THE SCHOOL OF NURSING

at Saint Mary's Hospital, Saint Marks and Buffalo Avenues,
Brooklyn, New York City.

Two and one-half year's course. Entrance requirement, one year School or equivalent. Uniforms, Text Books, Laundry, Maintenance, etc., included in the fee. The first \$20 for the second and \$30 for the third year. The fee is payable in three installments. Graduates are eligible for State and Municipal positions. New York Home a separate apartment building. Tennis Court. For further particulars write to Sister Superior or Director of the School, 1725, in 1924.

Through With School, Now What?

The answer is entirely up to yourself. It is only a question of whether or not you are properly trained. Every man pays for a business training whether he gets it or not, pays for it in smaller salary, in harder work, dissatisfaction, in fewer opportunities. Fall term opens Sept. 6th. New classes forming each Monday after that date. Write, phone or call.

Empire Business College
Sydney, N. S.

Have your office made comfortable for you these chilly mornings by using one of NOSWORTHY'S COSY GLOW HEATERS.

Valuable Cement Property.

We learn that in connection with the cement property at Heart's Delight, Mr. R. J. Murphy left for New York by express to-day, on business concerning the development of these recently acquired areas. To-morrow Messrs. Allan T. Long (Surveyor) and M. L. Parrell will go out by local train, to the property, for the purpose of making a survey, in order that everything may be in readiness for commencing operations. The opening up of this valuable deposit, the quality of which has been determined to be better than imported cement should give considerable employment to men in the vicinity, and we trust that all the hopes of the shareholders will shortly be realised.

Wake Up, Newfoundland!

IS THERE A NIGGER IN THE FISH PILE?

Editor Evening Telegram.
Dear Sir—Any thoughtful observer of financial conditions in Newfoundland must come to only one conclusion. That fish at \$4.50 per qt. tal qual does not provide enough wealth to sustain either the Government, the mercantile trade or the individual worker, under present day cost of commodities and expenses. To a large extent the cash received for fish must be used to pay for our imports, food, clothing, fuel, etc. It is therefore evident that no great improvement can take place in trade conditions in Newfoundland until the price of commodities is further reduced and the price of fish advanced. It will take \$7.00 or \$8.00 fish tal qual to enable this country to pay its way and relieve the large amount of "frozen credit" which is now tying up the country's trade. In view of recent events one is led to ask "Is there a nigger in the fish pile?" The fish buyers argument and that of the fishermen, is "Too much old fish, and markets too bad to pay more for fish locally." On the other hand the offer received from Russia to purchase 400,000 qts. of our fish remained unanswered by the Board of Trade for practically a week, during that time no effort was made to improve the offer and very little interest was taken in it although it received the unanimous support of all the newspapers. It is impossible to put through a deal of this kind if those interested magnify the obstacles and minimise the possibilities. It is suggested that when the fish is transferred from the fishermen's hands at a low price the time will be opportune for improved markets. The price of fish is of national interest and if Newfoundland is to survive, a better price must be paid and we should concentrate all our efforts on opening new markets so that the increased competition will have the effect of advancing the price to a paying basis.
Yours truly,
WM. WHITE.

Obituary.

WILLIAM A. NOEL.

On Monday, August 8th, there passed away strengthened by the last rites of the church, one who was highly respected by all who knew him. How true are those words which we all so often hear, yet seem to pay little heed to in our health and strength. "In the midst of life we are in death." A few days before his passing Mr. Noel was about his daily business. No one realised that the end was near, since he was not complaining of being ill. His sickness was sudden, only a few days duration, and the soul of one whose form was familiar, his kind and gentle manner winning, passed to the church expectant. On Tuesday, August 9th, the Rev. W. E. R. Cracknell, committed to mother earth, all that was mortal of a loving husband, father and friend. There to await the sound of the trumpet. "For the trumpet shall sound and the dead shall be raised."

O death, where is thy sting?
O grave, where is thy victory?

For ten years on and off Mr. Noel was Church Warden of St. Peter's Church, St. John's, an office which he filled faithfully and well. Of him it can be truly said he was a Christian gentleman.

To mourn their sad loss are left a widow, (an invalid for many years); two sons, Stewart, living in Vancouver, B.C., and Ernest at home; three daughters, Maymie, Mrs. Job Davis, St. John's; Elsie and Floss at home. The former at one time popular stewardess on S.S. "Togo"; three brothers, John Fred, Vancouver, B.C.; Archibald, Harbor Grace, South; Simon, Victoria; and one sister, Mrs. Rose Ann Parsons, St. John's. To whom the sympathy of all the community goes forth. May his soul rest in peace. "Father in Thy gracious keeping Leave we now Thy servant sleeping."
—COM.

St. John's, Sept. 3, 1921.

WATER SHUTES DRY.—Owing to hot weather which has been experienced along the railway recently, the water shutes have gone dry and train hands are compelled to obtain water from the nearby ponds. As a consequence the express trains have been delayed some hours, during the past few days.

Salvage Notes.

During the past few days the Road Board has had men employed on the repairing of roads and bridges. Several large boulders that appeared above the surface on the main road have been removed, and the road now presents an even surface in so far as gravel can be even, and very well suited for the mailman's carriage. Other carriages are few and far between, excepting baby carriages, of course.

