AUGUST 24, 1887

## THE TRUE WITNESS AND CATHOLIC CHRONICLE.

## COLONIZATION LOTTERY. LIST OF LUCKY PRIZE WINNERS IN THE IST SEBIRS.

The following is the official list of those who won prizes in the first series of the drawing in Father Labelle's Colonization Lottery scheme: Father Labelle's Colonization Lottery scheme: Int prize, one real estate, valued at \$5,000, No. 62,323. Real estates, property valued at \$1,000.-Nus. 9;287; 42,186, 94,561. Pianes \$1,000.-Nus. 9;287; 42,186, 94,561. Pianes valued at \$400.-Nos. 21,036. 24,401, 53,559; valued at \$400.-Nos. 21,036. 24,401, 53,559; 58,700, 66,764, 71,111, 77,198, 92,133. The following numbers won building lots in formed viz.

The following belrooth of drawing room rultrs, valued at \$200, viz. :--rultrs, valued at \$200, viz. :--rultrs, valued at \$200, viz. :--solver, solver, solv

23705, 20004, 30366, 31790, 34869, 36115, 36745, 23705, 20004, 30366, 31790, 34869, 36115, 36745, 36876, 36025, 39980, 40062, 40728, 41506, 36876, 42071, 43863, 44874, 45780, 46501, 46565, 47209, 48085, 48124, 48705, 49432, 46565, 47209, 48085, 48124, 48705, 49432, 46565, 52970, 55971, 53979, 54.234, 55.237, 50155, 51965, 52970, 55971, 53979, 54.234, 55.237, 50155, 51965, 52970, 55971, 53979, 54.234, 55.237, 59519, 56685, 54802, 57272, 57423, 61943, 64157, 55819, 56685, 54802, 57272, 57423, 61943, 64157, 55819, 56685, 54802, 57272, 57423, 61943, 64157, 55819, 56685, 54802, 57272, 57423, 61943, 64157, 55819, 56685, 54802, 57272, 57423, 61943, 64157, 55819, 56685, 54802, 57272, 57423, 61943, 64157, 55819, 56685, 54802, 57272, 57423, 61943, 64157, 55819, 56685, 54802, 57272, 57423, 61943, 64157, 55819, 56685, 54802, 57272, 57423, 61943, 64157, 55819, 56685, 54802, 57272, 57423, 61943, 64157, 55819, 56685, 54802, 57272, 57423, 61943, 64157, 55819, 56685, 54802, 57272, 57423, 61943, 64157, 55819, 56685, 54802, 57272, 57423, 61943, 64157, 55819, 56685, 54802, 57272, 57423, 61943, 64157, 55819, 56685, 54802, 57272, 57423, 61943, 64157, 55819, 56685, 54802, 66843, 87539, 8210, 83541, 84070, 84200, 84350, 86943, 87539, 82457, 90310, 91103, 91673, 94704, 95209, 94047, 5734, 90062, 9052, 90597. 97984, 99062, 99508, 99597.

The crawing in the second series was begun to-day.

The drawing in the second series of the Rev. Father Labelle's Lottery of Colonizazation was completed last night, the following being the winning numbers : I real estate valued at \$1,000, No. 57887; real estates valued at \$500, Nos. 7489, 84994; carriages valued at \$250, Nos. 13479, 22609, 30916, valued at \$2.0, 101, 13475, 22054, 0505 62 022; gold chains valued at \$40, Non, 1720, 15573, 42362, 45937, 58587, 67639, 75987, 90582, 1796, 23694, 43606, 46719, 60457, 68412, 76645, 92398, 2144, 26198, 43893, 47289, 61669, 70766, 7357 20155, 33849, 3435, 28688, 44181, 47357, 617917, 93849, 3435, 28688, 44181, 47357, 61791, 74772, 81184, 96603, 3582, 30854, 50824, 63849, 75152, 84303, 98331, 11229, 38641, 45103, 57255, 67078, 75613, 87929, 98998, 12193, 39482. The 250 num-44353 bers preceding and the 250 immediately following No. 57887 have drawn \$10 (ash, viz., Not. 57637 to 58137.

