Synopsis of Canadian North-West Land Regulations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency (not Sub-Agency) on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within five miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

Acquirer who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months out of three years, cultivate 50 acres and erect a house worth \$300.

The act of cultivation is subject to reduction in case of rough, scrubby or toy land. Live stock may be substituted for cultivation under certain conditions.

W. W. COREY, C.M.G.,
Deputy of the Minister of the Interior

NOTICE

All bills due me must be settled by Feb. 1st, 1916. After Dec. 31st, 1915 all blacksmith work will be strictly cash.

S. R. JACKSON,
Canard, N. S.

"No use, my friend, the current's too strong for you."

SIGNS OF THE TIMES

Made-in-Canada's "Big Victory"—Foreign Advertising Cut Out

One of the best known trade papers in Canada has announced a significant change in its advertising policy in its November issue. The announcement is a matter of public interest, and we reproduce the following extracts: "For years this paper has advocated the use of 'Made-in-Canada' hardware, and the advocacy by retailers of the Canadian Made lines. We believe that there is no other way to build up a strong healthy national life in Canada as effective as the creation of a diversified manufacturing industry, as well as successful agricultural, lumbering and fishing industries. Last month we went a step further than ever before and announced that hereafter we would accept no new advertising contracts from any foreign manufacturer unless they start a branch plant in Canada. When we decided on this policy we expected it would entail a sacrifice, and our expectations have been realized. So far we have (1) Refused to quote rates to a Boston advertiser; (2) Held up a quarter page order until the United States firm involved starts its Canadian branch; (3) Lost a full page from a Canadian wholesale firm and (4) Lost half page from a Chicago advertiser. These losses simplify our problem, however. We want to be the great advocate of 'Canadian-Made' goods, and the sooner that anything to prevent that is removed the better."

CREAM AND BUTTER

Big Saskatchewan Creamery Appeals to the Farmers

The home market is ever the big market for the mixed farmer. A thriving town with many shops and warehouses, factories with busy workers, and railway shops with the hum of activity about them, constitute a market for the food products the farmer has to sell.

While manufacturing industries have not developed much anywhere in Canada in the past couple of years, the start which they received four or five years ago has been sufficient to create a body of workers in many Western cities and towns which is more than equal to the absorption of whatever products of mixed farming are available in the West. Instead of the farmer having to go after his market, the market comes after him as witness the following advertisement in a well known Saskatchewan farm paper recently:

1. Keep up your cream production, because prices will be high this fall and winter. Stocks of butter are very light, and with the strong demand for export, prospects for high prices are favorable.

2. Don't forget that prices for dairy butter are only high during the harvest season, and that cream prices bring much better returns the year round.

3. Ship up your cream now and always. It is less trouble than churning, and cash is vastly better than trade.

The farmer who is engaged in mixed farming will seriously reflect before he will agree to any big change in a trade policy which has resulted in bringing to his door a ready market for all he has to sell.

AMERICAN POLITICS

Active Campaigns for 1916 Are Getting Under Way

Papers from our neighbors to the South are full of news and editorials regarding the next political campaign, which will culminate in the elections in November, 1916. Already the old cries of "Free Trade" and "Protection" are ringing out through the land, and whatever the result may be the citizens of United States will have ample opportunity of judging the merits of the two systems.

The Republicans are apparently going to run a straight protectionist campaign, and will use the depressed business conditions that prevailed all over United States in the first two or three years of the Wilson regime as their basic argument on the evils of free trade. They will explain the present great revival in American business as being attributable altogether to the war and the huge war orders which have come to American mills. The following are a few samples of protectionist dogmas:

"A Protective Tariff has made the United States the wealthiest nation in the world. Destroy it, and you will destroy the source of our national prosperity by turning it over to all the other nations of the world!"

"While an increase in the number of persons who till the soil will not increase the value of a bushel of corn, increasing the factories increases the number of consumers who demand the bushel of corn. And a Protective Tariff does that, you understand."

"A total eclipse brings darkness only for a few minutes, but Free Trade darkens the fires in the factories for a whole Free Trade administration."

"Germany can deliver in Chicago, duty paid, for 40 cents an article costing 30 to 90 cents in a Cincinnati factory; a German woman can do for 25 cents the same work for which an American man is paid \$3.50; yet Free Trade invited them to rush in their cheap foreign labor products and let the American workman take his place in the soap line. Is it fair?"

CANADA'S TRADE POLICY AND WAR CONTRACTS

Millions of dollars' worth of munitions of war are now being manufactured in the industrial plants of Canada and more large orders for additional goods are on the way from the allies.

The wisdom and foresight of those who framed the National Policy and put it into effect has been strikingly justified from a military as well as from an economic standpoint. In time of war our factories are protecting our people and property as in times of peace they promoted national prosperity. If Free Traders had been allowed to put their policy into effect, thereby making Canada an adjunct of the United States, their war orders would not now be placed in the factories of Montreal, Toronto, Hamilton, Winnipeg and many other Canadian cities but would be filled by the factories of Chicago, Buffalo and Philadelphia, upon which we would have been industrially dependent both in times of war as well as in times of peace. Protection has not only protected our industries and allowed them to exist and develop, but it is now enabling us to forge weapons in our own country to protect ourselves from our enemies.

Teddy Blamed.

Berlin, Feb. 29. (Special) The German Crown Prince last evening was having a nice little chat with his father, the butcher of Potsdam, and apropos omf nothing said:

Father, who started this war? I know, said the father, playfully, but I won't tell. Did Cousin George start it? persisted the youth without a chin.

No, said Father. Did Cousin Nicholas? No! said papa. Did Francis Joseph? No said the old man. Well, who did, then?

"I will tell you, son! You remember Teddy Roosevelt came out of Central Africa and called on us several years ago and I showed him our magnificent army; I showed him our great and glorious navy; I showed him the Zepps and the submarines and the gas bags, and Teddy greatly impressed, slapped me on the back and said: 'Bill my boy, you can lick the world'—and, like a fool, I believed him."

The New York Baptist Social Union recently was addressed by Rev. Austen T. Kempton, of the Broadway Church, Cambridge, Massachusetts. Mr. Kempton was the originator of the drama sermon and he rendered his original sermon, "Paid in Full," which has made a deep impression wherever it has been given. He recently gave a drama sermon before the faculty and students of the Newton Theological Institution, with explanations of its methods, purposes and results. Mr. Kempton has engagements to repeat his lecture and give a drama sermon at the Theological Seminary of Colgate University and the Divinity School of Tufts College. He is the talented son of one of the best beloved pastors that ever ministered to a church in Kings Co., Rev. S. B. Kempton, D. D., now residing in Dartmouth, N. S.
