

ONLY CATARRH!

THE NEW VOYAGE OF LIFE.

Many thousands fully believe they or their friends are being hurried toward the grave by that terrible disease Consumption, and are being treated for that disease when they have only CATARRH in some of its many forms. We do not claim to cure Consumption, but fully believe from the results of our daily practice that we can save many who feel their case hopeless.

More Than 100,000 Die Every Year.

More than 100,000 die annually from Consumption in these United States, and a careful classification has revealed the startling fact that fully 50,000 of these cases were caused by Catarrh in the head, and had no known connection with hereditary causes. A large share of these cases might have been cured.

Danger Signals

Have you a cold in the head that does not get better? Have you an excessive secretion of mucus or matter in the nasal passages, which must either be blown from the nose, or drop back behind the palate, or hawked or snuffed backward to the throat? Are you troubled by hawking, spitting, weak and inflamed eyes, frequent soreness of the throat, ringing or roaring or other noises in the ears, more or less impairment of the hearing, loss of smell memory impaired, dullness or dizziness of the head, dryness and heat of the nose? Have you lost all sense of smell? Have you pain in the chest, lungs or bowels? Have you a hacking cough? Have you dyspepsia? Have you liver complaint? Is your breath foul?

If so, You Have Catarrh.

Some have all these symptoms, others only part. The leading symptom of ordinary cases of Catarrh is increased secretion of mucus of yellow or greenish coloured matter.

Foul breath is caused by the decomposing secretions exuded from festering ulcers far back in the head; sometimes the membrane covering the bones is eaten away, and the bones themselves gradually decay. Such cases indeed are objects of pity, as the stench from the corroding sores reveals the corruption within.

As every breath drawn into the lungs must pass over and become polluted by the secretion in the nasal passages it must necessarily follow that poisoning of the whole system gradually takes place; while the morbid matter that is swallowed during sleep passes into the stomach, enfeebles digestion, and often produces dyspepsia.

Catarrh Is a Dangerous Disease,

and should not be trifled with; care should be taken to look for the first indications, and cure them promptly. If your case is a bad one, affecting the throat and bronchial tubes, producing sticking, coughing and an almost constant effort to clear the passages, with tough, vile phlegm in the gullet or getting up in the morning, which is hard to eject, and other plain symptoms that the disease is stealing into the lungs, it should be attended to promptly and thoroughly.

Do not Procrastinate.

Thousands of sufferers have applied to me for relief. Many thousands more are waiting, fearful it would be an experiment that would only end in failure. Do not trifle away your opportunity. You may be sure that Catarrh takes no backward step. Your case may be daily growing beyond the reach of human aid. The statement of others who have found Child's Catarrh Specific the only certain sure cure should have weight, and convince you of the hopefulness of your own case.

Fifteen Years ago

Catarrh was considered an incurable disease. I had then suffered for fifteen years in a manner only known to those who have had this disease in some of its worst forms. My professional duties make exposure a necessity, and I was first attacked by a slight cold; terrible headaches, which could not be cured followed, with deafness and ringing in the ears, soreness of the throat, disgusting nasal discharges, weak, inflamed eyes, hawking, raising of vile matter, black and sometimes bloody mucus, coughing with great soreness of the lungs. The liver and stomach were polluted with the mass of diseased matter running from the head, chill dyspepsia, indigestion, and liver complaint made me a wreck and incapacitated me from my professional duties and confined me to my bed. Compelled to resign my pastorate, and feeling that my end was near, in desperation I gave up to the physicians and compounded my CATARRH SPECIFIC, and wrought upon myself a wonderful cure. Now, at the age of sixty-nine, I am wholly restored, can speak for hours with no difficulty, and never have had, in the whole fifteen years, the slightest return of the disease.

EVERY PHYSICIAN who has examined my specific says it is certain, and thorough, and perfect,
T. P. CHILDS.

CHILD'S CATARRH SPECIFIC

Will effectually and permanently cure any case of Catarrh, no matter how desperate. The treatment is local as well as constitutional, and can only be obtained at Troy, Ohio. We especially desire to treat those who have tried other remedies without success.

Our Letter Box:

Below we give a few of the thousands of letters we are constantly receiving. The record is a good guarantee that CHILDS' CATARRH SPECIFIC is no new, untried cure, but a positive and certain remedy. We, above all things, desire to establish confidence in our treatment, so that every sufferer from Catarrh and Bronchitis may feel certain of success in its use.

100,000 Catarrh cases have applied to me for relief. Many thousands have received my Specific, and are cured. We deem it only fair that every one who wishes should have the opportunity to ascertain whether we are able to accomplish all that we claim; and for this purpose we add a few of the many hundreds of unsolicited certificates which have been sent to us by grateful patients—as well as the addresses of some who have been successfully treated, almost any of whom will doubtless respond to any inquiry by letter, if accompanied by a stamp to pay postage. Having been cured themselves, they will be willing to let the afflicted know where they can find certain relief. We have thousands of these certificates from all classes—physicians, clergymen, lawyers, judges, merchants, bankers, and business men.

MRS. E. P. HOOKER, Defiance, O.

One of the most terrible cases of Catarrh we have had in our practice was that of W. S. Sander of Willis, Montgomery Co., Tex. He says: "In the spring of 1877 the disease assumed a new form, my mouth and throat were attacked, ulcers were formed, and soon the ulcers were all eaten away, and large sores through the posterior nostrils. My condition was not only deplorable, but apparently hopeless." After three months use of our treatment, he says: "I am entirely cured, all the horrible disease entirely removed."

This is to certify that I was a sufferer from nasal catarrh. I tried remedies of several physicians, but instead of getting better, I gradually grew worse. I saw your advertisement. I applied to you at once and received your remedies and commenced their use. At first I thought it was a humbug, but I followed your directions and now I can rejoice in saying I am well.
