

EXPECTS TO SAVE \$25,000.

City to Have First Gravity System on Continent.

Engineer Will Require Much Assistance Next Year.

700 Pupils at Technical School - City Hall News.

By installing a gravity system, which will do away entirely with maintenance and operating expenses, City Engineer Macaulum hopes to save the city about \$25,000 a year on the new west end sewage disposal plant, which will be built next year if the people vote the money.

Mr. Macaulum figures out that he will need a whole staff of engineers to assist him with the amount of big work under way over which the city will have to observe very strict supervision.

In connection with the disgusting story of the diseased condition of meat on Central Market, as related to the Board of Health last night by a Dominion meat inspector, the city officials pointed out to-day that Hamilton already has a meat inspector in the health department, and the by-law fully covers all requirements.

The city expects to finish up its negotiations with the Street Railway Company for next year's work to-morrow. A meeting will be held at 4 o'clock.

Principal Witton reported last night at the joint meeting of the Technical School and Building Committees that over 700 pupils are now enrolled at the new institution.

The Bricklayers' Union has been enquiring to know what provision has been made at the Technical School for teaching that trade.

Building permits were issued to-day as follows: E. B. Patterson, brick house on Caroline street, between Robinson and Charlotte avenue, for A. Morrow, \$13,000.

The work of constructing the power house for the new electric pumping plant at the Beach was begun to-day.

The engineer is opposed to doing much sewer construction or laying any water mains in the real cold weather, so that a lot of the new work in the newly annexed district will have to stand over until spring.

The ground is so flat east of Sherman avenue that Mr. Macaulum thinks it may be necessary for the city to pump the sewage from that district.

In view of the addition to the city by the new annex, both Chief Ten Eyck and Chief Smith will demand that the membership of their departments be increased next year.

The Cemetery Board decided yesterday afternoon to invest the perpetual care fund of \$50,000 with the Mercantile Trust Company, for five years, receiving five per cent. interest, paid quarterly.

BOTH COMMITTED TO HIGHER COURT.

Mr. Macaulum figures out that he will need a whole staff of engineers to assist him with the amount of big work under way over which the city will have to observe very strict supervision.

P. C. Cameron and Barrett told the story of the arrest last Saturday night.

Tony Ball goes free. Tom Nick said he stole \$5 from him. Tony said he found the money on the floor in Nick's shoe shine parlor, on King street east, where he was employed.

Nick said the money was his. His Worship contended there was not sufficient evidence to convict defendant for theft, though Tony must make good the dollar he spent and the \$5 will remain with the police until the customer who, it is said, dropped it, comes forward to claim it.

Thomas Burns, 35 Simcoe street west, trespassed on the G. T. R. tracks near Stuart street station. He pleaded guilty and was fined \$2.

John Croft, 46 Florence street, is a teamster for Hendrie & Company. He was up for ill-treating one of the horses he was driving.

Conductor Cardwell and Motorman Brock, who were on a street car near where the case took place, swore that they saw Croft strike the horse when it was down, with the cudgel in question.

Croft swore emphatically that he did not use the cudgel at all, and another teamster, named Smith, said the horse was not struck while it was down.

Chief Smith submitted it was wanton brutality to use such a thing to beat an animal.

George S. Kerr, K. C., argued the pros and cons of the case, and had witnesses to say what an excellent teamster Croft was. The Magistrate said there was doubt about the case and it was dismissed.

Henry Gerard, 3 Henry street, allowed his horse to wander on the street. The by-law prohibits that. He paid \$2.

L. Jones, Mount Hamilton, must pay \$20.40 wages due to Samuel Tansley. Defendant claimed he had paid the man once, but his Worship thought otherwise, hence his decision.

William Gray, 116 Park street north, was found perambulating the streets in the early hours of this morning in company with other youths.

The officer said the boy told him he was a Grand Trunk call boy, but his suspicious actions warranted the arrest. He will come up again to-morrow.

A letter has been received by Chief Smith from Thomas Farman, chief of police at Baltimore, Md., stating what a very dangerous character Samuel Wolfe, who was sentenced to ten years yesterday, is. A long record of crime was given.
