# The Evening Chit-Chat

By RUTH CAMERON

"Been a nice day, hasn't it?" I greeted as my neighbor and I swung into step together on the way up from the train.

"Do you really think so?" she queried, with a little smile.

I looked up at the sky. It was grey and lowering. I thought back over the day and remembered that there had been but a few scattered moments of sunshine, and a very dusty and disagreeable wind, and acknowledged that it was up to me to qualify my rather foolish remark.

"Funny how much we do that, isn't it?" commented my neighbor. "Say 'It's a nice day' or 'It's a beautiful morning,' or something like that just to smooth over the jar of coming to-gether, without having any idea of what we are saying."

"The elevator boy brought that hat to my attention. I was hurrying in late to my work one morning, and thinking so hard about what I was going to do first, that I didn't know

any more what I was saying than a parrot when I greeted him, 'Beautiful morning, James.'

"I'd like to know what it's beautiful for," he said, and I came to, and remembered that it was snowing hard, blowing a gale, and that there was two feet of slush on the ground.

"Since then I've tried to put a little more common sense and intelligence into my greetings and comments on the weather."

It seems to me that a good many of us could make the same effort with good results.

For I think a greeting so thoughtless and abstracted that it is an absurdity, is really rather a poor thing to offer anyone.

Do you want to know how to be your own doctor and pharmacist for the cure of that worn out, can't-wait-until-vacation feeling, that's got hold of you long about now?

Do you want to know how to compound the best of spring tonics right at home?

Well, then, take one part of assorted seeds and plants, and two parts of garden tools, to three parts of mother earth. Add one part of elbow grease and two of enthusiasm for

growing things, mix well and take daily.

This compound is extremely good for children. Many wise parents administer it like sulphur and molasses every spring as a precautionary measure, even where there is no apparent ailment.

It is also a good sedative for people who suffer from that form of nervous excitement known as the "wanderlust."

## Patriotism

The stomach is a larger factor in "life, liberty and the pursuit of happiness" than most people are aware. Patriotism can withstand hunger but not dyspepsia. The confirmed dyspeptic is fit for treason, stratagems and spoils. The man who goes to the front for his country with a weak stomach will be a weak soldier and a fault finder.

A sound stomach makes for good citizenship as well as for health and happiness.

Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of

**DR. PIERCE'S GOLDEN MEDICAL DISCOVERY.**  
It builds up the body with sound flesh and solid muscle.

The dealer who offers a substitute for the "Discovery" is only seeking to make the little more profit realized on the sale of less meritorious preparations.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the paper covered book, or 50 stamps for the cloth bound. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

## HOUSEHOLD NOTES.

To freshen stale cake, dip it for a second in cold milk and then rebake it in a rather cool oven. Stale bread may be treated in the same way.

For polishing brass trimmings, such as door knobs and hinges, mix equal parts of paraffin and naphtha with enough rotten stone to make a stiff paste.

Keeping groceries in paper bags is the hallmark of a slovenly housekeeper. There should be a proper receptacle, tin box or glass jar, for everything.

Preserves, jellies and canned fruits should be kept in a dark closet. If the closet has a glass door it should be covered with a dark green shade.

Green soap is the best cleanser for pimples and blackheads, but should be used sparingly and diluted with water, or it may irritate the skin.

To perfectly cleanse and sweeten the coffee pot, fill it nearly full of water and add a generous teaspoonful of borax. Let the water come to a boil.

To prevent olives from becoming tainted after the bottle has been opened, pour a little olive oil in on top of them. It will keep them in good condition indefinitely.

If moth gets into the carpets, boil a few camphor balls in water, dip a clean broom into the mixture, and sweep the carpet with the dampened broom.

Small side dishes, once so numerous, are now used for nothing save perhaps for a thin apple or rhubarb sauce. Rarely more than two vegetables are served with a meat course.

Sandwiches made from rye bread are delicious if cut very thin and spread with a mixture of minced olives, Spanish peppers, cream cheese and a little bit of mayonnaise.

There is nothing better for nails that are inclined to break off or for cuticle that is difficult to manage than to rub on some olive oil or white vaseline several times daily.

Court plaster should never be allowed to completely cover a deep cut. It should be cut into strips and fastened across the wound so that the secretions from it can freely escape.

The bluish cast which comes on "faded" polished furniture in damp weather may be removed by wiping with lukewarm water in which there is a tablespoonful of ammonia to a gallon of water.

Emery powder and oil made into a paste is an excellent mixture to clean steel. Rub on well and polish, after which rub with an oiled rag and then polish up again with a clean duster.

When the sauceman in which oatmeal or any other cereal is cooked is emptied, fill it immediately with cold water. By the time the pan is to be used again it will be easy to clean.

When the silk dress is made quite long so that it rests on the ground, it will be better if a facing of Canton flannel is used, extending above the hem a few inches.

To improve liver, cut slashes in it and thread with thin strips of fat bacon. Season somewhat highly and bake for an hour or more. This is the usual manner of its preparation in France.

## Gould-Drexel Wedding.

Marriage of Representatives of Two Wealthy U. S. Families.

New York, April 19.—Miss Marjorie Gunne Gould, eldest daughter of Geo. J. Gould, and one of the richest and most attractive girls in America, was married at 4 o'clock this afternoon to Anthony J. Drexel, Jr., of Philadelphia, thus forming an alliance between two of the wealthiest and most aristocratic families in America. Two hours before the wedding the church was stormed by a crowd of women and before the police arrived, blossoms were plucked and vines were torn down in the rush for souvenirs. The ceremony, which was performed by Bishop Scarborough, of New Jersey, was a simple one. The floral display was beautiful. A force of detectives stood on guard all day guarding the wedding presents, some valued as high as \$2,000,000.

I consider MINARD'S LINIMENT the BEST Liniment in use.

I got my foot badly jammed lately. I bathed it well with MINARD'S LINIMENT, and it was as well as ever next day.

Yours very truly,  
T. G. McMULLEN.

I. O. G. T.—George Boyd Lodge will meet on Wednesday night to elect their officers for the coming quarter.
