

**BRIGHT EYES,  
ROSY CHEEKS.**

**Every Girl Can Have Them by  
Keeping Her Blood Rich and  
Red With Dr. Williams' Pink Pills.**

In the early days of her womanhood every girl—no matter what her station in life—should be bright, active, cheerful and happy. Her steps should be light, her eye bright and her cheeks rosy with the glow of health. But the reverse is the condition of thousands of young girls throughout Canada. They drag along, always tired, suffer from headaches, breathless and with palpating heart after slight exercise, so that merely to go up stairs is exhausting. This is the condition doctors call anaemia, which means weak, watery blood. In this condition Dr. Williams' Pink Pills is the only safe and reliable medicine. These pills actually make the new, rich, red blood which can alone give health and strength, and thus make weak, listless, pale-faced girls bright, active and strong. Miss Albina St. Andre, Joliette, Que., says: "I am more grateful than I can say for the benefit I have found in the use of Dr. Williams' Pink Pills. I was weak, run down and very miserable. I suffered from severe pains in my back and chest; had a bad cough; no appetite and would lay awake most of the night, and what sleep I did get did not refresh me. I tried several remedies, but they did not help me, and I, as well as my friends, feared I was going into decline. At this stage my friends came to see me strongly urged me to try Dr. Williams' Pink Pills, and providentially I acted upon the advice. After using a few boxes my appetite improved and I began to sleep much better at night. This greatly cheered me and I continued taking the pills for some time longer, when a change in my condition was really marvelous. I was feeling as well as I ever had done. I could sleep soundly at night; the pains and cough had disappeared and I felt an altogether different girl. I am so grateful for what Dr. Williams' Pink Pills have done for me that I cheerfully give my permission to publish this in the hope that it may point the way to health to some other weak and despondent girl."

Dr. Williams' Pink Pills are good for all diseases due to weak, watery blood. That is why this medicine cures rheumatism, indigestion, neuralgia, St. Vitus' dance, partial paralysis, and the stiches, backaches and headaches caused by the troubles women alone suffer from. You can get these pills from any medicine dealer or by mail for 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**FIFTY YEARS OF CRIME.**

**A Vast Improvement in the Last Half Century.**

An interesting comparison given in the criminal statistics for England and Wales for the year 1906, issued recently, enables a contrast to be made for the first time of the prevalence of crime by day with fifty years ago. Generally speaking, it may be said that a vast improvement has taken place. The number of persons tried on indictable offences—that is to say, the more serious crimes—totaled 59,079 in 1906, as compared with 54,667 in 1857. There is thus a slight increase in the number of criminals, but when it is remembered that the population has increased from nineteen and a quarter millions to thirty-four and a half millions in the fifty years, it becomes evident that, proportionately to the population, serious crime has decreased by some 40 per cent. The chief comparisons are as follows:—

	1857.	1906.
Serious offences	513,330	82,264
Drunkenness	75,859	211,493
Education offences	None	53,330
Police regulations	38,633	132,504

Good Digestion Should Wait on Appetite.—To have the stomach well-to-do has the nervous system well. Very delicate are the digestive organs. **TRIBE OF CRIMINALS.**

**The Maghaya's Greatest Pride is Successful Burglary.**

The Maghaya is born in an arhar field and schooled to theft from his infancy, says the Bengal Gazette. He lives without shelter or food for the morning, perpetually moving from camp to camp, encamped from camp to camp, and executed by the villagers. His greatest pride is a successful burglary, and a prolonged drinking bout his most coveted reward.

Jail offers no terrors to the Dom; it is merely the result of being a hanger-on at his trade. The first attempt to reclaim the Maghaya Doms in Champarnun was made by Mr. (now Sir E.) Henry. He found the greater number of the adult members of the tribe were responsible for any Doms were found in his jurisdiction, with the result that as soon as a Dom was released from jail he was usually returned thither under the bad livelihood sections.

