## Bible Society Meeting in College Hall

A Large Number of People Present—His Excellency The Governor Presides—Brilliant Addresses by Rev. Canon Bolt and the Rev. C. A. Whitmarsh.

(L. C. M.)  
With fine weather, timely notice, and copious editorial reviewing, it could not be otherwise than that the annual meeting of the Bible Society should be the success that it was. This statement, we feel sure, our readers will be pleased to learn, and we are equally pleased to be able to make it.  
At eight o'clock His Excellency Governor Davidson, accompanied by Mrs. Davidson and their children, arrived at the hall, and were cordially received by the executive of the Society, who escorted the vice-regal party to the platform while the organ pealed forth the strains of the National Anthem under the touch of Mr. Allen. The President, Hon. H. J. B. Woods, announced the opening hymn, "All hail the power of Jesus' name," after which the Rev. Dr. Rogers read the nineteenth Psalm as a Scripture lesson, and offered prayer. The President then called upon His Excellency to take the chair, and in doing so, His Excellency was accorded a very hearty welcome. It may be said to be His Excellency's first public appearance since his arrival in our midst, and it is a note that he was so cordially welcomed, also that he made such a pleasing impression upon the audience. Perhaps no gathering of the year could be more representative and broad-minded, than that which assembled last night at the College Hall, under the auspices of the Bible Society; and while we feel sure that His Excellency will have the privilege of presiding at many such gatherings during his tenure of office in Newfoundland, it is quite reasonable to conclude that he cannot soon forget the scene which he beheld last night.  
In his remarks, the Governor was quite at home, and displayed much good judgment in all that he said—though suffering from a severe cold, he was remembered that he was but chairman of the meeting, and therefore did not obtrude to any undue length upon the time allotted to the speakers proper. At the close of His Excellency's remarks, another hymn was sung, and he then called upon the Secretary, the Rev. Mr. Sutherland, of St. Andrew's Church, to read the report; and also upon the Treasurer, Mr. Edwin Murray, for the financial statement. These documents were duly accepted and passed, and the meeting was then in order to listen to the speakers of the evening.  
The first speaker was the Rev. Canon Bolt, of the Cathedral, and it was a great source of pleasure to the entire audience to meet the Canon upon the platform. The Canon's remarks were very appropriate and logical, and were heard with good effect throughout the hall. Another hymn intervened, and then came the second speaker of the evening, the Rev. C. A. Whitmarsh, of Cochrane St. Church. Like the former speaker, Mr. Whitmarsh showed himself a workman that needeth not to be ashamed. Both the addresses were well timed, and choicely prepared. They were also of the right spirit, for such a meeting as that of the Bible Society; and we feel that all the people of the community, and of every sect, could say "Amen" to every utterance of the speakers.  
And this is as it should be, for while the Church may differ on certain points of doctrine, we are all agreed on the common teaching of Holy Writ, and we can well afford to come once a year to such a beautiful building as the College Hall, and there join hands in support of the Good Book.  
Following the addresses, there was the usual election of the committee, and other minor matters, with which the public are well acquainted. The meeting was closed in good time, and proved to be one full of inspiration, and one that was fresh and attractive from first to last.  
We compliment the Bible Society and its Executive, and especially the President, our esteemed townsmen, the Hon. H. J. B. Woods, upon the great success of the annual meeting; and as they go forth to another year's work they can rest assured that they have the best wishes of the community and the Press at their back.  
In closing we must, however, say a word in reference to the singing and music under Mr. Allen. It was indeed very hearty, and Mr. Allen's presiding at the organ was highly appreciated by those competent to judge of his merits.

### A Birthday Wish.

Dear Doris may this thy eighteenth birthday  
Beam with promise of a bright and peaceful life,  
With cup of blessing filled and running o'er,  
And not a drop or trace of earthly strife;  
O'er all thy way may skies propitious shine,  
And may no blighting sorrow e'er be thine;  
May virtue, precious treasure, dwell within,  
Guarding thy heart against the wiles of sin,  
May ethics pure with grace and beauty join'd,  
Merit esteem of priceless-lasting kind.

### At the Nickel.

The Nickel Theatre was largely patronized again last evening and all present were delighted with the pictures. There was no song as the management put on an additional film and a most interesting and amusing one it was. This evening there will be an entirely new show. The pictures will be bright and interesting.

### Electric Restorer for Men

Minard's Linctament Cures Diphtheria.

## Channel Parish.

The movement to have the Mission of Channel (Codroy) to last in Newfoundland inclusive, referred to in a previous issue of the Telegram, erected into a Parish, has been brought to a successful termination. A petition to the Executive Committee of the Diocesan Synod, signed by representatives of the congregation, received the approval of that body, and on Wednesday evening last the 19th inst., the first Parochial meeting was held in St. James' school room, Rev. H. J. Read presiding. Having briefly outlined the purpose of the meeting, Mr. Read placed his resignation as incumbent, in the hands of the congregation and retired from the chair. On motion of R. T. Squarey, Esq., J.P., seconded by Mr. William Harnett, Mr. H. J. Mackay was appointed interim Chairman, and the election of a Rector was immediately proceeded with. R. T. Squarey, Esq., in a very eloquent speech in which he paid a graceful tribute to the sterling work of Rev. H. J. Read, during his 15 years period as incumbent of this Mission, asked permission to have the resignation waived, and moved that the late incumbent be elected First Rector of Channel Parish. This being seconded by Mr. C. T. James, who referred to the advances made by the Mission during the present incumbency, was put to the meeting and carried unanimously by a standing vote. The newly-elected Rector was thereupon conducted to the chair by Messrs. Squarey and Mackay and reassumed the duties of the office. Formalities were dispensed with for a short time, during which Mr. Read received the personal congratulations of the members present. Business being resumed, Mr. C. T. James, was on motion elected R. T. Squarey, Esq., seconded by Mr. James Evans, elected Secretary-Treasurer of the Parish, and the following were appointed a Finance Committee: Messrs. E. Pike, S. Gillman, (Warden), A. Chaisson, W. Blackmore, E. Bragg, Geo. Poole, W. Chaisson, Lewis Sheeves, Secy.-Treas. ex-officio. The Rector having thanked the meeting for their many manifestations of good will toward himself, expressed the hope that under the new conditions, the same pleasant relations would continue. Business now having been completed, the Doxology and Benediction brought the session to a close. The newly created Parish starts under the most favorable auspices, and to those who by their efforts brought about the change, the thanks of the congregation have been accorded.

