

## Unique Find In Ontario

The beaked antler.

In September and October during the rutting season the hunter occasionally hears the sounds of a moose or elk in the woods. With this knowledge in mind, those who have a chance to go into the woods to hunt for a moose or elk, and although it is only a small chance, it is a chance that will pay a man if he is able to find one. The moose or elk is a quick animal, and it is not easy to find one. The moose or elk is a quick animal, and it is not easy to find one. The moose or elk is a quick animal, and it is not easy to find one.

### C. E. F. CASUALTIES.

OTTAWA, April 14.—Week-end casualties in the Canadian forces make a total of 755 names. Of these 76 men were killed in action, 40 died of wounds while 14 were missing; the remainder were wounded.

Capt. D. A. Henkes of the 16th infantry, Kansas, has lately been dismissed from the army for disloyalty and sentenced to 25 years in a Federal prison. In Detroit two weeks ago Federal authorities arrested four Germans accused of conspiring to dynamite Canadian factories.

The Dominion of Canada is playing a more independent part in world affairs than it has ever done in the past. For the first time in our history we are financing all our domestic undertakings instead of floating loans in New York or London. We are doing this at a time when our obligations are greater than ever before. In addition we are financing our share of the war as well as extending aid to Great Britain in her purchases on this side of the ocean. We are meeting our great obligations in two ways—domestic loans subscribed by the Canadian people, and by increased taxation. In 1913 Canada's ports of agricultural produce were valued at \$194,000,000, in

1917 their value had increased to \$655,000,000. From these figures it is evident that the Canadian farmer is playing a leading role in making Canada a credit nation. It is the value of this food that is at the root of our financial strength.

Sandy had just met his girl at the end of the street, where she was waiting for him. She was looking into a confectioner's window when Sandy made his presence known by remarking:

"Well, Jennie, what are ye gaun to have the night?" She, not inclined to ask too much, replied:

"Oh, I'll just tak what ye'll tak, Sandy."

"Oh, then, we'll tak a walk," said Sandy, as he led her away.

"This article says that we should give our shoes a day off occasionally."

"To rest their weary soles, eh?"

### SUPPLIED.

Passenger Agent—There are some postcard views along our line of railroad. Would you like them?

Visitor—No, thank you. I rode over the line one day last week and have views of my own on it.

Canada is setting a record in ship construction which may be judged from the fact that during the coming year she will put more tonnage into the water than the German Admiralty had estimated would be the entire annual production of the United States, England and France, says the Emergency Fleet "News." The growth of the Dominions shipping programme was achieved despite a very severe winter.

A sad drowning accident occurred at Sluice Point on Friday when a son of Mr. Thomas Muise lost his life. He was out with two of his brothers after rock weed and sea manure and when returning home the boat became unmanageable in the sluice near the bridge and was capsized. The three young men managed to get on the bottom of the boat but one of them whose strength apparently failed him, lost his hold and he was washed off and drowned.

It is estimated that \$500,000 damage was caused by the fire which swept the heart of Vermillion, Alberta, on Thursday, destroying every business block with the exception of one. It is understood that the insurance will net 60 per cent of the total loss. The fire started about 2 o'clock in the afternoon with a small blaze in the implement warehouse of Joseph McKeon, and in less than two hours twenty-five buildings had been destroyed with most of their contents.

Thursday's Ottawa Journal said:—"Definite word has been received from Thomas White

that he will not return to Ottawa until after Parliament prorogues. His physicians have advised him that it would be unwise for him to return and participate in the labors of the session. In the meantime Hon. A. K. MacLean will continue to be acting Minister of Finance, and will deliver the budget speech."

"John, you ought to get in the aviation service," a York man told a negro last week. "You are a good mechanic and would come in handy in an aeroplane. How would you like to fly among the clouds a mile high and drop a few bombs down on the Germans?"

"I ain't in no special hurry to fly, Cap," the negro answered. "When wese up 'bout a mile high, s'pose de engine stopt and and de white man told me to git out an' crank"—York News.

The Kaiser has sent a personal letter to the Swiss Confederation, apologizing for the killing of the Counsellor of the Swiss legation in Paris during that long range gun bombardment on Good Friday. These Swiss people must indeed be degenerated from the William Tell breed of other days, if they accept this apology for the pure inexcusable and needless murder of a high official of the Swiss Government.

Daylight Saving is now in effect in the following countries: England, France, Italy, Portugal, Holland, Denmark, Norway, Sweden, Australia, Belgium and the United States.

The Toronto News says:—"The German notion that a people can be beaten by knocking down a few houses with a long range gun is childish. The people of Halifax are not downhearted."

