

## FRIENDLESS AND INFANTS.

Annual Meeting of the Home Held Yesterday.

Health of the Inmates Has Been Very Good

And the Past Year One of Satisfactory Progress.

At the annual meeting of the Home of the Friendless and Infants' Home yesterday a large number of the members attended and all of the reports presented showed a year of excellent work. Mrs. Evans presided and after the meeting had been opened by Archdeacon Forneret called upon the secretary, Mrs. J. D. Ferguson, to read her report. She stated that the Home of the Friendless had reached its fourteenth year, and long experience and hard-earned discretion had produced the prosperous year just closed. During the year the friends of the Home had been very kind, and none more so than the medical staff, Doctors O'Reilly, Wickins, Carter, Dickson and Bauer. The general health of the Home was good, which was because of the close scrutiny by the doctors, before allowing admissions, the use of the new detention rooms and the unrelenting vigilance of the matrons. The clean milk supplied through the milk commission was of great help to the infants in the Home. During the past year 35 women, 48 boys and 39 girls, 112 in all, were cared for. Nine infants died during the year. The need of some suitable place for some of the feeble-minded inmates was felt.

The treasurer's report, which was submitted by Mrs. Vallance, showed the receipts from various sources, including the balance of \$410.90, to have amounted to \$4,348.54, and the disbursements amounted to \$4,309.69, leaving a balance of \$38.85.

Mr. Adam Brown, in moving that the reports be adopted, said the work of the Home was very worthy, and although there were many charitable institutions in the city, the Home of the Friendless was among the best.

Mr. A. Turner seconded the adoption of the reports.

Dr. O'Reilly and Dr. Wickins, members of the Medical Committee, gave short addresses, in which they explained the consistent campaign that had been carried on to keep the institution free from disease, and the results showed how successful their efforts had been. They also complimented the institution on the successes in other branches during the year and expressed themselves pleased that the financial report showed a balance to start the work of the year.

The officers elected were: Mrs. James Watson, Honorary President. Mrs. Robert Evans, President.

Mrs. R. A. Robertson, First Vice-President.

Mrs. Herring, Second Vice-President.

Mrs. R. A. Robertson, Third Vice-President.

Mrs. Robt. Hobson, Fourth Vice-President.

Mrs. W. C. Hawkins, Fifth Vice-President.

Mrs. Geo. Vallance, Treasurer.

Miss Hurd, Assistant Treasurer.

Mrs. J. Randall, Corresponding Secretary.

Mrs. J. D. Ferguson, Recording Secretary.

Committee of Management—Mrs. C. S. Scott, Mrs. E. Watkins, Mrs. P. McCullough, Mrs. J. S. Atkinson, Mrs. James Dunlop, Mrs. Moodie, Mrs. Wickins, Mrs. A. C. Beasley, Mrs. J. R. Moodie, Mrs. A. H. Gillard, Mrs. Braden, Mrs. A. Hope, Miss Browne, Mrs. Fred Walker, Mrs. J. H. Kerr, Mrs. Merrick, Miss Cook, Mrs. Baile.

Medical Committee—Dr. O'Reilly, Dr. Wickins, Dr. Carter, Dr. Dickson and Dr. Bauer.

Auditors—J. Bell and H. Champ.

Honorary Solicitor—W. T. Evans.

Advisory Committee—Major McLellan, Lieut. Governor J. M. Gibson, Alex. Turner, Alex. McKay, Geo. Vallance, Sir Thomas Taylor, C. C. Watkins, A. Young, R. A. Robertson, Major J. H. Herring.

## McCOMBES.

Celebrated Irish Evangelists Are Coming to Hamilton.

These are busy days among the workers of Barton Street Methodist Church. Preparations are being made for the special Gospel mission to be conducted by the celebrated Irish evangelists, the McCombes brothers, beginning next Sunday at 7 a. m. with a watch hour service. When the announcement was made that these famous workers would open a Gospel campaign in Central Methodist Church there was great delight and high expectation on the part of scores of Christian workers, who are desirous of assisting in an aggressive evangelic campaign. Now that a change has been made and the same mission is transferred to Barton Street Church it is hoped that the same general interest and co-operation may be realized. It is believed by those who have their hands on the spiritual pulse that the city is in need of a great religious awakening.

