

Sudden Colds. Lung Troubles.

The prompt use of Ayer's Cherry Pectoral has saved thousands of lives. For sudden colds, bronchitis, and inflammatory disorders of the Throat and Lungs, this medicine is an unfailing specific.

I have used Ayer's Cherry Pectoral for asthma. It invariably affords relief. - M. S. Lawrence, Schuylerville, N. Y.
I have used Ayer's Cherry Pectoral for a cough and cold. It cured me in a few days. - M. S. Lawrence, Schuylerville, N. Y.

Ayer's Cherry Pectoral, and found relief. - M. P. Wilkinson, Jenneville, Pa.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Tobacco the Deadliest of All

In an article in the Globe Democrat on tobacco, W. M. Wiggins says: - "There is one thing about tobacco that has always surprised microscopists, and which is highly favorable to that distinguished weed. It is the purest of all vegetable substances when placed under the microscope. There is not an entire absence of micro-organisms of every description, while almost all else in nature even some of the acids are alive with animalcules, microbes, or fungi of some kind. Tobacco is entirely free of everything of the kind. It presents nothing to the microscope but its fibres and texture and its organic structure. Nor does this condition appear to change."

Although the different processes of its manufacture, after being removed from the stalk it presents the same appearance. The microbes appear to be the same, probably because of its distinctive qualities. It is the only vegetable substance which is so free of everything of the kind. It presents nothing to the microscope but its fibres and texture and its organic structure. Nor does this condition appear to change."

Regular monthly prayer meeting of the Truro W. C. T. U. meets on the second Monday of every month, at 3.30 o'clock in the usual place. Dr. Tanner, the famous 40-day fast, is soon to attempt a fast even more startling than his self-imposed fasting of five years ago, which so attracted the attention of both the scientific and general public. He proposes to try himself buried alive, and at the end of four months, to be disinterred; at which time he hopes to anticipate the resurrection, and come forth from the grave alive. He believes that man is as capable of hibernation as wood-bunks, bears and rabbits; and he is so positive in his theory that he is willing to take the danger of putting it into practical execution.

Free Puffs. A paper has established the following rates for puffs: To call a man a "progressive citizen" when it is known that he is laborer than a government mule, \$1.75. Referring to a deceased citizen as "a man whose place will remain vacant," when he knows he was the best poker player in town, \$2.17. Calling a female "a talented and refined lady, a valuable acquisition to society," with variations, \$1.75. Calling a man a liar during a campaign to advertise him, 25 cents. Calling a new-made lawyer "a legal light of whom the profession should be proud," \$1.25.

Eighty Per Cent. Of the human race, according to a high authority, suffer from one or other form of blood taint. Never allow this latent evil to develop into serious disease while the blood can be kept pure and the system clean by proper precautions, such as Burdock Blood Bitters, whenever any suspicious symptoms appear. No medicine equals B. B. as a blood cleanser. Taken In. I used often to read the newspaper advertisement to my wife, said Bert Robinson, and once I was fairly taken by a patent medicine advertising, which the seductive paragraphs began with a modest account of a was serpent, but ended with a glowing forth the virtues of a certain Dr. Pierce's Golden Medical Discovery, which it was alleged, was a sure cure for throat and lung troubles and would even cure consumption, if taken in time. The way I was taken in was this: I had a long trouble and I bought a bottle of the remedy. - I was a stranger to it and it took me in - and cured me.

It Cost Too Much

THE SAD EXPERIENCE WHICH BEFELL ONE OF THE ARMORS.

In the early days of the direct tea trade with China, importers were anxious to secure the earliest cargoes of a new crop. The first cargo brought the best price and large profit. The successful Captain was always rewarded, so every one would aid to navigate in it.

The Captain then returned and took service with a rival line. The next year he reached port in a large vessel, to the great delight of his employers, and the owner of Mr. Astor.

Not long after they chartered to meet, and Mr. Astor equipped. "By the way, Captain, how much did that chronometer cost you?"

"Six hundred dollars, then with a quizzical glance he asked: "And how much has it cost you, Mr. Astor?"

"Sixty thousand dollars," Men are often unfortunate in the selection of what they call watchful chronometers. There are sick men who refuse even when their physician tells them they cannot live, to take Warren's Safe Cure, because it is a "new fangled" proprietary medicine. The result is they lose life and health.

Thousands of other men have been restored to health by it, as the testimonials furnished to the public show. The proprietors have a standing order of \$2,000 for any one who will show that any testimonial published by them is not, as far as they know, a true and correct one.

Dr. Andrew Wilson, Fellow of the Royal Society of Edinburgh, the editor of "Health," London, says, in his magazine, in answer to an inquiry: "Warren's Safe Cure is a perfectly safe, pleasant, and reliable medicine. New fangled notions are sometimes very valuable, and it costs too much to foolishly reject them."

