WEDNESDAY, May 22nd, 1912.

Why Was Not **Proper Data** Furnished?

We observe in to-day's report of the Assembly that Mr. J. A. Clift criticized the financial estimates of the Branch Railway Lines much in the same tenor as has appeared in the Evening Telegram from time to time. He complained of the vague and unsatisfactory basis on which the request was made to the House for authority to go into the market to raise money to meet the financial obligations under the Railway Extension Act of 1910. Mr. Clift undoubtedly scored a point

In 1910, the opinion of the Premier was that annual interest charge of poned till Saturday. \$140,000 a year would cover everything. This year his opinion is that \$210,000 a year will cover everything. Traps Are Doing Well.

SALMON PLENTIFUL.

So far the fishery north, particular-ly around Bonavista, is encouraging and promises to be good. According to reports received to-day by the Marine and Fisheries Department traps are doing exceptionally well, while handliners are securing average catches. Around Fogo there is a good sign of fish and several traps yester day got 12 barrels of fish. At King's Cove and Bonavista traps are getting daily from 12 to 50 qtls. Salmon is reported very plentiful at the latter

The schr. Nellie N., Skipper Pat. Nagle, reached down from Bay Bulls this morning for supplies. When first she left she got the full force of a strong breeze coming down the shore. The new race boat which was under construction all the winter at the akeside and built by Mr. W. O' Rourke, is practically finished. The finishing touches are now being made and she will receive her first coat of paint the latter part of the week. Quite a number of citizens were inspecting her last evening. Kaiser's Threats Cause Sensation.

Berlin, May 15 .- Nothing the Kaiser has said or done in many months has created such a sensation or so much widespread comment in the German press as his threat at Strassburg to "smash to pieces" the recent ly granted constitution of Alsace-Lorraine and make it a Prussian province if political conditions there do

change. The Radical, Liberal and Socialis papers sharply criticise the Kaiser's utterances. They remind him that the Reichstag will have something to say about rescinding the Alsatia Constitution, that it was not of his own making, and that he could no unmake it.

A great variety

Blasphemous, Inhuman Lying.

New York, May 14.-A London cable says: George Bernard Shaw, in an article in the 'Daily News' entitled Some unmentioned morals of the 'Titanic' disaster,' asks: 'Why is it that the effect of a sensational catastrophe prayer, not of sympathy with the be reaved nor of congratulation of the rescued, nor of poetic expression soul purified by pity and terror, but of wild defiance of inexorable fate and of undeniable fact by an explosion of outrageous, romantic lying?"

Mr. Shaw criticizes the stories in regard to 'women and children first' and the tributes to Captain Smith, who he says, is written of in the news papers 'as if he were a Nelson,' whereas, 'the one thing positively known about Captain Smith is that he lost the ship by deliberately and knowingly steaming into an ice field at the highest speed he had coal for.'

Mr. Shaw concludes: 'What is the use of all this ghastly, blasphemous inhuman, braggartly lying? Here is a calamity which might well make the proudest man humble and the wildest joker serious. It makes us vain, glorious, insolent, mendacious. The effect on me was one of profound disgust, almost of a national dishono

Am I mad? 'It seems to me that when deeply moved men should speak the truth. The English nation appears to take precisely the contrary view. Again am I in a minority?

SAVAGE DOGS. - The people around Freshwater Road and vicinity are complaining of savage dogs roam ing around and destroying property in that neighborhood. These mongrels should be barred in by the owners, particularly at night time as they are a great nuisance.