Pastor Livingston, of Barton Street Methodist Church, says that Christians ought to contest the ground in behalf of the kingdom of Christ just as a parliamentary candidate contests a riding for a seat in the House of Commons. Everybody should be personally interviewed. To this end 50 canvassers from his church have been making a parliamentary canvass of the constituency. The non-church goers have been carefully looked up and heartily invited to interest themselves in religious matters. Large numbers of parents and children are found who attend no church or Sunday school. The reasons given for not attending are in some cases more interesting and suggestive and ought to be carefully considered by pastors and church members. It is found that many people who have been formerly connected with some kind of church work, particularly in the old lands, are very slow to become identified with any church here. These ought to be made to feel that the Christian church is one under all skies, and that the brotherhood of man is not lost by crossing the seas.

The pastor feels that his church is very fortunate in securing the services of the McCombes brothers, as they are looked upon as among the most successful evangelists of the day. They will be followed by Mr. Chris. Pink, a splendid Gospel singer. All are invited to cooperate.

## AEROPLANES SEIZED

For Alleged Infringement of the Wright Patents.

Paris, Oct. 13.—The Compagnie Generale de Navigation Aerienn, which controls the patents of the Wright brothers so far as their exploitation in France is concerned, to-day caused a theoretical seizure to be effected of practically every biplane on exhibition at the aeronautic salon now in session here on the ground that certain details of their construction were infringements of the Wright patents.

The seizure, which is known as "saisie descriptive," does not involve the physical possession of the aeroplanes in question or a restriction on their manufacture or sale, but is more in the nature of a formal notification that certain of their characteristic parts are considered patent infringements for which damages will be sought.

The particular detail of construction upon which the claim of infringement is based is described as "any appliance used to vary the wind's resistance on one side or the other as modified by a vertical rudder."

## A MODERN SOLOMON

How Magistrate Decided Ownership of Two Geese.

York, Pa., Oct. 13.—The ownership of two geese, the subject of a larceny suit before Alderman Jacob Stager here, was decided by the magistrate, who declared the fowls themselves had given the best evidence of which was their home.

Charles Hake, of Newberry township, had missed two geese and found two like them a month later in a pen at the home of A. E. Witmer, Cornwaga township, a mile and a half away.

A day after a writ of recovery was served the geese appeared mysteriously in Hake's yard, and he permitted them to run with his flock; soon afterward he was arrested on a warrant sworn out by Witmer, charging him with larceny.

The facts that Witmer had to keep the geese in a pen to prevent them leaving, and that if they went back to Hake they travelled a mile and a half to get there, were taken into consideration in discharging the defendant and permitting him to retain the fowls.

## HOW MRS. CLARK FOUND RELIEF

AFTER YEARS OF SUFFERING DODD'S KIDNEY PILLS CURED HER.

Pleasant Point Matron Tells Her Suffering Sisters How to Be Free From the Terrible Pains That Make Life a Burden.

Pleasant Point, Ont., Oct. 13.—(Special)—That most of the ills that the suffering women of Canada have to bear are due to disordered kidneys, and that the natural cure for them is Dodd's Kidney Pills, is once more shown in the case of Mrs. Merrill C. Clarke, a well known resident of this place and a prominent member of the Salvation Army. Mrs. Clarke is always ready to give her experience for the benefit of her suffering sisters.

"My sickness commenced twenty years ago with the change of life," says Mrs. Clarke. "My health was in a bad state. Water would run from my head which would make me faint. When I came out of the fainting spells I took fits. I was bloated till I was clumsy. The pain I suffered was awful. It would go to my feet and then to my head. Many doctors attended me, and I tried many medicines, but nothing gave me relief till I used Dodd's Kidney Pills. The first box stopped the fits and seven boxes cured me completely."

Every suffering woman should use Dodd's Kidney Pills. They make strong, healthy kidneys, and the woman who has good kidneys is safeguarded against those terrible pains that make miserable the lives of so many women.

