CATARRH:

## A NEW TREATMENT.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Union treatment for Catarth. Out of 2,000 patients treated dyring the past six months, fully ninety per cent. Every ecfa cured of this stubborn malady. This is some the less starting when it is remembered that not fix the ceft of the patients presenting themselves to the regular practitioner are benefitted, while the patent medicines and other advertised cures never record a cure at all. Starting from the claim now generally believed by the most orient fit men that the disease is due to the presence of hving parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination; this accomplished, the Catarth is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures viill. No one else has attempted to cure Catarth in this manner, and no other treatment has ever cured Catarth. The application of the remedy is simple and can be done at home, and the present season of the year is the most favourable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Missens. A. H. DIXON & SON, 305 King Street, west, Toronto, Canada, and enclose stamp for their treatise on Catarth.—Montreal Star.
