NTERNATIONAL RY. IN PUBLIC ACCOUNTS

Explained

Original Bonds o Cancelled When New Ones Issued-Another Petty Overdraft and this was finally arranged without

> FREDERICTON, N. B., May 11-The chief interest in the proceedings of the legislature today centred in the public accounts committee, which met this morning and for two hours discussed the expenditures of the late government as set out in the auditor general's report. In all they examined some 5 pages of the report and passed by most of the items with a casual review. The payment of a portion of the subsidy due the International railway brought on a discussion of the affairs of that company and its relations with the government which were in no way connected with the auditor's report. At the last session of the legislature authority was given the government to guarantee the bonds of the International rallway to the extent of \$8,000 a mile, the province to have a first mortstock and buildings of the company. The company in return was to give a guarantee to the government to pay the interest on the bonds during construction. The road was also to receive

Miss Edith Woodman of Grand Pre is the talented accompanist and asgage, similar to the first mortsists both chorus and orchestra throughout, and too much cannot be to be paid for seven years. In other words, the province was to be secured for the full amount of its advances to musical genius. The future has great the International railway, but the company was to pay interst during the first seven years only on the amount of the guarantee of \$8,000 per mile. Under a previous act when the In-Andante Con Moto.. Hoffmar ternational was known as the Restigouche and Western Railway, the bonds of the company were guaranteed

by the government to the amount of \$150,000. Under the provisions of last year's legislation these bonds were to be cancelled and the mortgage given cancelled. In February last the executive council considered a report of the engineer engaged to report on the work performed by the International Company, which showed that the expenditures on account of construction up to December 21, 1907, amounted to \$1,207,019.77, and on this report the Provincial Secretary recommended that province gnarantee the bonds of the company, to the extent of \$400,000, O. U. W., where similar action was which amount was to include the original guarantee of \$150,000, which bonds were to be headed over by the assigness of the Rectigouche and Western Conveny and cancelled. OLD FORESTERS MUST PAY HIGHER RATES

Double Bond Issue Head of I.O. F. Tells of Higher Charges

> Forester Who Entered at Twenty, Ten Years Ago, Owes \$26.43

WINDSOR, Ont., May 10.-At a largely attended meeting held in Harmony Hall, Supreme Chief Ranger Elliot G. Stevenson of the Independent Order of Foresters made an important announcement to the members of the order. It was nothing less than that by the civil service commissioners the time had arrived when the I. O. against the marine department. F. must raise its rates of insurance to

certain members of the society.
It had been found, Mr Stevenson de clared, that older members are being carried at unsafe figures, and to place the insurance branch on a sound and substantial basis, three options, or plans, are now offered to the older members to retain their insurance. They may contribute the difference between the old and new rates, with four per cent. interest compounded, and continue under the new rates, they may have a new rating which will make up the difference, or they may have a certificate for a reduced amount that can be met under the old rates of assessment.

will have to pay \$44.12; and for 20 fact being shown in the departmental ber who entered at 40 years, owes on 10 years' membership \$117.56; 15 years, lighthouse branch of the departmental \$196.07; 20 years, \$291.59.

If the member desired to carry less Fraser, Col. Anderson said that they nsurance and pay the old rates a had not always agreed as to expendiyears a policy for \$535.

Wilson, after putting pointment was dishonorable and that the rescued men ashore, returned to he was a dishonorable man; therefore the wreck, intending to assist in striphe has not spoken to Mr. Fraser since ping it, but arrived just in time to see the schooner roll over and disappear he came to the department. This was under the breakers. Fraser. He knew of no case of lack

> "Alice and Roger had a frightful quarrel only last month." "Are they reconciled?" "No-married."

The "Favorite" is the Churn for a Woman

No more tired arms-

The "Favorite" can be operated by and or foot, or both - while you are sitting in a chair. Easier than a sewing machine. Steel roller bearings and other improvements make it the ideal churn for farm and dairy. 8 sizes, to churn from 1/2 to 30 gallons of cream.

"Puritan" Reacting Washing Machine

mproved Roller Gear vered - are only two of its many improvements. Reau-tifully finished in Oak, Royal Blue or Wine Color, and Silver MANWALL Aluminum. Write for booklet about these universal favorites, if
