N. B.—Where no Druggist is established, or does not keep these Capsules in stock, we will forward by mail.

88 Wellington Street West, Toronto, - - R. L. GIBSON.

ADMINISTRATION OF COD LIVER OIL DURING THE SUMMER MONTHS

Patients suffering from chronic-wasting disease, and who should take Cod Liver Oil continuously, often complain that they are forced to discontinue its use during the summer months, as the natural repugnance to fats is intensified during the hot weather. In this preparation the oil is so completely masked that patients find no difficulty in continuing its use at all seasons. Referring to

MALTINE WITH COD LIVER OIL

the *British Medical Journal* reports: "Patients who are unable to tolerate the purest and most carefully prepared Cod Liver Oil can readily digest and assimilate it in combination with Maltine. The taste of the oil is almost entirely concealed, and what suspicion there is of it is not at all unpleasant. We recommend this preparation on the ground of the high quality of oil used, its perfect admixture, and the diastatic value of the Maltine."

Samples Free to Medical Men (Except Expressage).
