Ten Convincing Reasons Why
You Should Vote for the Grobb
Manufacturing Co. Bylaw

1. Bylaw authorizes city to loan \$25,000 to establish a New Industry in London.
2. Loan To Be Repaid in 25 equal, annual, consecutive Payments, with Interest.
3. Security of Loan is assured by first mortgage on new buildings, equipment and land to value of \$50,000.
4. Rate of Interest is exactly same as city borrows at.
5. Taxes will be reduced—by increasing amount of assessable property; also by increasing tax-paying population.
6. The Company Guarantees to employ a minimum of 110 skilled hands—and will pay an average of \$2.27 per man per day.
7. This means \$100,000.00 per year spent in London in wages and salaries, to feed, clothe and house the men and their families.
8. This \$100,000.00 goes to grocer, butcher, clothier, landlord, amusements, banks, and everyone in London benefits thereby.
9. The Company will expend in London \$40,000.00 per year for material and supplies.
10. The high rate of wages guarantees that this will be a white man's shop.

A VOTE FOR THE GROBB BYLAW MEANS A VOTE FOR A
PROGRESSIVE LONDON.

**CANADA AND STATES
BOUND BY COMMON
TIES SAYS EDITOR**

Neighbor Nations Can Never Be
Estranged Declares Dr. J. A.
MacDonald at Detroit.

A WORLD'S EXAMPLE

Boundary Line Devoid of Armaments Is Proof of Real Civilization—Democracy Is Aim.

[Special to The Advertiser.]

Detroit, Dec. 28.—Canada and the United States can never be estranged, no matter what may arise to incite ill-feeling, is the belief of Dr. James A. MacDonald, editor of the Toronto Globe, who was in Detroit yesterday.

Dr. MacDonald is a student of American as well as Canadian politics, and has travelled extensively in the United States. He says that both countries are "dictated" with a class of newspapers that are a discredit to the nations. He is a low, expressive thought bled in the minds of shallow men, who do not see the problems that both countries must solve. And these problems, he said, are not commercial problems, but ones that compel a close union of both nations.

An identical problem, he said, is the problem of California and its fight against Oriental labor. The Dominion of Canada has on its hands the problem of British Columbia and its fight against Oriental labor, and consequently both nations have an identical problem to solve," said Dr. MacDonald.

"Both are trying to solve the problem under different forms of government; Canada is republican, and the United States is republican. But other common problems confront both countries, and although each is working these out under different forms of government, each nation is striving toward the ultimate goal of real democracy."

At the goal it is impossible to predict, but both have a great deal to learn from the other, and are bound by ties greater than treaties or commercial interests.

Free From Armaments.

"America alone of all the continents can show the world an international boundary line between two high-strung and proud peoples that over its 4,000 miles is a civilized neighborhood swept clear of the marks of fortresses, battle-ships and sentinels on guard."

"Great municipalities and large private corporations in Canada find it almost impossible to secure the capital needed for carrying on their enterprises this year because the money markets at Berlin and Paris supply the capital absorbed in war budgets. The millions of able-bodied men withdrawn from spheres of remunerative labor in all war nations and held in military camps at the tax cost of every productive industry and for whose support every man and woman who toils must earn an extra toll, equivalent to the cost of living. Seventy per cent of the entire federal revenues of the United States cannot be paid year after year for war debts and war defence without the burden settling heavily on the man lowest down."

A World's Ideal.

"Thus Canada and the United States are linked by the greatest of ties. All of the great ideas of any one nation are world ideas. Liberty, equality and fraternity belongs to no one nation or race."

Dr. MacDonald spoke at the Broadway Theatre, under the auspices of the Broadway platform, yesterday morning on "The Law of the Neighbor." He will leave today for Iowa City, Ia., to deliver an address before the international convention of the corda Fratres-Cosmopolitan clubs.

NO TEACHER FAMINE IN LONDON, CITY OR DISTRICT

Plenty of Pedagogues To Fill Vacancies, Say Inspectors Thompson and Edwards—County Has All Qualified School Marns.

London and Middlesex county apparently are not in any immediate danger of a famine in school teachers, according to Inspectors Thompson and Edwards.

Contrary to the state of affairs in the majority of Ontario counties, Public School Inspector P. J. Thompson, of East Middlesex states that, so far as he is aware, there is no scarcity of teachers in the district under his jurisdiction.

In the close of the December term all the schools of East Middlesex were being taught by fully qualified teachers. There are a number of changes now taking place where teachers have resigned, and some school boards are advertising for new teachers. It is expected that they will be able to again secure qualified teachers.

Teachers as Middlesex school boards pay generally satisfactory salaries.

Inspector C. B. Edwards, of the city schools, also states that there is no scarcity in London. "We expect to have a few substitutes left over after we make appointments to the classes in the new schools to be opened after Christmas."

Mr. Edwards observed that the number of teachers left on the substitute list would not be any too large, but it would be large enough unless unexpected vacancies should occur.

London, he pointed out, pays very fair salaries to its teachers, and is a good city to live in, and hence has not up to the present experienced any great difficulty in securing full staffs of efficient teachers.
