Reading Lamp Opticians agree that the light from a good oil lamp is easier on the eyes than any other artificial light. The Rayo Lamp is the best oil lamp made. It gives a strong, yet soft, white light; and it never flickers. It pre-serves the eyesight of the young; it helps and quickens that of the old. You can pay \$5, \$10, or \$20 for other lamps, but you cannot get better light than the low-priced Rayo gives. Made of solid brass, nickel-plated. Easily lighted, without removing shade or chimney. Easy to clean and rewick. Dealers everywhere ; or write for descriptive circular direct to any agency of The Imperial Oil Company, Limited
