The Perfect Girl Versus the Ideal Wife - The Young Wife Who Yearns to Do Something Big in Life.

Dear Dorothy Dix-When the man you love, and who, you think, loves you, tells you that he doesn't believe there is a perfect girl in the world, and that he has not found one yet, what are you supposed to say or do? Isn't the girl who doesn't drink, smoke, indulge in necking parties, who is healthy and strong, who wants a home, a husband to care for and babies to raise, as nearly a perfect woman as is to be found?

Answer: You can only agree with the man who says that he has never found a perfect girl. There is no such an animal extant, and even if there were, what would an imperfect man do with her if he

found her? Certainly there could be no congeniality between them, no points of spiritual contact, and while the man might stand in awe and admiration before the goddess for a little while, he would never want to take her home with him, and install her as a fireside companion.

I suppose your man's ideal of a perfect girl is one who is always beautiful and serene; who has no nerves or temper: who always agrees with him in everything he says, and is willing to do what he wants to do But take it from me, he would get and in this respect it may be better. very tired of that sort of a rubber But as a whole the present educastamp. It is not the saints that we get close to, but the cheerful sinners who do not judge us hardly because they are aware of their own weaknesses, and who know how to forgive us and male allowance for our failures because the also have failed.

My ideal of the very nices! sort of a girl, the sort of a girl that I should want to marry if I were a man, is a girl who has sufficient good looks to be easy on the eyes; who knows how to dress so as to make the best of herself: who is strong and healthy in body, and alert and intelligent in mind; who has preferably made her own living for a few years; who has her own opinions, but is willing to listen other people's: who has kept herself clean, and refused to let every little cheap rounder kiss her : who has learned how to control her temper and her tongue; who does not expect to find the man she marries a fairy prince but a human being with human faults that she is prepared to put up with; who goes into matrimony with the determination to be a good sport and make the best of it, and do her part toward making it a success, and who looks upon wifehood and motherhood as a career instead of a
