DETECTIVE NOBLE CAUGHT P. E. I. THIEF

Clever Piece of Work Put
Amateur Burglars Be-
hind Bars.

HAVE CONFESSED.

SUMMERSIDE, Oct. 16.—D. A. Noble, police inspector on Government Railways, arrived last evening in Summerside by the Empress, with Irving Lewis in charge, the young man, who with Leo McIntyre, did the many acts of theft and burglary in and around Alberton. Mr. Noble crossed over to the mainland on the morning of the 14th, with but a very indefinite idea as to the whereabouts of Lewis. While on board the Empress he got chummy with a man from the western part of the Province, who passed as a cattle dealer. After sitting him up and landing at Point du Chene, he wired for an assistant to meet him and was put on the trail of the cattle dealer. All three boarded the train going north, but Mr. Noble kept out of sight of the other two. The stockman got off the train at Bathurst, with a very pleasant and agreeable fellow traveller, the unsuspected detective's assistant. They went to a restaurant and had refreshments and were having a good time generally. Mr. Noble had wired ahead for the sheriff of Bathurst, to meet him and he got among the lively men and gave them the tip. He then took a team and drove out fifteen miles to lumber camp and arrested young Lewis. Returning they found the cattle dealer and his friend enjoying themselves immensely, but when the cattlemen saw young Lewis, whom he had known very well, he began to realize that he had been caught and acknowledged that he had been sent from the island to warn young Lewis of his dangerous situation and if possible, to get him out of the way. He says now that New Brunswick is a hard place for securing stock. Detective Noble arriving here, proceeded to Alberton with his prisoner. On the way over to the Province young Lewis confessed his guilt—Charlotte town Guardian.

A SENSIBLE MERCHANT
Bear Island, Aug. 26, 1902
MINARD'S LINIMENT CO. LTD.
Dear Sirs—Your traveler is here today and we are getting a large quantity of your MINARD'S LINIMENT. We find it the best Liniment in the market making no exception. We have been in business 12 years and have handled all kinds, but have dropped them all but yours; that sells itself; the others have to be pushed to get rid of.

HOW CHILDREN KICKED AND SQUIRMED
In olden days when Cod Liver Oil was administered in its crude form. No one would blame them; for it was simply nauseating.

Modern methods have devised a way whereby all the medicinal elements of Cod Liver Oil without the oil or grease, are combined with Tonic Iron, thus giving to the world two world-famous tonics in a most delicious and palatable form. It is unequalled to overcome pulmonary troubles and build up weak and aged persons. A. McD. McDonald, Druggist, Campbellton, N. B.

OCEAN LIMITED MADE TO PAY HER WAY

Past Six Months Show Sub-
stantial Increase in I. C.
R. Earnings.

FOREST FIRES.

OTTAWA, Oct. 21.—For the first six months of the fiscal year an increase of \$100,000 is reported in the gross earnings of the Intercolonial Railway. It is also shown that the Ocean Limited service has been operated on a paying basis.

The census and statistics monthly shows that there were 825 forest fires in Canada in 1908, by which \$6,290,000 feet of lumber, board measure, were damaged or destroyed and the value of the timber and improvements destroyed amounted to \$2,524,550. Twenty fires were lost. The main causes of the forest fires were sparks from railway locomotives, bush burning by settlers, and carelessness by travelers and sportsmen.

A JOKE THAT COST.

Neg for carelessness on the part of the press is illustrated by a case just tried in Toronto. The World of that city, published a semi-humorous account of a haunted house which it directed as one of the important avenues of the city. The description was so realistic that hundreds of people went to the place to look at it; they trampled down the vines and the flowers, and did other mischief. The proprietor also claimed that the reputation of the place was injured by the untrue tale, and he asked for consequential damages. The World admitted that it published the story, but said it did not intend to do the property any damage and that its sole object was to tell a pleasant story. The jury took a practical view of the matter. It did not think that the value or reputation of the property was injured in any way by the newspaper relation, but it thought the owner ought to be recompensed for his injured shrubbery and flowers, and there, it gave him damages to the extent of one hundred dollars.

CARRUTHERS WAS SENTENCED TODAY
Fine of \$100 or Four Months in Jail
KENTVILLE, Oct. 16.—At ten o'clock Judge Drysdale entered the court room and took his seat on the bench and asked for arraignment of prisoner for sentence. Mr. Dunlop, one of his counsel, arose and asked for leniency. He said he had had the unpleasant duty of informing his sister of the finding of the jury and had to remain with her all night; she was an elderly lady subject to heart trouble and a sentence to gaol would mean her death.

The prisoner was asked if he had anything to say.
He answered "Nothing."
The judge then addressed him saying he would take into consideration the remarks of Mr. Dunlop. He fully realized that the libel was published in heat of a political campaign. He fully agreed with the verdict. He could not see how it could have been otherwise. The sentence was as follows:
A fine of \$100 to be paid within seventy days, or in default of payment four months imprisonment. The fine will be paid.

