British Columbia Agency, Limited.

Assay and Analytical Laboratory.

This Department is under the management of J. O'Sullivan, who possesses a technical knowledge which embraces every detail of this intricate profession. He is a chemist of very high order and was for 26 years in the chemical laboratories of Messrs. Vivian & Sons, Swansea, the world-famed smelters. This department issues certificates of assays of ore submitted, which are absolutely accurate, and determine the exact value of metals contained in the ore. The laboratory is replete with all modern machinery and contrivances, and is in every respect a model workshop.

The Pelton Water Wheel Company

Gives exclusive attention to the development and utilization of Water Powers by the most modern, economic and improved methods. An experience of more than fifteen years, involving both the theory and practice of hydraulic engineering as relates to power development in its widest range of application, is at the service of customers.

NINE THOUSAND WHEELS NOW RUNNING—Aggregating some 700,000 h.p. ELECTRIC POWER TRANSMISSION—Pelton Wheels afford the most reliable and efficient power for such service, and are running the majority of stations of this character in the United States, as well as most foreign countries. Highest efficiency and absolute regulation guaranteed under the most extreme variations of load. Pelton Wheels are running every water power plant in British Columbia. Parties interested will be furnished with a catalogue on application. ADD: 555