## \$12,000 FOR HIS WIFE

Loses Her Affections and Sues a Fellow-Townsmen.

Orangeville, Oct. 13.—The case of Robert Kannawin, plaintiff, against W. J. Corbett, defendant, alleged alienation of wife's affections, was begun. Kannawin is asking \$12,000 damages. J. L. Island, K. C., and Robert McKay, K. C., are acting for plaintiff, and C. R. MacKeown, K. C., and Hartley Dewar, K. C., for Corbett.

Kannawin, cross-examined by Dewar, swore he had been a carpenter, earning good wages, but is now butchering for less wage. He had never rebuked his wife for going with any one but Corbett. He had been away all of 1906-7, but learned while away that Corbett was trying to win her affections, and came home and found Corbett with her. She had been away in the fall of 1908 for days. On two occasions he had found letters under the carpet in her room. He read them and returned them. More came. Finally he collected them all and kept them. He had tried to reason with his wife, had gone to Welland with her to get a job, to be away from Orangeville, but his wife did not want to go away. Once he saw Corbett drive up to the back door and take Mrs. Kannawin for drive. He, with Mr. Holden, had found Corbett and Mrs. Kannawin in the grand stand at Idlewild Park one night last February. Witness had struck at Corbett and jumped on him, and had his wrist bitten. Mrs. Kannawin told him not to hurt "poor Billy." Witness afterwards ordered his wife from the house, but she replied that Corbett was not ready to take her, and that she would go with him.

Witness saw his wife in Toronto last September, and went to an amusement resort with her. She wanted him to settle the suit, saying she thought Corbett would pay \$2,000.

## ALL EUROPE INDIGNANT

Over the Execution of Prof. Ferrer at Barcelona.

King Alfonso's Life Threatened Because of Execution.

Ferrer Went Bravely to Death—His Daughter's Pluck.

Barcelona, Oct. 13.—Professor Francisco Ferrer, the Spanish educator and convicted revolutionist, was shot to-day at the fortress of Mont Juich, where he had been confined since his condemnation by court martial. He faced the firing squad without flinching and fell dead at the first volley. Ferrer, except for a momentary expression of emotion immediately preceding his death, retained his composure to the last. His attorney, K. M. Mallebran, who had defended the prisoner, had secured permission for a brief talk with the revolutionist before the latter was led to the ditch where he was to die.

To his attorney Ferrer spoke feelingly of the work for which he had sacrificed his life and of the future of his daughter, whose brave attempt to save his life touched the father more deeply than any other incident of his trial and conviction. On Ferrer's arrest, his family were left dependent upon his daughter, who at once secured employment in a biscuit factory.

The daughter made a personal appeal to King Alfonso to spare her father's life. When these facts were related by Mallebran, Ferrer broke down. It was but a passing emotion, and presently the undaunted revolutionist was himself again.

Ferrer declined to receive the last sacraments and turned away from the two priests of the Order of Peace and Charity who had been sent by the prison authorities to offer him the final consolation of the Church. When the hour of his execution arrived, he walked bravely through the prison yard to the ditch in the shadow of the encircling wall. Without a quiver he faced the twelve infantrymen, who, at the word of command, fired a single shot. When the report of the volley had died away, Ferrer was dead upon the ground. Previous to the execution, precautions had been taken to forestall a possible attempt at rescue by doubling the sentinels upon the walls of the fortress.

A PARLICAL TRIAL. Spanish Liberals, not including the Terrorists, but the most moderate wing, are preparing a proclamation to-day informing the country that all the evidence against Ferrer, on which the court-martial found him guilty, consisted of forgeries by the police. There was no evidence against Ferrer that would not have been acceptable in an ordinary court, the proclamation says.

Socialists throughout France and a host of other friends and admirers had hoped to the last that King Alfonso would commute the death sentence, in view of the grave consequences that are likely to follow the execution.

Not the least of these is the likelihood that attempts will be made on the life of the Spanish King, as revolutionists throughout all of Spain have vowed to be revenged on the King.

The trial by court-martial of Ferrer is declared on all sides to have been a farcical proceeding, the condemned man having no opportunity to prove his innocence or to plead mitigating circumstances.

