HOUSE TALKS ABOUT NAVY

Engrossing Question Pushes Its Way Into Budget Discussion

SOUTH YORK MEMBER PROPOUNDS SCHEME

Government Bill to Be Introduced After Christmas Holidays

OTTAWA, Dec. 16.—The question of Canada's participation in the naval defence of the Empire was the chief theme of those who participated on both sides of the house in the budget debate today. The premier has made up his mind to bring down his proposals in the shape of a bill, which will be placed on the order paper to-morrow and introduced on January 12, when the house re-assembles after the holidays.

The spirited manner in which the naval defence matter was handled displayed the general interest felt therein. Dr. Spruille told Sir Wilfrid Laurier that the country was willing to share in imperial defence burdens, but it was left to W. E. Maclean to make the most characteristic contribution to the session. At times Mr. Maclean can wax really eloquent, and he appealed to the premier to frame a bill on generous lines, with the result that he would have the unanimous support of the whole country.

Mr. Stratton, who followed late to-night with his maiden speech, got into an amusing cross-fire with A. C. Boyce, the ex-provincial secretary of Ontario, in his diatribe on the government naval policy, which was sure to be satisfactory to the country.

"What is that policy?" asked Mr. Boyce. Mr. Stratton was non-plussed for a moment. Then he replied, "What was the resolution passed un-animously last session?" "Oh," came back Mr. Boyce, "is the government's policy contained in that resolution?"

The incident ended in a general laugh. Mr. Stratton came out in opposition to any direct contribution to imperial defence. He did not think that was a true Liberal policy. On the general topic of a budget character, Mr. Stratton dwelt exhaustively and came out strongly against the government's intention to turn the finished article on Canadian soil.

There are a great many speakers still to come on to go over to-morrow and extend into the new year. Sir Wilfrid was asked today by Foster if he had made up his mind as to what seat he would sit for, Quebec East or Ottawa. "I will give my answer," returned the premier.

Hon. Mackenzie King would have introduced this session amending the industrial disputes act. The longest holiday recesses on record. Mr. Gordon (Nipissing) introduced a bill to amend the criminal code with a view of stamping out the thefts of silver ore in the mining districts. At the present time when silver is found on a person it is difficult to have the theft proven on account of the impossibility of tracing from which mine the ore was taken.

Col. Worthington who drew attention to him (Worthington), yesterday by the minister of militia, that according to a law of scriptures was he bound to answer a fool as he is his folly." Had that not better withdrawn?" suggested Col. Worthington. Sir Frederick Borden said he had no objection to withdrawing the remark, and the incident closed.

Mr. Armstrong introduced a bill to amend the act establishing a commission for the conservation of national resources, which received first reading. It seeks to prohibit the chairman or members or officials of the commission from accepting by lease or purchase any water power or other natural resource. Mr. Armstrong added that he had not the slightest intention of casting any reflections upon the commissioners, but he thought the amendment was not only in the public interest but also of the commissioners. Mr. McDonnell called the attention of Hon. L. P. Brodeur to the loss of the car ferry Ressemer No. 2 off Port Stanley with the loss of nearly forty lives. Hon. Mr. Brodeur resented the omission to notify him that this matter would be brought up. Had he been petitioned from the residents of Port Stanley in regard to aids to navigation, but Mr. Brodeur replied that it was impossible for a minister to carry all these details in his head.

Change of Name NEW YORK, Dec. 16.—In order to avoid confusion in dealing with public maps have been taken by the Postal Telegraph Company to change the name of the New England Telephone Company over whose lines the Postal Company operates in this city, to that of the Postal Company.

Loss of Frisco Stock NEW YORK, Dec. 16.—The common stock of the St. Louis and San Francisco Railway, recently purchased by B. F. Yoakum and his associates in the Chicago, Rock Island and Pacific Railway, cost the buyers \$775 a share, or in gross amount \$1,052,000. Bonds issued to make the original purchase of St. Louis and San Francisco Railway require their redemption at \$1,798,282. Wall Street learned today that this was necessary for the Rock Island in-

WARM WORDS IN CAMPAIGN

ANOTHER PARIS CRIME

Body of Mme. Gouin Found Mangled Under Train—Indications of Murder.