Channel, Feb. 21, 1913. —COR.

## Neckties.

BY H. L. RANN.

The necktie is a bright bit of 50-cent plumage which men wear in order to attract attention from their looks. A green necktie with yellow and red stripes, which can be heard coming long before the wearer turns the corner, will take the mind of the onlooker of any facial blemishes or bow-legged ensemble which may lurk in the vicinity.  
The most servicable necktie ever invented was the old Ascot scarf, which covered the entire shirt front and saved an immense amount of laundry. Owing to the fact, however, that the average man couldn't tie this scarf without standing on his right ear and revolving rapidly in front of a cheval glass, the Ascot never became popular with the masses. This necktie also consumed about four yards of high-priced material, and the price of a silk Ascot would eat a deep crevice in the ordinary income.  
The most pernicious and aggravating necktie in existence is the full dress bow. This tie has caused many a man to use language in the boudoir that would sound perfectly at home in the bar room. It is a lithe, agile article which is liable to shift around under the left cheekbone and expose the figure of a ten-cent collar button. The man never lived who can tie one of these bows without losing his religion. Most men hire their wives for this purpose, and are rewarded by being pinned to their shirt front and the bow at one and the same time.  
The narrow string tie is a specimen of fiendish ingenuity which has to be united with a clasp knife and a button hook. When properly tied, it is harder to get at than the moneys and credits of a pious community.  
Since it has become the fashion for women to wear neckties, husbands and brothers have to carry their stock down to the office and put it in the safe. It is highly embarrassing to receive the encomiums of numerous envious friends upon some flaring new tie, and the next day be accused of breaking into your wife's closet.

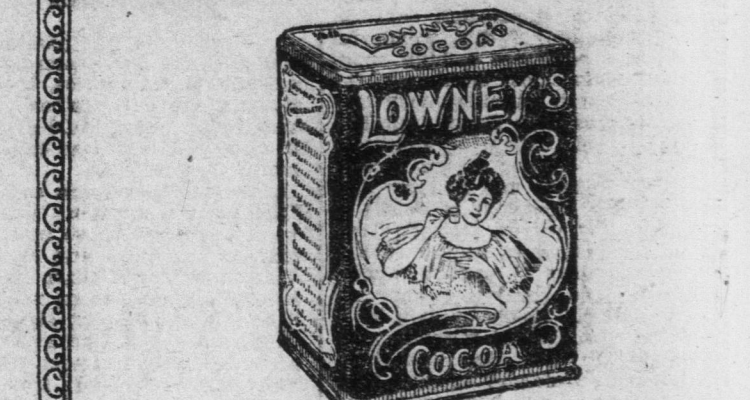

Special to Evening Telegram.  
ST. PETERSBURG, Feb. 27.  
Confirmation is alleged to have been received of the report that the Turkish Government has expressed willingness to surrender the fortress of Adrianople, if Russia declined to support Bulgaria's demand for a war indemnity.

MINARD'S LINCTAMENT CURES GAGGET IN COWS.

About 1526, Cortez, the conqueror of Mexico, first tasted chocolate.  
In 1528 he returned to Spain bringing this new food-drink with him.  
Spain kept the preparation a secret until 1606.  
Then an Italian learned how to prepare chocolate. Its use finally spread over Europe.  
It has remained for Lowney to bring cocoa to its highest point of perfection—to show how cocoa ought to taste.  
The selection of the choicest cocoa beans, the skill in roasting and blending, and the care in making, all combine to give Lowney's a rich, full flavor duplicated in no other cocoa.  
Lowney's Cocoa is produced in the beautifully-clean Lowney plant in Montreal.  
If you want a delicious cocoa treat get a tin of Lowney's from your grocer—10c to 50c sizes.

## LOWNEY'S COCOA

## Anglican Minister

Preaches in a Presbyterian Church — Cancellation of His License Demanded.

Montreal, Feb. 21.—"I have just returned from Toronto and have only had time to glance hurriedly at the papers," said His Lordship Bishop Farthing when asked what attitude he would adopt on the furor which has been created in the ranks of supporters of the Anglican Church here over the action of Rev. Dr. Symonds, rector of Christ Church Cathedral, who preached in a Presbyterian Church, in the parish of a fellow-Anglican minister, without first securing the sanction of the Bishop.

The men's association of the Parish in which Dr. Symonds preached, have demanded the cancellation of his license. Dr. Symonds, who is one of the advocates of the Church Unity Party in his denomination, says he preached in the Presbyterian Church, because he favours a closer union between religious organizations and he also intimated that he would gladly preach in a Roman Catholic Church

in Montreal, if Archbishop Bruché would allow him to do so.  
Bishop Farthing, of Montreal, began pouring oil on the troubled waters, when this morning he gave out the statement, that "the report that he had intended to take immediate and drastic action was quite unofficial and unauthorized."

**NO SELF CURE NO FICTION! NO SUFFERER NEED NOW DESPAIR. THE NEW FRENCH REMEDY, THERAPION NO. 1**
