

Physiological Action Of Tanlac Explained

World's Leading Authorities Show Just What Tanlac Really Is and Explain Effect of Each of Ten Ingredients on the Human System. Power of Medicine Conclusively Proven.

A day never passes but what thousands of people ask the questions: What is Tanlac? Why its phenomenal success? Why do we hear so much about it? and Why has this preparation so far cut stripped all other medicines of its kind?

The answer to these questions is easy and can be explained in just one word—merit. Tanlac is scientifically compounded and represents years of work, study, experimentation and research by some of the foremost chemists and pharmacologists of America.

The Tanlac formula is purely ethical and complies with all National and State pure food laws. It is purely vegetable and is made from the most beneficial roots, herbs and barks known to Materia Medica. The Tanlac Laboratories are among the largest and most modernly equipped in this country.

Ten Ingredients in Tanlac

Altogether, there are ten ingredients in Tanlac, each of which is of recognized therapeutic value.

In referring to one of the more important ingredients of Tanlac, the Encyclopedia Britannica says:

"It has been the source of the most valuable tonic medicine that have ever been discovered."

In referring to other of the general tonic drugs contained in Tanlac, the 13th Edition of Potter's Therapeutics, a standard medical text-book, states that "they impart general tone and strength to the entire system, including all organs and tissues."

This same well-known authority in describing the physiological action of still another of the ingredients of Tanlac, which is of value in treating what is commonly known as a "run-down condition," uses the following expression:

"It is highly esteemed in loss of appetite during convalescence from acute diseases."

There are certain other elements in Tanlac which, because of their influence upon the appetite, digestion, assimilation and elimination, improve the nutrition and vital activity of all the tissues and organs of the body and produce that state of general tonic which is called health.

The United States Dispensary makes the following comment regarding another ingredient:

"It may be used in all cases of pure debility of the digestive organs or where a general tonic impression is required."

There are certain other ingredients described in the Dispensary, and in other standard medical text-books, as having a beneficial action upon the organs of secretion, whose proper functioning results in a purification of the blood streams passing through them. In this manner, objectionable and poisonous ingredients of the blood are removed and the entire system invigorated and vitalized.

Tonic and Body Builder

Tanlac was designed primarily for the correction of disorders of the stomach, liver and bowels. At the same time, however, it is a powerful reconstructive tonic and body builder, for it naturally follows that any medicine that brings about proper assimilation of the food and the thorough elimination of the waste products must, therefore, have a far-reaching and most beneficial effect upon the entire system.

SUNNY CORNER

Sunny Corner, July 9.—The Misses Frances and Gertrude Sheasgreen who have been in Montreal for the past nine months are home for their holidays.

Mrs. Henry Leach spent last week in Sunny Corner.

Miss Bernetta Keating, Newcastle, is visiting the Misses McAllisters.

DO YOUR FEET BURN?

Then use Zam-Buk. There is nothing so soothing for tender, aching or blistered feet. It will end the burning, draw out the soreness, prevent blistering and give you perfect foot comfort. Also there is nothing so good as Zam-Buk for sunburn, heat rashes, blistered hands, aching muscles, mosquito and insect bites, cuts, bruises, burns and all skin injuries and ailments. 50c. all druggists and stores.

ZAM-BUK
IS SOOTHING!

Sure.

When you buy King Cole Tea you are sure—sure of that full rich flavor that has won for it its widespread sale.

"You'll like the Flavor"

DRYEST JUNE WITH THREE EXCEPTIONS

On only three occasions since 1874 have there been as light a rainfall during the month of June as shown by the returns which were released Saturday by the Dominion Meteorological Station, and never in the 48 years that the bureau has been operating has there been such a low precipitation for the first six months of the calendar year as reported Saturday.

The precipitation for the six months of the year ending on June 30, 1921, was 14.71 inches, while the average for the past 48 years was 21.32 inches. The past month's record is the lowest for any month of June on record, the only incomplete June on the official records being in 1894. Since 1874 there have been only three occasions on which the month of June has furnished less precipitation than in the past month, when the records show 1.88 inches.

The mean temperature for the past month was 60, which is the same as last year and the same as for the past 48 years. The wind mileage for June, 1921, was 4,503, while last year it was 5,578.

Courts Enforcing Forest Protection

Jail sentences and heavy fines for causing forest fires are now being applied more frequently by Canadian courts. For the first time on record, an Ontario settler was sent to prison recently for defying the law regarding the taking of precautions before clearing land by fire. His carelessness caused a loss of millions of feet of timber. Five New Brunswick sportsmen were fined fifty dollars each for leaving their campfire burning, causing thereby a serious timber conflagration. Heavy fines and jail sentences are also the rule with many Quebec magistrates who are determined to stamp out the prevalent carelessness of the public in regard to forest destruction.

Not many years ago, an Eastern Canada farmer set fire to his debris to clear a new patch for potato planting and as a direct result burned down enough white pine to have kept the largest Canadian lumber plant supplied for 56 years.

