SENATOR SMITH THE MAN

hoe from the senate will satisfy or ought to satisfy the loyal men of Ontario.

Mr. John O'Donohoe could not be elected for any county in Ontario because of his well known anti-British feelings. To make a man like him adviser of the queen is an outrage the public will not stand, and the fact that the senate is made the machine for such business suggests the immediate

To THE WORLD!.—The storm of indigna-tion which Sir John has raised about h ears by pitchforking John O'Donohoe in the sente with a view to a position in the cabinet, was doubtless anticipated by him and there is little doubt that he has made provision to allay the storm. Sir John is too cute a politician to be caught in a trap unprepared for the occasion. He was well aware that the appointment of O'Donohoe would ruffle the feelings of orangemen to a boisterous demonstration, but he also knew how easily he could calm down the spasmodic breeze from such a quarter. On many previous occa-sions he knew that the orangemen were

sions he knew that the orangemen were brought and sold just as much as the Irish Canadian's Catholics, and now he has no fears of success in pulling the wool over the eyes of orangemen on the present occasion. In the face of this orangemen ought to know the nature of the business that took their county master and deputy county master to Ottawa lately, on or shout the time that this appointment wis

considered as authorised by the orangemen of Toronto. If Bro. Clarke was sincere in this affair he would have called a mass meeting of the orangemen of Toronto to discuss the situation. but he has omitted to do so, and if he does not do so it will become the duty of some one in the order to take such steps as will give an unmistak-able expression to the views of orangemen. Take the advice of A CONSERVATIVE TRUE BLUE.

Already we hear the next move is that

without portfolio, and that if at any time he should be called to the cabinet it shall be without the right of patronage, and that of the two evils Sir John is the least, and that orangemen should support him. Still such stuff is entirely too thin. It will require much stronger reasons to persuade independent orangemen to replace confidence in Sir John after having called to his government an avowed rebel, a secret conspirator against our queen and country whose brother shot Bro. McEachren at Ridgeway. The withdrawl of Q'Donohoe and the substitution of another Catholic will not atone for so great an outrage. Nothing short of the resignation of Sir John himself and the expulsion of O'Dono.

The same with the editor of the Irish Canadian. When challenged by the London Advertiser a few days ago to give the exact amount of money he had reveived for government advertising, he decined to do so. It would appear that the influence of these two papers is on the wane.

Mr. Merrick, the grand master of the orange body, was in town yesterday but on what business could not be learned. In justice to Mr. Clarke of the Sentinal it should be said that he denies having been at Ottawa, as charged in the Globe, for the purpose of interviewing Sir John in regard to rumored cabinet changes some few days ago. He says he was down there on personal business.

Sir John had representations made to him from prominent Catholics and the head of the church recommending Mr. O'Donohoe, and although I think it was a very bad job, if we want prosperity we must stick to the present government.

The following letter from a well-known MEMBER OF THE ORANGE ORDER in this city will give a fair indication of the general feeling of the members on the present situation.

This, I say, is a gross insult to the class to which I belong—an insult which has not been offered to any other class in this country—and an insult which every man with the slightest grain of honor or self-respect will resent at the polls. I for one will not be cajoled by any such tricks from

It is not true that they went there as delegates from the orange body, and it is hoped they will be able to give a good account of themselves and clear their skirts of any share in the compact. These men may join in with the compact. These men may join in with the compact. These men may join in with the compact of the denounce the act as loudly as any of the disinterested and honest adherents of orange principles, whilst all the while they are only playing the cards dealt out by Sir John Macdonald.

I observe that Bro. Clarke has formed one of the deputation that waited on Sir John in reference to the matter, and that he has undertaken to speak on behalf of the orangemen, and has led the public to believe that the deputation was from the orange body, which is not the case. I am credibly informed that the meeting from which the deputation was sent to Sir John was called by Mr. Barwick and Marcellus Crombie as conservatives, and the fact of E. F. Clarke being an orangeman as well as a conservative has doubtless led to the mistake of the deputation being from the orange body. So far brother Clarke has had the right to speak for himself only, and any assent or dissent by him on the matter must not be considered as authorised by the orangemen of Toronto. If Bro. Clarke was sincere in this affair he would kave called a mass
