L. BLACK & CO'S

Spheroidal
Spectacles

AND
EYE GLASSES

ARE the best for the preservation of the sight, and took the medal at the Centennial Exhibition.

The lenses are made of the best material, uniform in density, and of high refractive power, their perfect polish and spheroidal shape adapt them to ease and improve the sight of the wearer. The eye being the most delicate organ, great care should be exercised in selecting spectacles; it is not enough that the glass be of the right focus, but the lenses must be perfectly centered and in many cases perfect relief is only given by having each eye fitted separately. To effect this the lenses are made interchangeable, and having an Optometer to measure the sight, a perfect fit is guaranteed.

Call and examine before purchasing any other kind.