A rather unusual incident occurred shortly after the men began work on the first day. The foreman came along and informed his men that they were getting the pay of 20 cents per hour, upon which the gang then threw down tools proclaiming that 25 cents per hour was their lawful due. The chairman of the road board granted the concession, and work was immediately resumed. A strike is by no means rare, but I imagine it is uncommon in Salvage. Fortunately the issue was decided so quickly and amicably that John Clifton might well learn therefrom.

Among other things done to make the roads good and solid, was the putting of the school branch road into practically permanent first class order, for which everyone is duly grateful.

On Monday evening the light on Puffin Island (Flat Islands) shone forth its still glare, but we fail to see how the light can be utilized to the full under its present regulations. Its flash like that on Little Daniel is too quick by far. In thick weather, one would want these lights flashing (half dark, half light). If the lights can be regulated to stand a longer showing, then such should be done, if for no other reason than the justification of the lighthouse.

During our holidays, we visited Catalina and Port Union. In common with other places, Port Union was full, and not doing much business, although we suspect different reports since Mr. J. R. Smallwood is on a visit to Cook's metropolis. During our stay at Catalina we put up at Mrs. Randall's Hotel, and pardon the seeming advertisement, Mr. Editor, if we commend the same to any traveler, it being all that a hotel can be.

Mrs. (Dr.) MacDonald, who had been spending a pleasant vacation with friends at Greenspond, arrived home last Saturday.

The Primary Department of Salvage School opened on Monday, the teacher, Miss Blackmore, having arrived on Saturday's Malakoff.

Mr. P. J. Humphries and wife arrived here last Saturday, en route for Salvage Bay, where Mr. Humphries resumes charge of the school for another year.

The schooner J.W.D., at Cottle's Island, has arrived from Labrador, well laden.

Mr. Stephen Oldford, Squid Tackler, arrived home from Labrador a few days ago, hauling for 900 qts.; several of our neighboring schooners are reported as doing well.
—COR.

Sept. 3, 1921.

S. U. F. Dance.

Last night at the Club Rooms of the above Society, a large gathering of the youth of both sexes, attended a dance, which was greatly enjoyed by all, the music being furnished by the capable band of the Church Ladies Brigade Cadets, under the direction of Captain A. Morris. The programme contained "twelve regular items" and "extra," with an interval between the seventh and eighth, during which refreshments were served, by the ladies. The function terminated after midnight, God Save The King by the Band, bringing the entertainment to a close. This dance was the fourth of a series given under the auspices of the S.U.F. Ladies' Association, the direction of the present one being accomplished by Miss M. Burrage, to the entire satisfaction and pleasure of all who participated.

For years I have never considered my stock of household remedies complete unless a bottle of Murre's Liniment was included. For burns, bruises, sprains, frostbites or chilblains it is excellent, and I know of no better remedy for a severe cold in the head, or that will give more immediate relief, than to inhale through the nasal organ. As to my supply of veterinary remedies it is essential, as it has in very many instances proven its value. A recent experience in reclaiming what was supposed to be a lost section of a valuable cow's udder has again demonstrated its great worth, and prompts me to recommend it in the highest terms to all who have a herd of cows, large or small. I think I am safe in saying among all the patent medicines there is not one that cures as large a field of usefulness as does Murre's Liniment. A real treasure—good for man or beast.
—CHAS. K. ROBINSON,
Chesapeake Point.

PARK CONCERTS.—The C.O.C. Band gave a concert in Bannerman Park last night, which was largely attended and much appreciated. The Guards Band will give a concert in Victoria Park to-night.

SWEET, PURE MILK—always on hand when you want it!

If you have never used Libby's Evaporated Milk, you will be amazed to find how good, how convenient and economical it is. Many women who first tried it in some emergency now use it always—they find it gives such satisfactory results.

There's no waiting for the milkman—you can always keep several cans on the shelf and in summer there's no bothering with ice, and in winter the milk wagon can get stuck in a heavy drift of snow as often as it wants to!

And there's less waste—a can of Libby's Evaporated Milk will keep indefinitely before being opened—and after you have opened a can you can use just what you need; the rest, put in a cool place, will keep several days.

Libby's Milk comes from the finest dairying section of America and is processed in our own sanitary condensaries—it is not the "distributed" product of an unknown and nameless plant.

Order a tin from your grocer to-day.

"Sebastopol" Delayed.

Owing to a four shortage at Port Union, S.S. Sebastopol did not get away from that port for Labrador until yesterday forenoon. She had called there to take supplies for the fire-sufferers at Nain. The four was sent by rail to Port Union and the ship waited until its arrival.

Shipping Notes.

S.S. Fern is due at North Sydney to-day, and will load coal for the Reid Newfoundland Co.
Schooner Geo. A. Wood is loading fish in casks at Burin, and sails for Gibraltar for orders during the week.
Schooner Gordon Tibbo has sailed from Grand Bank for Oporto with 1450 qts. of codfish shipped by R. Tibbo & Sons.
Schooner Mary is loading at St. Lawrence for market from the St. Lawrence Trading Company.
Let us put a smile on your countenance. Try a bottle of Brick's Tasteless at St. John's Drug Store. Price \$1.00; postage 20c. extra.—aprs.11