FOREST FIRE NEAR LOGGIEVILLE

A serious forest fire broke out Tuesday afternoon about five miles below Chatham in the woods between the McKnight and Forrest roads. Fortunately the wind was not strong, a slight breeze blowing from the east at the time, but so dangerous did the situation look that Fire Warden Howard Irving who arrived at the scene very quickly after the blaze was reported, ordered back firing to be started on the Forrest road in an effort to keep the blaze from crossing that road and reaching another extensive section.

A large crowd gathered from nearby sections to help in the fight and to watch the conflagration which was awe inspiring as tree after tree shot up in flames amid a roar like a hurricane.

Fires are also burning at Rogersville, Acadaville and on the South-west. That on the Renous river which is 10 miles in extent is reported under control.

Purity. Quality. Economy

The combination of purity, quality and economy has made **Magic Baking Powder** the standard baking powder of Canada. **Positively contains no alum or other injurious substitutes.** Its use insures perfect satisfaction. **"Costs no more than the ordinary kinds"**

MRS. PERRY FOUND NOT GUILTY

Yarmouth, N. S., July 5.—"Not guilty" announced the foreman of the jury which for the past seven days has sat in the Yarmouth Curling rink watching the proceedings of the trial of Mrs. Clara Elizabeth Perry for the murder of her husband, the late Captain George Henry Perry. There was an exclamation from the audience, but the black garbed figure in the prisoner's dock expressed neither extravagant surprise or satisfaction.

Never Lost Her Poise

The poise, which since the tragic event of the night of February 26 last, has never completely deserted her, stood her in good stead when her daughters embraced her and Counsel for the prosecution and defence with Chief Detective Horace Kennedy, of Halifax, who arrested her, came forward to shake hands and offer their congratulations.

Mansfield Ross, held by the Crown as an accessory after the fact of the murder, evinced evident relief when the verdict of the acquittal was announced. The jury was out of the court room for an hour and a half.

300 BOY SCOUTS TO CAMP AT GRAND LAKE

During the past few months the Boy Scouts have increased their organization and membership very largely in New Brunswick and arrangements have been made by the Provincial Council for a "bumper" camp to be held on Grand Lake from the 1st to the 15th of August. It is expected that over three hundred boys will take advantage of this outing.

The aims of the Camp are those of the Boy Scout Movement, viz:—Character-building, Citizen-training and Canadianization.

The Camp is open to any boy in New Brunswick who has passed his Tenderfoot Tests and has been invested as a Scout. The cost to each boy will be \$7.00 for two weeks, so that, financially, it is within the reach of all. Hundreds of Scouts throughout the Province have been saving up their after-school earnings for months to "Be Prepared" for this big event.

The Camp Committee consists of Messrs. T. E. Simpson, A. C. Skelton, J. D. Tothill, V. C. Timberley, and W. V. B. Riddell. Professor Tothill, Dominion Entomologist, of Fredericton, is Camp Director and Instructor of Forestry, Canoeing, and kindred subjects. Among the instructors already obtained for the Camp are Prof. William McIntosh, M. Sc. for Nature Study, Forestry and Camplore; Dr. William Warwick, Health subjects; Mr. G. H. Prince, Provincial Forester, Woodcraft; Mr. W. V. B. Riddell, Physical Culture, Field Sports, and 1st Aid to the Injured; Lt. Col. T. E. Powers, D. S. O., Signalling, Field Sketching, Judging Distance and similar subjects; and Mr. V. C. Timberley, Swimming, Life Saving, Aquatic Sports and Camp Cooking.

The Camp site is an ideal one and is situated one mile above Douglas Harbour, near Grand Point, where there is a ten acre clearing sloping down to a wide sand beach which affords splendid facilities for boating and swimming.

Every care is being taken with regard to the sanitary arrangements of the Camp and the providing of a supply of pure water. The Camp will be under inspection by the Provincial Health Authorities.

A staff of professional cooks has been engaged and a bountiful supply of plain, but wholesome and nourishing food will be provided. Cooking tests and instructions will be given on "hikes" taken away from the main camp when each boy will be issued

single office, under the direction of H. W. Wood, is appointed acting district superintendent of the St. John Postal Division. The former designation, "The Inspectorial Division of New Brunswick," which included, and is still to include, the province of Prince Edward Island is discontinued. The title inspector is superseded, and the head of the office is to be known as District Superintendent.

The office is hereafter to include directly the Railway Mail Service and is to have jurisdiction over all local postal affairs. This is particularly a return to former arrangements when the Railway Mail Service was first organized having formed part of the inspector's office.

WILSON'S FLY PADS

Kill them all, and the germs too. 10c a packet at Druggists, Grocers and General Stores.

POSTAL SERVICES ARE CONSOLIDATED

Important postal changes, affecting New Brunswick have gone into effect recently. Dating from July 1, several local postal services are consolidated, and will operate in future as a

Bake with BEAVER FLOUR

OBTAIN bread with that delicious home-made flavor—pies, cakes and pastry with tender, delicate, flaky crusts.

Beaver Flour is made from the finest of selected Ontario Winter Wheat combined with enough Western Hard Wheat to give it strength.

Beaver Flour is the original blended flour—and blended flour is recognized by all qualified experts to be the best flour for general baking purposes.
