A WINTER-COATED ROBIN.

M. A. H. writes from Niagara Falls: "I have read the statements in the Globe about the early appearance of robins, and I thought it might be interesting to hear something of the curious specimen we have at Niagara Falls. We call it the 'White Robin.' Its head and neck are almost white, the feathers of the wings and tail are a mixture of brown and white. It was noticed first about the middle of September, with other robins that frequented the gardens of a block in the center of the town, and long after its companions had gone south it contin-ued to come and feed on some grapes left on the wines. When these were done we scattered food under the vines, and sometimes it would come down and feed with the sparrows. I am glad to say it is still alive and cheery, in spite of the severe storm of

Stratford, Ont., Jan. 29.-C. P. Merryfield, of Logan, was today elected warden of the county of Perth. Two ballots taken this morning resulted as before, in a tie. According to the statutes, the representative of division having the largest equalized assessment has in such a case the casting vote. Messrs. Dickson and Merryfield, who represent Logan and Elma, the highest assessed division, were elected by acclamation, and it became necessary, therefore, for them to draw lots as to who should decide

the tie. The lot fell to Mr. Merryfield, who voted himself as the warden. ELSEWHERE. Carleton-Robert Cummings. Victoria-John Austin Kinmount. Simcoe-Daniel Quinlan. Norfolk-Richard Conner