"THE TOLSTOI OF SPAIN." London, Oct. 13.—"If Professor Ferrer, one of the noblest and most unselfish men in all Europe, and worthy to be called the Tolstoi of Spain, is murdered after a mock trial, the civilized world will suffer an unspeakable humiliation."

This editorial expression in to-day's London News indicates the intense interest that Britain feels in the fate of Ferrer. The Government makes no attempt to conceal its fear that the execution of Ferrer will precipitate a Spanish revolution, and dark hints are heard that the trouble will not be confined to Spain alone.

The outcry that went up all over Europe against the execution of Ferrer was not confined to the Radicals. It came from high circles as well as from the ranks of the Conservatives in official positions, as well as from the ranks of revolutionary tendencies. British sympathies were almost

wholly with Ferrer, and his execution is generally considered not only a crime, but a grave political blunder.

Yesterday a mob of twenty thousand persons shouted: "Down with Spain," "Death to the Pope," and "Death to Merry del Val." They were Ferrer sympathizers.

INDIGNATION IN FRANCE. Paris, Oct. 13.—The news of the execution of Ferrer at Barcelona created a tremendous sensation when printed here to-day. The newspapers issued extra editions with glaring headlines, some of them expressing the belief that King Alfonso had compromised his future by failing to intervene. Interviews printed show that many persons prominent in the scientific and political world are both indignant and pained at the day's events in Spain. A member of the institute said that he was stupefied at the execution, which he characterized as an act of political cannibalism.

WILL UNCHAIN A TEMPEST. Brussels, Oct. 13.—People, a socialist organ, announced the death of Ferrer in a special edition to-day. Editorially the paper states: "The awful news will unchain a tempest. We fear that in refusing to stop the execution, Alfonso has signed his own death warrant."

FEAR OF PAPAL INTERFERENCE. Rome, Oct. 13.—It is believed here that the execution of Ferrer at Barcelona was hastened by the fear that the Pope would intervene. According to this theory, the Spanish authorities wished to prevent their sovereign being placed in a position where he might have to grant or refuse a papal request for pardon.

The execution of Francisco Ferrer has caused a profound impression here, and to-night there was a serious demonstration of protest against the action of the Spanish Government. The police and troops succeeded in maintaining comparative order and prevented the approach of the demonstrators to the square where the Spanish Embassy stands. It is reported that a few days ago Ferrer's daughter telegraphed to the Pope from Paris, asking his intervention to save her father's life. The Pontiff was deeply moved, and exclaimed: "Poor child; if I could succeed in softening the grief of her afflicted soul it would be a great consolation for me."

## DEAD ON GRAVE.

Startling Discovery in a Markham Cemetery.

Markham, Oct. 13.—The autopsy on the man found dead in St. Andrew's Presbyterian Church burial ground last Friday afternoon revealed the fact that death was due to acute pneumonia. On Friday afternoon some visitors from Toronto went to the cemetery to see the graves of some relatives. The visitors were startled to find a man lying on one of the graves apparently dead. The police were notified and a doctor called. When the latter arrived he said the man had been dead for some time.

Investigation led to the identification of the man as John Watson, a man about sixty years of age, who had been employed in the woolen mills for a few days, but who left on Thursday, explaining that he was unwell. He was not seen on Friday after breakfast until the body was found as stated.

Watson, who was employed in and around Malvern and Agincourt for the last twenty years or so, said he came from Aberdeen, Scotland, but beyond this he never talked much about himself or his relatives. He hardly ever wrote a letter, and was never known to receive one, but curiously enough a letter arrived to-day from Scotland for him, and this letter will be opened by the coroner at the inquest.

A careful search of the effects of the deceased by the authorities has failed so far to reveal anything about the man, although he often told intimate friends that he made a practice of saving \$100 per year.

## SEARCH ABANDONED.

Police Give Up Chase After Wright Post Office Robbers.

Ottawa, Oct. 13.—The Dominion police and special constables, who have been searching the country north of Ottawa during the past two days for the fugitive safe-blowers who robbed the Wright post office last week, have been recalled, and for the present at least the desperadoes have made good their escape.