DR. SANSON NOW ON TRIAL FOR WIFE MURDER

Trial Promises to Be A Sensational One—Able Defend-
ed—Grand Jury Finds
True Bill.

OTHER CASES ON.

PERCE, Oct. 15.—The Criminal Assizes for the County of Gaspe began this morning at Perce. Great interest is taken in the case of Dr. Sanson of Grand River, accused of the murder of his wife, whose trial promises to be a sensational one. The prisoner is defended by Messrs. W. A. E. Flynn of Perce, and N. K. Lafontaine of Montreal. A. S. Garneau, K. C. is Crown prosecutor.

The following cases are also inserted for the present term:
Adolphe Dugas, Ste. Anne des Monts, theft.
Zenon Marcoux, Grand River, attempted murder.
Jean Baptiste and Edmund Sasseville, Ste. Anne des Monts, theft.
Philip and Edmund LeCouteur, Perce, assault and housebreaking.

At the opening of the Court, Judge Pessier paid an eloquent tribute to the memory of Sir Henry Taschereau, Chief Justice of the Supreme Court who died in France a few days ago. Mr. A. S. Garneau, K. C. added a few words in the name of the Bar.

The Grand Jury is composed of Mr. Chas. Bird, foreman, Messrs. Ernest LeMarquand, John L. Baker, Henry Mabe, James V. Abbott, A. Beck, Lewis Tremblay, Lewis Hall, Abraham Crevier, David Duguay, Jean Baptiste Samuel and Ambrose Chouinard.

The verdict of the Grand Jury will be known this afternoon.

SURPRISE, Oct. 20.—The jury called upon to decide the fate of Dr. Sanson, on trial for the murder of his wife, is composed of the following citizens:
Messrs. Oliver Boucher, Joseph V. Fournier, Philip Bourget, Jean Marie LeBouthillier, Theophile Proulx, John Belliveau, Nicholas Gaudreau, Albert Mabo, Philip Francis John Adams, Charles Boyle and Edward Adams.

The Crown prosecutor, A. S. Garneau, K. C. exposed the following facts to the jury:
On the 10th of March last, Celatine Lafontaine, wife of J. M. Sanson of Grand River, was taken with convulsions at 4 o'clock in the afternoon. Up to that hour she had been in perfect health. She had been to church that morning, had been to confession and received communion. Throughout the day she had attended to her domestic duties as usual. When Dr. Sanson was suffering with convulsions several persons entered the house. To these persons the prisoner who was a practicing physician at the time, explained that he had given his wife a dose of tincture of colombo as an appetizer. Dr. Bernier, who lives eight or ten acres from the Sanson residence, was summoned.

When he arrived at six o'clock Mrs. Sanson was dead. The prisoner repeated to Dr. Bernier the same explanation he had previously made and showed him a bottle labelled tincture of colombo. Dr. Bernier tasted the preparation and remarked that he did not think it was tincture of colombo.

The accused then suggested to make the experiment on his dog a weasponful of the preparation was given to the dog, who died half an hour afterwards. The preparation was found to contain large percentage of strychnine.

The Crown intends to prove by its witnesses that the prisoner contradicted himself in certain declarations he made, relating to the dose he administered to his wife to counteract the effect of the poison; that the Sanson family was a very unhappy one; they were an ill-matched couple, the deceased woman often suffered from the ill treatment of the prisoner who had on different occasions expressed his desire to be rid of her.

Even admitting the fact, continues the Crown prosecutor, that the prisoner administered the poison through error, Celatine Lafontaine's death is due to gross negligence on the part of the accused who should be found guilty of manslaughter.

The Crown will begin to examine its witnesses today.

MARITIME HAD ANOTHER CLOSE CALL

Collided With Freight Spec-
ial on Grade Near
Metis.

SLIGHT DAMAGE.

At an early hour Wednesday morning No. 31 Maritime express going west was nearly wrecked. While proceeding at her usual rate of speed between Sayabec and Metis, the driver noticed the tail lights of a freight special on the track ahead of him. He immediately applied the air brakes and only a slight collision occurred. The freight had been stalled on a heavy grade and was not able to get out of the way. The special was damaged and the express engine was also slightly damaged, but no one was injured.

There is no secret process in the manufacture of Carpenter-Morton Roofing. It is made from long fibre wool felt, treated with Genuine Natural Asphalt. It is free from Coal Tar, Cinders or residual products of any kind. This roofing is fully guaranteed by the manufacturers. Ask Mann & Baxter to see samples.

It is all very well for Knapas to praise its own newspapers, but things happen in Kansas which happen nowhere else. For instance, a passenger on a Kansas railway was injured by a horse, which was grazing on the right of way. The horse reached through the window and bit him on the shoulder.