Agricultural settlements were established for the tribe, but they do not seem to have been very successful in civilizing agencies. The settlements serve as houses for the women and children, but the men are seldom found in them. The females generally hawk stolen property in the villages and act as spies.

**BRITISH CROWN JEWELS.**

**Are Carefully Guarded in the Wakefield Tower.**

Appropos of the scandal in Dublin over the disappearance of the regalia from the castle, it is interesting to learn that precautions are taken to guard the Crown Jewels in the Tower of London. A correspondent of the London Daily Graphic, who has been investigating the matter, has discovered that during the day there are always three Yeomen of the Guard (Beefeaters, they are familiarly called), or two yeomen and a sergeant on duty, in the room in the Wakefield Tower, where the treasure is kept.

Electric bells communicate with the guard-room, which is immediately outside the Wakefield Tower. If any attempt were made on the jewels—as once was made by the notorious Colonel Blood two and a half centuries ago—the alarm would at once be given to the guard-room and the guard would be called. If by any mischance another bell could be rung which alarms the whole of the garrison of the lower. Minor precautions are the posting of a Beefeater at the entrance to the stairway of the tower, while a sentry always paces just opposite night and day. At night every lock is inspected by the keeper of the regalia, General Sir Hugh Gough, and all are locked by him, and the only keys to them are taken by him and kept in his own private apartments at the lower. Besides the watch is kept by sentries at the Wakefield Tower, and every door and every gate are protected by specially designed electric burglar alarms.

**WEIGHED FOUR POUNDS  
WHEN FOUR MONTHS OLD**

Most of the sickness that comes to babies and young children is due to the stomach or bowels being out of condition. It is then that they are cross, peevish and upset the whole household. These are troubles that Baby's Own Tablets always cure promptly. Like its proof, Mrs. J. Stewart, Everton, Ont., says: "My little girl thrived so badly that at the age of four months she weighed four and a half pounds. Her stomach was badly out of order, and although the doctor treated her, she did not get better. Then I got Baby's Own Tablets and right from the first they helped her and now she enjoys perfect health." If your little one is ailing try Baby's Own Tablets—always do good; cannot do harm. **WHEN THE EARTH QUAKES.**

Some idea of the stupendous power of the subterranean forces exerted by earthquakes is shown in the physical changes effected by them. Mountains have been obliterated or new ones formed, islands have been made or destroyed, and whole stretches of coastline wiped out. For instance, in September 1722, on the lofty tableland about 150 miles south-west of the city of Mexico, a piece of land four square miles in area was suddenly raised 550 feet, and numerous cones appeared—one of them, the volcano of Jorullo, being nearly 1,700 feet high. Java, in 1772, suffered in the opposite way, for a tract of country fifteen miles long by six miles broad was swallowed up entirely—a mountain of 9,000 feet being reduced to 5,000 feet only in the process.

It heals the lungs and bronchial tubes, gives almost instant relief to the irritating cough, and will break up a cold in 24 hours.

The action of Virgin Oil of Pine on the kidneys is also most beneficial. It is a perfect neutralizing agent for uric acid, and promptly relieves rheumatism, lame-back and other ailments due to disordered kidneys.

In the preparation of Virgin Oil of Pine every precaution is taken to insure freshness and purity. It is put up in ½-oz. vials only for druggists to dispense, each vial enclosed in a round wooden case to prevent breakage and exposure to light. The case is sealed with an engraved wrapper showing the name—Virgin Oil of Pine (pure), prepared by Leach Chemical Co., Windsor, Ont.—plainly printed thereon. It is well to get the genuine. Should your druggist be unable to supply you, you can have a ½-oz. vial mailed to you by sending 50 cents to the Leach Chemical Co., Windsor, Ont.

Made Strong by Zam-Buk.**

Mrs. T. Brixton, of 5 Woodworth Ave., St. Thomas, Ont., says: "I had had some experience as to the efficacy of Zam-Buk in healing sores, cuts, etc., and had heard good reports from friends who also tried this balm, so when a year ago my little lad, four years of age, was left weak in the limbs as the result of a severe attack of influenza, I began rubbing in the Zam-Buk. His legs were so weak he would tremble and shake and was unable to stand for any length of time. Frequent applications of this ointment well rubbed in, seemed to strengthen him daily, and in a very short time the shaking and trembling in his limbs had been banished and he soon got strong and able to run about, thanks to Zam-Buk."