PARIS, Dec. 16.—The body of Mme. Gouin, whose husband was the late Louis Edouard Gouin, governor of the Ban kot France was found mangled under a train near Paris today. The door of the compartment in which she was travelling was almost torn from its hinges and there was a pool of blood on the floor. The relatives of Mme. Gouin, first believed that while trying to emerge from the train her dress became entangled in the door, throwing her under the wheels. Now, however, the police believe they have found evidence of crime. Kings have found jewelry were missing from her reticule. The curtain of the door of the compartment, covered with bloody finger marks, was found half a mile from the body. The affair has caused a sensation. No arrests have been made.

FOR MAINTENANCE OF SANITARIUM

Municipal Congress Calls on Government—Other Matters Discussed

VANCOUVER, Dec. 17.—Mayor Bell of Enverly was chosen president and Salmon Arm the next meeting place of the B. C. Municipalities' Association today.

The suggestion that automobiles should be taxed was referred to the executive. Mayor Robinson of Kamloops wants provincial legislation to prevent railways establishing new towns near established centres. A case in point is the Canadian Northern, which he thought should be forced to come to Kamloops, instead of "at or near Kamloops."

A petition from Cowichan asking the government to give municipalities power to levy taxes on personal property for school purposes did not receive the support of the convention.

At this morning's session Dr. C. J. Fagan, secretary of the provincial board of health, read an exhaustive paper on the subject of tuberculosis. Following this came a discussion regarding the best means to be followed for the provision of funds for maintaining the sanitarium at Tranquille. It was finally decided to pass resolutions to the provincial government to provide some efficient means for raising funds, even to the extent of a special tax to meet the demand of the institution.

HON. DR. YOUNG IS BACK FROM ATLANTA

Provincial Secretary Has Arduous Trip Out From His Constituency

Hon. Dr. Young, provincial secretary and minister of education, arrived from Atlanta yesterday evening, after an unusually arduous trip out in the course of which he had the ill luck to severely injure a hand, the seriousness of the mishap being aggravated by influenza which he contracted on his return. His ability to give the usual attention to his duties was hampered with the downbound steamer. Happily blood-poisoning has been prevented, and a complete recovery of the member will not be long delayed.

Atlanta is at present experiencing a period of record cold. It was 22 below zero at Atlanta town when Dr. Young left, while election day the thermometer recorded 45 below. The difficulty of polling as large a percentage of the vote as was brought out can be imagined when such weather conditions are taken into account. The right in Atlanta is so long past now that it is perhaps too late to discuss whether or not the election was a distinctly local character or it—and it is now past and gone.

Mail Carriers Recover. The unlucky mail-carriers who went through the ice while outward bound a week or so ago are reported by Hon. Dr. Young to be progressing well, and will sustain no serious results. The Youngs and returns of the Atlanta contest are following by the Princess May, the provincial secretary having come down by the Jefferson.

With respect to the new winter road the minister advocated by Mr. Hamshaw in an interview published in the Colonist a few days ago, Hon. Dr. Young points out that the provincial government has for some time past been doing its best to secure the desired alternative winter road, and has already built a good road almost to the Yukon border. The difficulty is that the greater mileage of the new road would necessarily be in the Yukon territory, and the advantage he all with Atlin—as a consequence of which the territorial council shows no special eagerness to build its part of the road.

More Discoveries. Discoveries of very marked importance have this past season been made in the Rainy River district, the ore being a splendid borate in large body. The new camp promises to rival—if not surpass—the Portland camp in respect as a big quartz field, and in Dr. Young's opinion will bear watching as the scene of marked activity and large profit in the near future.

