All Wholesale Druggists keep in stock and will supply
retail druggists with

Wood's Phosphodine, Retail \$1.
Cook's Cotton Root Compound, No. 1, Retail \$1.
Cook's Cotton Root Compound, No. 2, Retail \$3.

Many retail druggists sell dozens of these goods while
others only sell a few boxes. The reason for these varia-
tions in sales are that one orders from his jobber in not less
quantity than one dozen Wood's Phosphodine, one dozen
Cook's Cotton Root Compound No. 1, and a half dozen
Cook's Cotton Root Compound No. 2, and places the dozen
cartons on his show case where they can be seen and ex-
amined by customers. The other orders a few boxes and
hides them in a drawer behind his counter where they
cannot be seen, or what is still worse, waits until a cus-
tomer asks for the goods and then orders a box or two;
thus one druggist sells many dozens, the other a few boxes
or none at all. These goods all afford a liberal profit to
the retailer, and are liberally advertised in nearly all
papers from Cape Breton to British Columbia. No retail
druggist can make a mistake in ordering from his jobber
at least one dozen each of these goods and placing them on
his show case where they can be seen. Druggists who
have only purchased a few boxes and placed them in a
drawer behind their counter will, by purchasing in quantity
and placing where they can be seen, be surprised how
quickly they will be sold. There is only one way to sell
goods, and that is to keep a supply.
