The members of the Labrador sewing circle and all ladies of the town who are interested in this work will meet next Tuesday evening, (Oct. 7th) at 7.30 in their rooms in the McKenna block. This is a worthy work, and we should all be willing to give one evening in two weeks, and feel more comfortable when we read Matthew 25 and 36. The members of this society will be very grateful indeed if some friend has a second hand sewing machine that they would lend or donate to help along the work, and I am sure that the satisfaction of knowing that we have helped to bring comfort and cheer to some poor cheerless soul will more than repay us for any small sacrifice that we may make.

Get our prices on Cement, Shingles and Brick. We can save you money. R. E. HARRIS & SONS.

Cameras and films at the Graham Studio.

The social held by the W. C. T. U. last Thursday evening in their rooms in the McKenna block was most successful. The most excellent report of the Provincial convention, written by Mrs. Skep and read by Mrs. Langille, gave a most comprehensive account of the work done by the different unions throughout the province. We wish the few who ask, 'what does the W. C. T. U. do, anyway?' could have listened to this report. Mrs. (Dr.) Brown then read a paper describing briefly the trip to the World's Sunday School Convention. As she so graphically and vividly brought before us the happenings on the steamer, street scenes in many of the cities, the magnificent buildings, etc., we could almost imagine ourselves viewing a moving picture show. A very pleasing picnic solo was given by Miss Stewart, after which light refreshments were served. This closed a most pleasant evening. We trust the Union will give many such gatherings during the coming winter.

The History of the Glenwood.

The Glenwood line of stoves, ranges and heaters are sold by Hilsley & Harvey Co., at Port Williams, who are fully prepared to meet any requirements in this line.

The Glenwood has been manufactured for the past 50 years, by the Wier Stove Co., Taunton, Mass., the largest manufacturers of stoves and ranges in America. They have branch houses and distributing centres in every state in the union. In this large stove plant, nearly 3000 men are employed turning out over 450 stoves a day.

In Canada, the McLean, Holt Co., of St. John, N. B., are manufacturing these stoves and ranges, they having bought the patterns, and secured the sole right to manufacture in the Dominion.

In the city of St. John and vicinity they have in use to day nearly 5000 Glenwoods, all of which are giving excellent satisfaction.

In many sections of the Maritime Provinces and in Ontario and Quebec, they are being shipped in carload lots, excellent evidence of the popularity that these ranges are giving in Canada.

The Glenwood is noted as being the most economical range on the Market, with all the latest improvements that are found on any range together with several exclusive Glenwood features.

Those who are considering the Stove question this fall would do well to call at Hilsley & Harvey Co.'s stores and examine this celebrated line before purchasing a new range.

Mr. and Mrs. B. H. Morrison (nee Miss Dorothea Beckman) spent the week end at the home of the latter's aunt, Mrs. John Donaldson, Fort Williams. The young couple have just returned from their bridal trip, visiting Boston, Montreal, Quebec, etc. They are making their home at present at 'The Elmwood' Halifax.

Acadia Notes.

Acadia University opened on Wednesday for another year's work. The attendance is well up to the average and a good year is looked forward to by both instructors and students. At the opening chapel on Wednesday afternoon sixteen professors were on the platform. This is the largest faculty in the Maritime Provinces. Dr. Cutler, in a few well chosen remarks, welcomed the students, and expressed his wish that all might have a profitable year. He spoke of the necessity of hard work in every phase of the college life, be it athletics or studies.

There are several new professors on the faculty this year. Professor Gattano Cavicchia will have charge of the department of Romance Languages. He is a graduate of the French American college and has spent two years at Yale and three at Harvard in graduate work. The professor has taught one year at Dartmouth and three years at the University of Missouri. Professor Balcom is the new instructor in Economic Science, a chair newly created last year. After graduating from Acadia he spent four years in Harvard graduate school, where he assisted Professor Tausig. Last year he taught in the university of Minnesota. Professor Sievers, formerly instructor in German at Harvard, will take charge of the German department. Professor J. A. Ambler, Ph. D., will have charge of the Chemistry department. Miss J. S. Haley becomes instructor in Library Science, and Ivan S. Nowlan becomes instructor in Education.

Prof. Hasney returned on Monday to resume his duties. During the summer he made a trip through England and Scotland, visiting the places connected with the English writers. Prof. Thompson, who has been spending the summer at New Haven, Conn., returned last week. The new Library building has been commenced. Mr. James Reid, of Yarmouth, has the contract and the work is being rapidly pushed forward. The excavation is completed and the foundation has been started. The building will be of stone with concrete foundations.

The football captain, John McKinlay, has the boys out on the campus every day. Many of last year's best players are not with us this year, but with hard work we hope to put up a winning team.

There are now over 1300 automobiles and motor cycles in Nova Scotia. Up to today there has been 1975 licenses issued, but nearly 200 of these have been sent out of the province or been destroyed. The total new auto licenses issued this year total 257.

Mr. James Ross, who has been prominent in the Cape Breton steel and coal developments, Montreal, Street Railway, Halifax Tram, as well as in Canadian Pacific Railway and many other of the largest Canadian enterprises, died at Montreal, September 20th.

The American woman certainly has her good points. An Iowa paper reports that a man there was soundly thrashed by his wife for not paying his newspaper subscription after she had given him the money to do it.

Obituary.

The death occurred at Greenwich, Kings Co., Sunday of Mr. Charles Goudey, of Milton, the well known painter of the D. A. Railway. He was engaged in painting the bridge at that place when he became ill of pneumonia, and rapidly failed until the end came. He was 43 years of age and is survived by a widow and four children.

NEARLY DIED OF STONE IN THE BLADDER

GIN PILLS SAVED HIM. 513 JAMES ST., HAMILTON, ONT. "Five years ago, I was taken down with what the doctors called inflammation of the bladder—intense pain in back and loins, and difficulty in urinating, and the attacks, which became more frequent, amounted to unbearable agony. I became so weak that I could not walk across the floor. My wife read in the papers about GIN PILLS and sent for a box. From the very first, I felt that GIN PILLS were doing me good. The pain was relieved at once and the attacks were less frequent. In six weeks, the Stone in the bladder came away. When I recall how I suffered and how now I am healthy and able to work, I cannot express myself strongly enough when I speak of what GIN PILLS have done for me." JOHN HARRMAN. 178 GIN PILLS are sold at once a box—6 for \$2.50. Sent on receipt of price if your dealer does not handle them. Sample box free if you write us, mentioning the paper. Money back, if GIN PILLS do not give satisfaction. National Drug & Chem. Co. of Canada, Limited, Toronto.
