

A Good-Crop Necessity—

Champion Spring-Tooth Cultivator

Cultivate your soil frequently and regularly. The increase in quantity and quality of yield makes it well worth while. More than pays the cost.

When you cultivate with this CHAMPION Spring-Tooth Cultivator, you not only rid your soil of all weeds and trash, but you also leave it in proper shape to store up soil-moisture for the growing crop.

“CHAMPION” Superiority Shown at Every Point

You have only to examine the CHAMPION'S design and construction to realize that here is a Cultivator that **must** do good work. Its frame is of heavy steel—securely reinforced. Tooth-section cross-bars are RIVETTED, instead of bolted. They will never come apart.

Either 2" or 7" points may be used on the teeth. The 2" are reversible—good for double-wear. Tooth-sections are independent of each other, with a separate pressure spring to each section. One lever controls all the sections—enabling the teeth to thoroughly cultivate the most uneven soil.

OUR COMPLETE CATALOG

Illustrates and fully describes the "Champion" in 10-12-13-16 tooth sizes—with or without grain and grass-seed boxes. See our agent or write for a copy to our nearest branch.