A small country sent a milkmaid. The proper garment for dress: Decollete is bluish roses. Try to Benefit Others. "I had a very bad pain in my side, which one of Dr. Haysard's Yellow Oil cured me. I hope that this may be of some benefit to those who read it." A. R. T. Walker, 44 High St., Hartford, Conn. Yellow Oil is a specific for all inflammatory pains.

Irish Employer (sings): "Don't knock the man's address!" "Well, write to him and find out?" A Life of Ease. Miss Lizzie Ratcliffe, writing from Falkirk, Ont., says: "I find such a cough and cold, and I have been in bed for some time. I have been using your medicine, and I feel much better. I will write to you and find out?"

A Rochester girl has an admirer who brings her chewing gum. She calls him her gumbeast. Few things more wonderful than that instinct that guides the brute in the choice of its food and medicine. In India the mongoose is valued by the dealer in opium, as it is said to seek among the grass for some unknown herb or substance which it swallows and is thereby enabled to counteract the effect of the opium. It is when his system is deranged by the accumulated poisons excreted by constipation or a sluggish habit of body should seek relief in Dr. Pierce's Pleasant Pellets, which will at once establish a permanently healthy action of the liver, stomach and bowels.

The third party may be useful in politics, but it can be dispensed with in court. One of the reasons why Scott's Emulsion has such a large sale is because it is the best. Dr. W. H. Cannon, Hatfield, N. S. says: "I have prescribed Scott's Emulsion for a patient who was suffering from a cough and cold, and I have found it very beneficial. It is a most valuable medicine, and I will continue to use it." Sold by all Druggists, 50c, and \$1.00.

WOMEN THAN MARRIAGE.

A bachelor, rich and cranky, Was sitting alone in his room; His face with the countenance gloomy, And his face was overcast with gloom.

No little one's shrou's disturbed him, From noise the honys was free. In fact, from the attic to cellar, Was quiet, as quiet could be.

No musical aid was lacking; The servant answered his ring. Respectfully heard his orders, And supplied him with everything.

But still there was something wanting; Something he could not command; The kindly words of compassion, The touch of a gentle hand.

And he said, as his brow grew darker, And he rang for the hiring nurse, "Well, marriage may be a failure, But this is a blamed sight worse!"

Railway Notes. The total cost of the Peconic branch railway was \$539,663. The I. C. R. freight sheds are crowded with freight to their full capacity.

Mr. A. M. Kiley, bookman on the I. C. R., who was but a few days ago at Newcastle, N. B., is able to be about again. Mr. Hiram Dockin, chief engineer of the Cape Breton Railway, has been spending a few days in Northern N. B., with friends. He purchased two hundred thousand cord railway ties for his road from parties there.

The "largest" locomotive ever built in Massachusetts was shipped last week from Taunton, Mass., to the Mexican Central road. The engine has a 50-inch cylinder, 11 feet high, 14-inch driving-wheels, and 20 by 24 cylinders.

The people of Shelburne County are agitating for a Railroad. At a meeting held last week in that town some strong claims were presented in favor of it, and a committee has been appointed to draft a memorial setting forth their claims.

A bold attempt was made to wreck a Baltimore and Ohio passenger train near Manfield, Ohio, on the 14th inst. A boy walking on the track discovered several large bundles and a number of sticks upon the track. He flagged the engineer just in time to prevent a horrible wreck.

Work has commenced on the North Sydney Branch Railway. The work is under the control of the Government, and sixty men are employed upon the big cut - thirty at each end. Work has also been commenced on the Sydney Branch.

The number of Pullman passengers on Thursday's express from Quebec was 1,000. The train was crowded with passengers, and the service was excellent. The train was delayed by a snowstorm, but the passengers were well cared for.

WATEROUS IMPROVED

FOR THE LIVER BLOOD STOMACH AND KIDNEYS DANDELION

Webster's Dandelion is a powerful blood purifier, tonic, and diuretic. It is used for various ailments, including liver disease, blood impurities, and kidney issues. It is a natural and safe remedy.

The Housekeeper's Friend.

STEAM COOKER & BAKING PAN. - FOR - Steaming, Baking, Roasting, etc.

It is used for roasting meat and poultry, also for steaming, either on top of the stove or in its own. It is used on top of the stove, being made of this material and setting close to the fire, it will heat and steam quicker than any steamer now in use. It also steams quicker than any other steamer, and its shape makes it more convenient for setting in the oven, where all vegetables can be cooked by steam, doing away with all small and stupid stoves which naturally are so creaking their heels on top of the stove.

Meats and poultry cooked in this pan are not exposed to the heat of the oven. For boiling, it is also invaluable, making it much nicer and lighter, giving it a very rich and even taste. It also makes a delicious hot clove and onion for an omelette. Orders are respectfully solicited, and satisfaction guaranteed.
