margin.

AVERAGE OF \$1,536 ON GUERNSEYS.
The greatest sale of Guernseys ever held in the United States occurred at the American Guernsey Cattle Club's convention sale. Sixty-seven bulls averaged \$1,536, one bull fetching \$10,000 and a cow \$2,000. Four other bulls sold at \$1,250 to \$2,200, and twelve females from \$1,100 to the top figure, two reaching the even \$5,000.

LAKEVIEW HOLSTEINS
Every male or female offered by us are either sons or daughters of these 11 cows average 100 lbs. milk daily and 31.34 lbs. butter in 7 days; 16 cows average 30.86 lbs. butter in 7 days; 3 average 34.57; 3 average 39.53; 2 average 42.56, and one made 43.08.
We offer for sale a show bull 3 years old, mostly white, sired by Dutchland Calamity Sir Mona and from Lakeview Lestrangle, 741.9 lbs. milk, 38.08 and to Lakeview D. Calamity Rose, the world's highest producing 2-year-old. This bull can be bought right, on terms to suit purchasers. Remember the records for butter. Photo and extended pedigree on application.

SUNNYSIDE STOCK FARM HOLSTEINS
ECHO SEGIS FAYNE, our herd sire, is by a brother of the world's 50-lb. cow, Segis Faysa Johanna. He is a grand bull in every way, and is not just from one month to seventeen months old at a price. Also have bulls and out of grand producing cows. If you need a well backed bull, write or
JOHN N. MONTLE, Prop. Sunnyside Stock Farm, STANSTEAD, QUESNEL

HOW did the famous Walker Family make such persistently high records from one generation to another?

WHY did these bulls and numerous others sell for such enormous prices? Why were these cows able to produce such phenomenal butter records? Why did I choose the same blood as all of them when I laid my foundation for a Holstein herd?

BECAUSE they represent REAL HOLSTEINS, the select class, the kind that you can't buy everywhere.

- Here are prices paid for bulls of similar breeding to this herd:—
- King Segis Pontiac Alcarita \$50,000
 - King Ormsby Jane Rag Apple 53,200
 - King Segis Pontiac Konigen 35,000
 - Rag Apple Koradyke 8th 25,000
 - Johanna McKinley Segis 25,000
 - King Segis Pontiac 25,000
 - King Segis Pontiac Chicago 20,000
 - King Champion Rag Apple 20,000

Real Foundation Here are the records of the Walker Family:—

	Butter	Milk	Fat
Prilly, at 10 years	38.3	456.4	4.4
Beauty Pieterje	35.5	518.3	4.7
Lillian Wear Pieterje	30.01	611.4	3.93
Ruby W. Pieterje	30.23	585.9	4.95
Segis Walker Pieterje ..	37.85	471.4	4.7
Queen Walker Pieterje ..	30.73	504.3	4.85

(Each is a daughter of the preceding one.)
Sixth generations of practically 30-lb. cows. Combine this with the blood of Pontiac Koradyke and King Segis and you have the breeding of most of this herd.

NOW get in the game. Come to HAWA take your pick from 60 HEAD

Sale will be held at Farm

HOLSTEINS
NOW the chance is yours. REAP the benefit of my wise selection. Some of our offerings:

- 4 30-lb. cows, one of them a daughter of Pontiac Koradyke.
- 4 daughters of Sir Lyons Hotgerredd Segis, with mature records, averaging 28 1/2 lbs. 30-lb. 4-year-old and 25 lbs. 3-year-old.
- 4 30-lb. bull calves and several others, almost equally good.

Urmagelise Segis, 27.5 lbs., who with her dam and two daughters averaged over 5 per cent. fat.
Every female is bred by 30-lb. bull, and every female old enough is bred to 30-lb. bull.

Real Production Here are the records of cows of similar breeding:—

	Butter	lbs
Segis Faysa Johanna	50.68	
Fairview Koradyke Maia	47.16	
Fancher Farm Maxie, 4 years	46.84	
Mable Segis Koradyke, 4 years	40.32	
K. P. Diana Pieterje	44.18	
K. P. Pontiac Lora	44.18	
R. K. S. V. Topay, 3 years	40.28	
Ormsby Jane Segis Anggie	46.13	

These cows are either daughters or granddaughters of Pontiac Koradyke or King Segis, or both. So are the cows offered for sale.
