**Are the Lines Across this Figure Equally Heavy and Black?**

If they appear otherwise your eyesight is defective. This particular defect of vision is called astigmatism, and is the most common form of eye error. Astigmatism, when advanced in development, is one of the most serious of all eye troubles, imposing strain on the entire nervous system. Properly fitted glasses will correct this error, relieve the strain and generally increase your vitality and efficiency.

We have a special instrument for the location and measurement of Astigmatism.

**Who's Who**

ANY WHY IN NEWFOUNDLAND AND CANADA—1919-20.

"Who's Who and Why" is designed to provide a record of the men and women who in one capacity or another are contributing to the building up of Canada and Newfoundland.

In the brief account of their career in these pages their relation is shown to the outstanding events of the history of the sister dominions, and the book, therefore, has a value for the historian quite beyond its use as a current work of reference.

Included also are portraits of persons dealt with in the biographical sketches, thus adding to the permanent value of the book. Only a few copies on sale.

PRICE \$8.50.