Zam-Buk is a splendid embrocation for rheumatism, sciatica, etc., and is without equal as a healing balm.

**AUSTRIAN JURY ACQUITS GIRL.**

Tried to Kill a Russian Governor With a Bomb.

The existing tension between Russia and Austria is not likely to be improved by the remarkable acquittal by an Austrian jury, of a Russian girl revolutionist who tried to assassinate General Skallon, Governor-General of Warsaw, in August, 1916.

Wanda Dobrozdzicka, the prisoner, is 21 years old, and was formerly a student at Warsaw University. While General Skallon was driving in his carriage she threw four bombs at him, but only succeeded in wounding some Cossacks.

She succeeded in escaping to Trieste, and afterward settled in Galicia, where she married an Austrian painter. The Russian Government finally ascertained her residence and demanded her extradition. As she had become an Austrian subject, however, she could not be extradited, and her trial took place at Wadowice, Galicia.

The prisoner gloried in her attempt, which she described fully in court. She stated that she had been designated by the Revolutionary party in Warsaw to carry out the "sentence of death" on the Governor-General, and an elaborate conspiracy was organized by the leaders of the Terrorist group.

In a self-possessed manner she informed the court that she was guilty of throwing bombs, and added that she considered herself as a soldier who gave his life for his country and was not a murderer. She never expected to be killed by the explosion or shot in the subsequent confusion.

Military officers were forbidden to attend the court, which was crowded when the jury returned, after fifteen minutes' retirement, a unanimous verdict of acquittal. The public cheered loudly and the women in the gallery showered flowers on the young woman.

**"Every One Thought I Had Consumption. Pe-ru-na Saved Me."**

**"I THANK DR. HARTMAN FOR PE-RU-NA."**

MRS. MOISS PARIZEAU.

"I hardly know how to thank you for the good Pe-ru-na has done me. I suffered five years with pain in the stomach. About a year ago I came so bad I could hardly bear it. I coughed day and night and grew weaker and weaker. The pain extended through my body and I also had difficulty in breathing, which made me cough. Everyone thought I had consumption. My husband heard of Pe-ru-na and bought five bottles. This treatment virtually cured me and now I recommend Pe-ru-na to every one who is suffering. I thank Dr. Hartman for this excellent remedy."

—Mrs. Moiss Parizeau, Ste. Julie de Vercheres, P. Q., Canada.

NEGLECTED cold is generally the first cause of catarrh. Women are especially liable to colds. These colds occur more frequently during the wet, sloppy weather of winter and spring than any other time of the year. Often they are not considered serious and are allowed to run on, or they are treated in such a way as to only palliate the symptoms, while the cold becomes more deep-seated and the patient finally awakens to the fact that she has a well-developed case of catarrh.

By reason of their delicate structure, the lungs are frequently the seat of a cold, especially if there is the slightest weakness of these organs. The treatment of catarrh of the lungs is also more difficult and discouraging than that of any other organ of the body. It would be wise therefore, to guard against it by every precaution possible. Pe-ru-na has been found the most reliable of all remedies for coughs, colds and catarrh, by reason of the fact that it goes at once to the very seat of the trouble. It searches out every crevice, every duct of the body, it quickens and equalizes the circulation of the blood, thus relieving the congested mucous membranes. It exercises a healing and soothing effect upon the mucous membranes, no matter whether they are the more exposed membranes of the head and throat, or whether they line the remotest cells of the lungs.

Mrs. Jacob, 1631 Hicks St., Toledo, Ohio, writes: "When I wrote to you for advice, I had been sick for three years. I had trouble with my throat. Often I could not breathe through my nose. I also had pains in my chest and a cough. I took Pe-ru-na according to directions and it has cured me."
