

surgery which does not find an expression in this volume. The authors of these articles are to be congratulated on their excellency, and the association on the good work it has been able to accomplish so far. Of late years this branch of surgery has made great progress, and much can now be done for the victims of genito-urinary diseases that would have been impossible a few years ago. The American Association of Genito-urinary Surgeons stands for what is sound and progressive. The daughters married Dr. W. W. Ord, of Salisbury.—Sir William Osler in *British Medical Journal*.

KEEN'S SURGERY.

Keen's Surgery, Volume VI.: The Volume with the newest Surgery. By 81 eminent surgeons. Edited by W. W. Keen, M.D., LL.D., Hon. F.R.C.S. (Eng. and Edin.), Emeritus Professor of the Principles of Surgery and of Clinical Surgery, Jefferson Medical College, Philadelphia. Octavo of 1177 pages, with 519 illustrations, 22 in colors. Philadelphia and London: W. B. Saunders Company, 1913. Entire work, consisting of six volumes, per volume: Cloth, \$7.00 net; half morocco, \$8.00 net. Canadian agents, the J. F. Hartz Company, Toronto.

This volume completes Keen's Surgery. On previous occasions we have had the pleasure of reviewing the former volumes. The main object of this volume is to bring the five volumes already published up to date, and to introduce such new matter as has appeared since their publication. This has been done by the contributors to this volume. Those who have the other volumes, should secure this one. As an independent work on surgery, this volume will prove very valuable.

APPENDICITIS.

Its History, Anatomy, Clinical Aetiology, Pathology, Symptomatology, Diagnosis, Prognosis, Treatment, Technic of Operation, Complications and Sequels. By Wm. B. Deaver, M.D., Sc.D., LL.D., Professor of the Practice of Surgery, University of Pennsylvania, Surgeon-in-Chief to the German Hospital, Visiting Surgeon to the Hospital of the University of Pennsylvania, Philadelphia. Fourth edition, thoroughly revised, containing fourteen illustrations. Philadelphia: P. Blakiston's Son and Company, 1012 Walnut Street. 1913. Price, \$4.00.

Of recent years there have been marked activity in the production of books and articles on this subject. Dr. Deaver has been known for a number of years as an authority on surgery in general, and on abdominal surgery in particular. The present volume is an excellent presentation of our knowledge on appendicitis. It also gives Dr. Deaver's own methods. The volume will prove a distinct addition to any medical library. The publishers have done credit to their old and well-known house, in the form of this book.