## GREAT PARIS MOB

MADE AN ATTACK ON THE SPANISH EMBASSY.

This As a Protest Against the Execution of Professor Ferrer at Barcelona—A Policeman Shot by the Rioters.

Paris, Oct. 13.—Wild scenes of tumult to-night followed a day of excitement in Paris following the announcement that Professor Francisco Ferrer had been shot to death in Barcelona in fulfillment of the decree of the court-martial that found him guilty of inciting the recent revolt against the Spanish Government. As the day progressed the fury of the socialist element was encouraged by the news that similar demonstrations had taken place in Rome and Brussels, in protest against the execution of the Spanish revolutionary.

For several hours to-night Paris had vivid reminders of its old days of turmoil and mob rule. At least 200,000 persons made an attempted attack on the Spanish Embassy. The police and soldiers had to resort to the use of their swords. A officer fired point blank at M. Lepine, Prefect of Police, killing Sergeant De Ville immediately behind him. Another rioter was severely wounded by a sabre thrust. Among other wild antics of the mob, was the overturning and burning of motor buses and the opening of fire plugs, in order to drench the police. For two weeks, the least orderly elements of the Paris population have been worked to a higher and higher pitch of resentment over the trial and impending fate of Ferrer.

Several significant demonstrations have taken place, but to-day's news of his execution was made the pretext for organizing a movement which but for the prompt measures of repression, might have developed into a serious outbreak. The mob was composed of Socialists, Anarchists, professed revolutionaries, members of the General Confederation of Labor, ruffians commonly classed under the name of Apaches, and all the lowest dregs of society.

## TURNED BURGLAR.

Girl Wanted to Gain Possession of Black Pearl Rosary.

Trenton, N. J., Oct. 13.—Fourteen-year-old Elizabeth Seabright, who risked her life to gain possession of a black pearl rosary, was held in \$100 bail to answer to the charge of grand larceny before the Mercer County grand jury.

The exploit was carried out in the true burglar style. The girl desired the rosary, which she had seen in the house next to her own. No thought of the tenth commandment entered her mind. It was easy to step from the second-story window of her bedroom to the roof common to the additions of both houses.

Once on the roof, she stealthily crossed it and pried open the window of the neighbor. In that room was the coveted rosary. Its black pearls beckoned her. She went into the room occupied by an aged person and took the emblem of religion. The prayers which had been said over the beads did not stop her. She quietly made her way back to her own room, but was seen, and those eyes were the means of her undoing.

The matter was reported to the police, and the girl was arrested with the rosary under her pillow.

## OWNERS OF LONDON

187 Persons and Organizations Own 60 Square Miles.

London, Oct. 12.—The London County Council has spent a decade in preparing a ground plan of London, showing the owners of the land. This is nearly completed. It shows that 34,600 landowners own land covering 113 square miles, these being mostly single house owners. Sixty square miles are owned by 187 persons, organizations and corporations. One-third of this area belongs to the Crown, the ecclesiastical commissioners, the County Council and the city corporation. It is estimated that the present value of the land on which London is built is \$3,000,000,000, which will be increased to \$3,175,000,000 by 1930.

## PLUG BLEW OUT.

Arthur Ouellette, a Bellboy, Killed in a Montreal Hotel.

Montreal, Oct. 13.—A boiler explosion occurred in the Turkish Bath Hotel this afternoon, killing a bellboy named Arthur Ouellette and seriously injuring Charley Binks, a hotel fireman. A plug in the boiler blew out with a terrific report. Curiously enough the damper in the boiler room was almost nothing. It is practically confined to the wood-work in the boiler-room and damages by water to a number of articles which were in the cellar at the time. The fires had just been started for the winter and the firemen were cleaning the furnaces when the explosion occurred. An investigation will be held.

## Boy Killed by Potato Digger.

Strathroy, Oct. 13.—Morgan, the six-year-old son of Mr. Frank Pierce, was playing around a potato digger standing in the field, with the team attached, while the men were picking up potatoes. The horses started forward, throwing the victim against the machinery, a sharp prong of which penetrated the stomach. He died an hour afterwards.
