The War During the Week. The war news this week, while not South Renfrew in the House of Complentiful, is intelligible, so far as it goes. Unless all signs fall, the great crisis is at hand. For the first time the main armies are face to face. Government in the latter year. He is consolidating his strength for the decisive struggle, which the Japanese may precipitate before the rainy season, which soon begins. One apparent proof that the critical stage is at hand is the departure from Japan of Field Marshal Oyama, to take supreme command. He is due to arrive at Takushan today, -and will find himself at the head of the united armies of Oku and Kuroki. The present situation is evidently the result of the orderly evolution of the Japanese plan of campaign, matured before the war began. There has been nothing haphazard or accidental in the Japanese movements, and it is probable that Oyama knows precisely what he will do and where he will strike. A stirring naval engagement is re-

ported. The Russian squadron at Port Arthur made a dash for liberty on Thursday, but Togo was on the alert, and gave battle. A Tokio dispatch says one Russian battleship was cruiser were disabled. #### The Auditor-General.

The Auditor-General of the Dominion, Mr. J. Lorne McDougall, has tendered his resignation. It was foreshadowed statements regarding life insurance in his last annual report, when he declared that he would ask for superannuation if Parliament refused to amend the audit act in accordance with his request. people. If he has magnified his office he has had only the public interest in view. The present difficulty does not arise from any attempt to curtail his powers, but from his demand for their extension. The Government is not disposed to hand over any of its duties to the Auditor-General, who possesses and exercises without let or hindrance an authority which has been found sufficient for nearly thirty years. His duty as a watchdog of the treasury is to bark at any indication of irregularity, but having done this the onus sunk, and a Russian battleship and rests on Parliament, which stands responsible to the people for its conduct. The childhood of the good woman who bore him was cast near where the Atlantic flows in over marsh and sand. There she first built her a home in the greatness of God. Womanhood found her within the uplifting view of the mountains in a land over which the Almighty inverts a sapphire cup day by day and sets his brightest stars on guard at night. And there, fellow-country men, the soul of your President was born. Much satisfaction is expressed that the camp shooting showed an improvement, and it is to be hoped that there will be no abatement during the rest of the summer in the practice.

An important matter is at present movement on foot to have a big military field day during the next two months. The officers of the Seventh Regiment hope that something of this nature can be held, to include a sham fight. With the increase in interest in the military among the citizens generally, the city of London would welcome a midsummer demonstration of nature. Later in the day a marching and firing competition will be held, so it is proposed.

The Fifty-ninth Stormont and Glengarry, the Fifty-sixth Grenville, the Forty-second Lanark and Renfrew, the Ninety-seventh Soo Regiment and the Priness Louise's Dragoons from Ottawa went into camp at Rockliffe this week. # BEAUTY OF SKIN **PURITY OF BLOOD**

Ancient Tand Modern Ideas on These Interesting Subjects.

## UP-TO-DATE METHODS

For Purifying and Beautifying the Skin, Scalp, Hair and Hands.

Socrates called beauty a short-lived tyranny. Plato a privilege of nature, Theocritus, a delightful prejudice, Theophrastus a silent cheat, Carneades a solitary kingdom, Homer a glorious gift of nature, Ovid a favor of the gods. Aristotle affirmed that beauty was better than all the letters of recommendation in the world, and yet none of these distinguished authorities has left us even a hint of how beauty is to be perpetuated, or the ravages of age and disease defied. Time soon blends the lily and the rose into the pallor of age, disease dots the fair face with cutaneous disfigurations and crimsons the Roman nose with unsightly flushes, moth, if not rust, corrupts the glory of eyes, teeth, and lips yet beautiful by defacing the complexion, and fills the sensitive soul with agony. If such be the unhappy condition

one afflicted with slight skin blemishes, what must be the feelings of those in whom torturing humours have for years run riot, covering the skin with scales and sores and charging the blood with poisonous elements to be-

come a part of the system until death? It is in the treatment of torturing, disfiguring humours and affections the skin, scalp and blood, with loss of hair, that the Cuticura remedies have achieved their greatest success. Original in composition, scientifically com-pounded, absolutely pure, unchange-