The whirligig of time and the fortunes of war have effected a peculiar situation for two Canadians. In one of the Canadian hospitals in England, two soldiers are lying side by side. The one, Private Pendlebury, who fought in the Japanese navy at the siege of Port Arthur, and the other Private Chavanan, who was formerly in the Cossacks, and took part in the defense of Port Arthur against the Japs. Chavanan has fifteen Russian decorations and a D. C. M., the latter being won while with the Canadian army in France.

Hon. W. S. Fielding presided at the first caucus of the Union Government held on March 27.

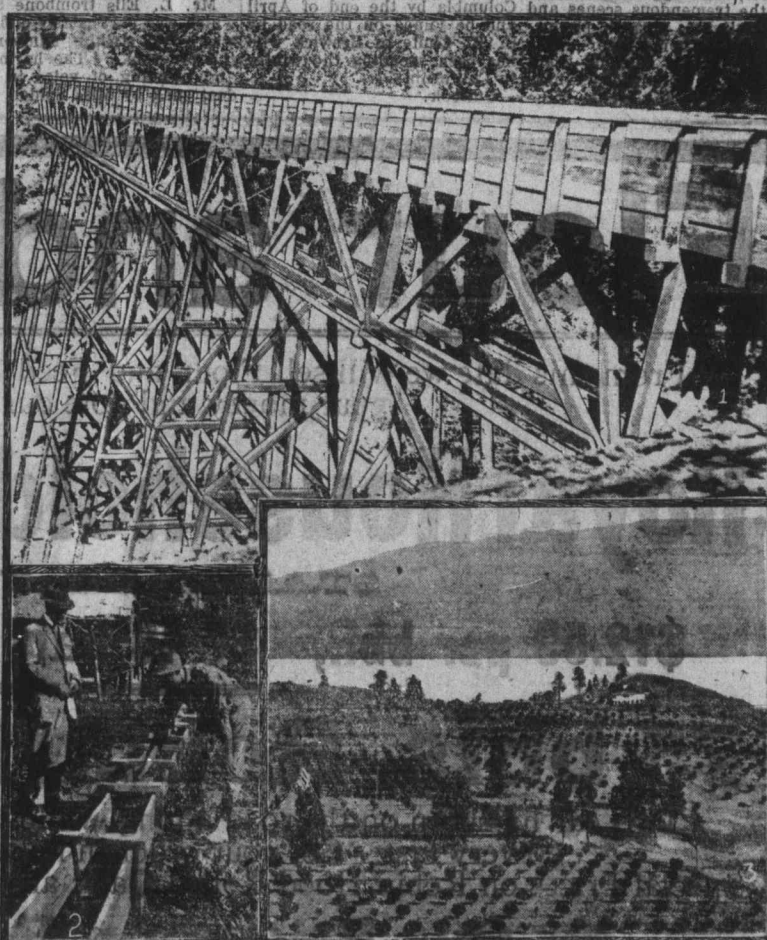

Colonel F. S. L. Ford, C. M. G., who left Nova Scotia in Command of the First Canadian Casualty Corps in 1914, arrived in St. John N. B. on the 8th inst.

## SMALL IRRIGATION PROJECTS ARE SUCCESSFUL

- (1) Irrigation flume near Kelowna, B.C.
- (2) Irrigating Small Farms.
- (3) Small Irrigated Farm.

Speaking before the annual convention of the Western Canada Irrigation Association at Kamloops, B.C., A. S. Dawson, chief engineer of the Department of Natural Resources of the Canadian Pacific Railway, expressed the faith that is in him in the irrigation projects for which Western Canada is becoming famous. Although Mr. Dawson has been connected mainly with the irrigation enterprises of the C. P. R. in Southern Alberta, he does not overlook the advantages of small projects operated by a community of farmers, or even by an individual.

"I have had fifteen years' experience on what are the largest irrigation projects in Canada," said Mr. Dawson, "but I am willing to admit that the small projects such as you have in the immediate vicinity of Kamloops are quite often more interesting and worthy of fuller consideration than are the larger projects. These schemes, though small, should be considered as one of your greatest assets."

The benefits of irrigation show their results in better farms; improved living conditions; improved social conditions and better citizenship. If conducted along proper lines it improves agriculture, saves the soil, increases industry, produces prosperity and should provide for posterity.

Mr. Dawson's reference to the small irrigation schemes is of particular interest to the farmers of Western Canada, where there are hundreds of thousands of creeks and streams which could be used in a small way for irrigation purposes. According to the opinion of an officer of the Western Canada Irrigation Association the day is coming when irrigation in Western Canada will be limited only by the amount of water available. The increasing interest in irrigation is indicated by the fact that the annual meeting of the association in 1917 will be held in Saskatchewan. The first time in the past it has always been held in Alberta or British Columbia, but this year the association will meet at Maple Creek, Saskatchewan.
