P. Walsh's Bulletin. "EXPERIENCE IS THE BEST TEACHER."

This maxim applies forcibly to the business of dealing in Real Estate. The experience required must be of the practical kind. To be able to tell your patrons the quality of material used in the construction of the house you are buying, is the kind of experience required of successful land agents. We possess the knowledge of building and know the cost of material, and are able to tell you the class of work done and material used in every house we sell. Place your property in our hands for sale powers spring approaches huyers for sale now; as spring approaches buyers are coming in. Several applicants now

done in the Soudan during the last five years. Thanks mainly to this great British administrator's wonderful combination of imagination and business capacity, the Soudan stands upon the threshold of a new era. Cromer's first visit to the Soudan, five years ago, scarcely a germ of civilization could be said to exist in the country. Today Khartoum is a flourishing city, and Lord Cromer now foresees the land covered with a network of railways and transformed into a center of agricultural and commercial

prosperity.

"Olco" Was Hard Hit. Washington, Jan. 31. - According to a report just compiled by the commissioner of internal revenue the anticoloring oleomargarine act which went into effect July 1 caused a falling off in production during the first half of the fiscal year of 18,000,000 pounds. During the first six months last fiscal year the output for the whole country was 53,843,000 pounds. For the six months dating from July last it was 36,157,000. The commissioner's reports show that most oleo sold now is white and no attempt is

made to compete with butter. Marriage may be a failure or it may not

be. In either case there is a lot of in-disputable evidence to the contrary.