New Target at Bixley LONDON, Dec. 16.—It is learned that it is intended to introduce into the King's Prize competition at Bixley a figure target on approved service lines. The new target will surpass the bullseye target at 600 yards, and will be technically known as a second class sectional target, such as used in the Bixley match at Bixley. The target will be painted blue and brown. The scoring values will remain as hitherto.

PASTORS OF FREE CHURCHES USE SOME STRONG LANGUAGE AGAINST LORDS

Arrangements With Nationalists and Socialists Are Attacked

LONDON, Dec. 16.—Addressing a meeting at Berwick, Sir Edward Grey, Secretary of State for Foreign Affairs, said that it was not a step towards free trade within the Empire. "Once we begin to do that we should have to barter on a system of bargaining with the colonies that would lead to retaliation between parts of the Empire and that would be a most dangerous thing to introduce. An enthusiastic reception was given at the Dublin meeting of the Irish Free League programme and declares that consideration of home rule will be deferred until the English Liberal and Socialist parties alter the English constitution as it has existed since 1888. It associates home rule definitely with opposition to the two great English parties, abandons even the pretence of the Irish party acting as an independent factor in the English parliament and accepts a budget which imposes a new two millions of taxes on Ireland."

"Financing Red Flag." In the Unionist press the whole affair is frankly labelled as Asquith's bribe, and hot words are also being used to describe the unionist campaign between the ministry and the Socialists. The actual results of the alliance negotiations up to the present are as follows: Socialists, 2; Liberals, withdrawn, 2; Defiant Socialists, 6; seats left by Liberals to Socialists, 48. The matter up to the provincial government to provide some efficient means for raising funds, even to the extent of a special tax to meet the demand of the institution.

Churches Brought in. Tonight Mr. Lloyd-George brought the free churches into the fight by the means of a resolution in London. Those on the platform included leading ministers and laymen of Wesleyan, Methodist, Baptist, and Congregationalists. Here are a few of the utterances made in advance of the meeting: Principal Forsyth says: "It is money against men, riches seeking to grow more rich, if not money against the poor, in such an issue the last word is with the Kingdom of God."

Rev. Mr. Rith, of Liverpool, says: "This hereditary principle, enthralling its men above king and country, is monstrously absurd. It is an apotheosis of original sin. We are free as heralds of Kingdom of God till connection with the Lords as if they were gods."

Rev. Mr. Bradbury, of Blackpool says: "To free churchmen the voice of God is appealing with imperative emphasis and in obeying, even at the cost we shall reduce the people."

Hundreds of such exhibitions are being made by free church leaders in all parts of the country. In many places free church pulpits are being used to promulgate these views. Even the school-boards are being invaded. At Niton council school, Isle of Wight, the children were set the following to write out as a dictation lesson by the Radical managing committee and instructed to thank home to their parents. Remembrance November 30, 1909. The House of Lords threw out the budget. They have thus secured rights belonging to the House of Commons. For one hundred years the people's representatives have decided how taxes should be levied. The Lords claim that right now."

Shaken by Suffragettes. The feature of the election campaign continues to be the strong feelings displayed against the Peers and the amount of disturbance and disorder to which the unionist meetings are subject. Austen Chamberlain, ex-Chancellor of the Exchequer, at a meeting of his constituents at Broms- grove tonight was compelled to end an account on the subject of the meeting before he was interrupted. Similar heeling, jeering and disorders are the common experience of the Unionist peers who venture to address meetings.

Chancellor Lloyd-George at a great Free Church demonstration in Queen's hall tonight, complained that non-conformity had been the champion in the House of Lords. The speaker was well received. On arriving at the hall of Chancery, a remarkable experience of the Suffragettes approached his car, one jumped in, and the other looked the while the car proceeded to the side entrance of the building. The woman who approached and shook the man who was the champion in the House of Lords. The crowd resented this action and brought by hand the two suffragettes.

The United Irish League of Great Britain has issued an election manifesto practically in the terms of John Redmond's speech in which the Irish leader called on the party to vote for the Liberals.
