The John Abell Engine and Machine Works, Toronto

THE "DUPLEX" CORN & FEED MILL

Why the "Duplex" should be bought in preference to all others:

- 1st—Because it is a Duplex Mill, and having double grinders, is capable of doing much more work than any other mill the same size.
- 2nd—Because it is the only Mill in the world that grinds on both sides of the revolving burr at the same time.
- 3rd—Because it is the most perfect in construction, the strongest and most durable.
- 4th—Because it produces better meal; does not heat by long running, having no toe to get hot.
- 5th—Because the grinding rings cannot be injured by the Mill running empty, and if broken by accident can easily be replaced.
- 6th—Because it has a positive face feed, gradual reduction plates, a continuous frame; and because it is the only Mill that grinds ear corn and all small grain with equally good results.

Having secured the patent of the above Mill for the Dominion of Canada, I am now prepared to supply the "Duplex" Corn and Feed Mill.

For further particulars address
263-tf **JOHN ABELL, Toronto.**
