But the trip was quite a picnic. The ship carried fourteen of the mounted police force, including mem bers of the superintendent's family. Her own crew numbered thirtyfour, mostly officers, stewarsd waiters and cooks. There was a historian at \$125 a month, who has written nothing that has come to light, a physician, a photographer, two mates, a purser, a quarter master, two stewards, three waiters, two cooks and one cabin boy. The reason for all these cooks and waiters is apparent when one studies the bill of supplies as given by the auditor-general, remembering that the policeman's requirements were charged to another department. Cigars, tobacco and liquors for the thirty-four men were furnished to the value of \$6,338, or nearly \$200 worth for each man and boy.

St. Catharines papers are at pres ent engaged in an editorial "scrap" over a mis-spelled word. The word squashed appeared in the Star-Journal, and the Standard thought it ought to have been quashed. It is to be regretted that in this enlightened day two city newspapers would waste space in discussing such a thing. A good political argument is appreciated by writers and readers, at times, but surely in a city where there are but two papers published, a better feeling should exist than is

The Planet Patterns DESIGNED BY MARTHA DEAN.

LADIES PRINCESS WRAPPER.

For general utility and good appearance, the Princess Wrapper is heartily recommended, and by the tasteful selection of materials and trimming it is rendered quite correct for every day or better wear. The present mode of the Princess gown is very prominent and every woman of up-to-date ideas should possess a gown of this kind. One has always seen the Princess wrapper and homely dress, but it is not necessary to be a good dressmaker to see the good lines in this model. Instead of the old-fashioned dart-fitting fromts, which always left a bulge in the material at the top of the darts, this pattern is made with For general utility and good ap recessary to be a good dressmaker to see the good lines in this model. Instead of the old-fashioned dart-fitting fronts, which always left a bulge in the material at the top of the darts, this pattern is made with the dart extending to the shoulder, and by such means a good fit is assured. Themodel is very simple in construction, and may be fashioned with a faney collar and an open neck, or made double-breasted style, finished with buttons and high collar, and it is all one could desire in a plain, every-day dress, and material. Cotton may be satisfactority used in its construction. For the medium size 14 yards of the 27-inch material are needed.

Why Timothy Grass Is So Called. The forage grass known to the farmers of the United States as timothy is so called because first introduced and extensively cultivated in this country by one Timothy Hanson, a farmer of Maryland. This species of grass is well known in England and all over western continental Europe, where it is grown extensively by most farmers between the Mediterranean and the North seas. The botanical name of this grass is Phleum pratense. Timothy is known in the British isles as cat's tail grass and in several of our eastern states as herd, or herd's, grass. It was grown in large quantities in Maryland and Pennsylvania long before a spear of it had ever been seen in England, the first seed of it ever seen in the last named country being imported from

CURED AT LAST BY GIN PILLS.

Whether you are just beginning to feel the first twinges of kidney pains or whether you have tried for years to find relief—Gin Pills will cure you. Surely you can't doubt their virtues after such a letter as this:

"I sent for a free sample of your Gin Pills some time ago, and found them to give me great relief, so I put myself under the treatment, and am now using the third box, and feel myself entirely cured. I have suffered with my kidneys for 23 years. At the time I began taking Gin-Pills I could not turn in bed without pain. If I moved at night, the pain would be so great that it would wake me up. Now I am free of pain, and feel as well as I did 33 years ago. I feel it my duty to let you know about Gin Pills, so that it might be the means of relieving some other sufferer.