CHATHAM, Oct. 21.—L. W. Barker, John Johnson, and J. B. Gannon, who were looking after the establishment of the headquarters of the company, which have been located in the Traders Bank building in that city. The affairs of the company were progressing in a satisfactory manner, he said, a large quantity of steel rails being manufactured and in general a very bright future seemed to be in store for the corporation. Mr. Drummond said that several projects were under consideration and amongst others was the extension of the railway northward, which would, no doubt, be accomplished in the near future.

PRESENT POLICY IS ALL WRONG

Hon. H. R. Emmerson Stamps
Hydrt-Headed Manage-
ment Improper.

NOT SANCTIONED.

MONTRÉAL, Oct. 21.—That the policy at present pursued by the department of railways in regard to the Intercolonial Railway will not prove successful is the opinion expressed by H. R. Emmerson yesterday in an interview with the Windsor Hotel.

No doubt the board of management is composed of good men, but I maintain that the policy which they have

WILL SHIP ORE ACROSS ATLANTIC

Drummonds Announce that
Their Company Will Supply
Foreign Smelters.

SHIP FROM NEWCASTLE.

MONTRÉAL, Oct. 20.—J. J. Drummond, president of the Superior Corporation, has returned from Toronto, where he was looking after the establishment of the headquarters of the company, which have been located in the Traders Bank building in that city. The affairs of the company were progressing in a satisfactory manner, he said, a large quantity of steel rails being manufactured and in general a very bright future seemed to be in store for the corporation. Mr. Drummond said that several projects were under consideration and amongst others was the extension of the railway northward, which would, no doubt, be accomplished in the near future.

W. C. Pearce, international audit Bible class superintendent, suggested that greater prominence be given to the Bible which makes it illegal to sell cigarettes to boys under sixteen. By inserting this on the cards used by the departments a knowledge, of such a law would be greatly increased among the younger members of the community.

Robt. Reid called attention to the excellent number of the Sunday school Advocate, one of which were being circulated among the delegates, and asked for new subscriptions.

Rev. Mr. Kuhring's address, under the caption, A Half Hour with the Word, was again a fine feature. His text was taken from Luke v. 1-11, and dealt with the Lord's choice of men who should be a blessing for service. His remarks were most interesting and lessons he proceeded to deduct from Christ's work and choice were followed with great interest.

At 5 o'clock the members of the convention will face the fire of a Kodak when a group picture will be taken outside St. Andrew's church by J. Y. Mesereau.

WOODSTOCK, Oct. 20.—A true bill was returned by the jury yesterday against Sandy Monacelli, charged with the murder of Nicholas Langanic, and on account of the non-arrival of the prisoner's counsel, Mr. George W. Fowler, the case was adjourned until today. Hon. H. P. McLeod, Solicitor General, in conducting the prosecution, and the expense of the trial is being borne by the accused's fellow countrymen. Monacelli pleaded "not guilty."

S. S. CONVENTION NOW IN SESSION

Provincial Sabbath School
Workers Meet In Annu-
al Session.

MANY PRESENT.

CHATHAM, Oct. 20.—The New Brunswick Sunday school convention held its first session here tonight in St. Andrew's church, commencing at 8 o'clock. Ald. R. T. Hayes of St. John's occupied the chair and Rev. J. A. Kuhring of St. John, with Rev. Geo. Wood, pastor of St. Andrew's church, were on the platform. The combined choir of the several churches led in the singing under the direction of Rev. Mr. Wood. The congregation was large and few empty pews were noticeable in the big auditorium.

President Hayes called the convention to order and after the appointment of committees the chairman delivered his address. Mr. F. J. McKean of St. John, then rendered an enjoyable solo, and this was followed by the presentation of a picture to the convention by Mr. Robt. Reid of St. John. The picture is a large one, handpainted, framed. It contains portraits of the association officers and is being much admired.

"Looking Backward" was the subject of addresses by Mr. S. J. Parsons and Mr. Geo. Haddon. They were for the most part of reminiscences, interesting particularly to the older members of the church.

Miss Jessie McDonald was heard in a delightful solo. After which the president announced that owing to the absence of Mr. W. C. Pearce, Rev. Mr. Kuhring had consented to give an address.

Mr. Kuhring took Phillips' words to the accused who should be found guilty of manslaughter. The Crown will begin to examine its witnesses today.

CHATHAM, Oct. 21.—The second session of a Sunday school convention opened this morning with a large attendance of delegates. President Hayes was in the chair. Devotional service began at 8:15 and was led by Rev. B. H. Noble.

Reports from the superintendents of departments were given in the absence of Rev. A. A. Rideout, Field Secretary. Rev. J. B. Gannon, vice thereof, of the Home Department. He quoted statistics showing the membership and financial standing, both of which were satisfactory.

The temperature report was given by M. H. Farinham and the elementary report by Mrs. W. C. Matthews. In discussing the reports which followed Rev. Mr. Gannon made a suggestion that the present card containing a pledge against the use of alcoholic liquors, have an additional pledge printed on it, that of abstaining from the use of cigarettes.

W. C. Pearce, international audit Bible class superintendent, suggested that greater prominence be given to the Bible which makes it illegal to sell cigarettes to boys under sixteen. By inserting this on the cards used by the departments a knowledge, of such a law would be greatly increased among the younger members of the community.

Robt. Reid called attention to the excellent number of the Sunday school Advocate, one of which were being circulated among the delegates, and asked for new subscriptions.

Rev. Mr. Kuhring's address, under the caption, A Half Hour with the Word, was again a fine feature. His text was taken from Luke v. 1-11, and dealt with the Lord's choice of men who should be a blessing for service. His remarks were most interesting and lessons he proceeded to deduct from Christ's work and choice were followed with great interest.

At 5 o'clock the members of the convention will face the fire of a Kodak when a group picture will be taken outside St. Andrew's church by J. Y. Mesereau.

FOUR CONDUCTORS TO BE DISMISSED

Names of Men are Withheld
But None are From New
Brunswick.

WERE D' HONEST.

MONCTON, Oct. 21.—As far as is known, the names of the four conductors who have been dismissed are withheld. The announcement last week to the effect that the Intercolonial Railway would probably dismiss two conductors from the Province of Quebec and two in Nova Scotia, has been a matter of much interest among the railway men of the Province.

It is stated on fairly reliable authority that only four conductors have been dismissed, and these two are in the Province of Quebec and two in Nova Scotia. Of the latter one has been dismissed from the Truro and Moncton line, and the other, named Harry, from Moncton.

Several conductors in discussing the dismissal, said the Order of Railway Conductors would probably raise the matter up, and ask for an inquiry into the cause of the men affected.

Minard's Liniment Cures Dandruff.

DEATH IN TRAIL OF TYPHOON

Philippines' Sweep and Extensive
Damage Caused

MANILA, Oct. 20.—A typhoon of unusual violence swept across the western and southern Luzon on Sunday night. With communication to all points beyond Dagupan, Luzon, was cut off and details are lacking. One message brought to Dagupan from San Fabian said that the loss of life was considerable and the damage to property heavy.

Torrential rains accompanied the storm and an extensive area was flooded. The railroad bed was washed out at several points and one railway station was swept away.

LOCAL TRAINMEN SUSPENDED

Near Collision Same Day as Nash's
Creek Wreck

As a result of an investigation into the cause of a narrowly averted head-on collision near Moncton on October 16th, three local C. I. C. R. employees have been indefinitely suspended. On the date mentioned the fast freight left Moncton on the northern division about one o'clock and had gone as far as the new shop when a special was seen coming in the other direction. The brakes were immediately applied on both trains, which were brought to a standstill.

The matter was reported to the Board of Management who after investigation suspended Conductor J. A. Davidson, of the West freight, Driver Knack Rushon of the same train and Operator J. A. Brou.

AN I. C. R. CASE-FROM CAMPBELLTON IN THE SUPREME COURT

OTTAWA, Oct. 21.—The Maritime list is being taken up before the Supreme Court. The sittings were resumed on Tuesday for this special purpose. The first case was Chamberlain v. The King. This is a complaint in connection with the loss of a house and barn near Campbellton by the alleged to have been caused by a spark from an I. C. R. engine. The judge held that the engine caused the fire but he must infer that the repairs were made and that the engine was not defective when the engine passed by.

HOW CHILDREN ARE QUICKLY STRENGTHENED

Develop Them With Ferrozine, Which
Makes Rich Blood, Hardy Muscle,
Steady Nerves.

Children brought up on Ferrozine are known by their strong, rugged frames, their chubby cheeks, and healthful appearance. Mothers find it an indispensable tonic and food builder, and in thousands of homes go other remedy is used. Mrs. B. Montgomery of Pittsburg writes: "A little niece came to visit and, looking at her, I noticed her pale and haggard face. I started her on a course of Ferrozine. The child's appearance was marvellous. Her appetite cleared up, she had more spirit and strength, and a rosy color came into her cheeks. I never saw her like this before. I've never minded the time she started to pick up, and in seven weeks she gained almost eight pounds, and just looked the picture of health. I think it should be an example to many mothers, and I hope that others will try Ferrozine for their little boys and girls. I am thoroughly convinced that it's the most strengthening food. It has my strongest endorsement."

The reason Ferrozine works so beneficially with Ferrozine is that it acts directly on the blood, feeding it of all unhealthy matter. At the same time giving it an additional supply of iron. Get Ferrozine from the local druggist or write to the Ferrozine Company, Kingston, Ont.