IF SICK HEADACHE IS MISEBY, what are Carter' Little Liver Pills if they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to uke.

## A FINANCIAL SMASH.

THE BANK OF LONDON, ONT., SUSPENDED. LONDON, Ont., Aug. 19.-[Special.]-The Bank of London in Canada has suspended. A notice to that effect was posted on the door of the bank this morning.

> She scolds and frets, She's ful of pets, She's rarely kind and tender; The thorn of life Is a fretful wife-1 wonder what will mend her ?

Try Dr. Pierce's Favorite Prescription. Ten to one, your wife is cross and fretful hecause ahe is sick and suffering, and cannot control her percouscess when things go wrong. Make a healthy woman of her and the chances are you will make a cheerful and pleasant one. "Favor-ite Prescription" is the only remedy for woman's peculiar ailm ut, sold by druggists, under a positive guarantee from the manufactur rs, that it will give as isfaction in every case, or money will be refunded. See guarantes on bott's wrapper. Large bottles, \$1. Six for \$5.

DOMESTIC READING. CABE OF SILK .- Never use a brush ; it injures the goods. Instead, wipe carefully with the face of a soft piece of velvet. Shake the velvet occa-

sionally and wipe between every plast if you would preserve your garment and have it retain its new lock. THE VALUE OF TRUE INNOCENCE .- Surely happiness is reflective, like the light of heaven; and every countenance bright with smiles, and flowing with innocent enjoyment, is a mirror transmitting to others the rays of a supreme and

ever-shin ng ben-volence. To WASH COTTON GOODS .- To wash cotton

goods containing a black figure, p. ur boiling suds on the goods and let stand for a few min-utes. This sets the color, and when nestly washed and ironed, instead of a faded garm-nt, you have one as bright a.d fresh as when first made.

INFLUENCE OF GREAT THOUGHTS. - Great thoughts attered in noble and "winged words" convey the mental treasures of or e period to generations that follow; and laden with these sheir precious freight sail safely across gulfs of time in which empires have suffered sbipwreck and the language of common life have sunk into oblivion.

A PIE FOR DESPRIPTION.-Four tablespoonfuls of vatureal to one pint of water; let it stand for a few hours until the meal is swelled. Then add two large apples pared and sliced, one cup ful of super and one tablespoonful of flour and s little salt. Mix all well together and bake in a buttered dish. This makes a very fine dish, which may be eaten safely by the sick or well. THE USE OF MINEBAL WATERS.-The leading medical journal of France has published a pamphlat protesting against the extravagant use of artificial mineral waters, which, it sets forth, do the doube damage of chilling the stom.ch, this laying the foundation for gastric catarrh, while the limestone held in deposit in the carbonated waters find its way into the kidneys, and even.ually produces Bright's disease

How Much Do WE Know ?- We are stu dents of words; we are shut up in schools and co leges and recitation rooms for ten or fifteen years, and come out at last with a buy of wind, a memory of words, and do not know a thing. We cannot use our hands, or our legs, or our eyes, or our arms. We do not know an edible root in the woods, we cannot tell our course by the stars, nor the hour of the day by the BUD.

To CLEAN LACE-Fill a bottle with cold water ; draw a stocking tightly over it, securing both ends firmly. Place the lace smoothly over the bottle and tack closely. Fut the bottle in a kettle of cold water, containing a few shavings of scap, and place over the fire to boil. Rinse in several waters and then drain and dry. When dry remove and place smoothly in a large book and press with weight. Very nice lace can be made to look like new by this process.

REAL AND FALSE WORTH, -Because half a dozen grasshoppers under a farm make the field ring with their importunate chink, whil-thou-sands of great cattle, reposed beneath the shadow of the British oak, chew the cud and are ailent, pray do not imagine that those who make the noise are the only inhabitants of the field, that, of course; they are many in number, or that, after all they are other than the little, shrivelled, meagre, topping, though loud and troublesome, insects of the hour.

THE WHEEL OF LIFE .- The wheel of life flies THE WHEEL OF LIFE.—The wheel of life flies round, and we with it, expecting that the motion will some day shoken, and that then life may be ordered anew and omissions be made good. But real wisdom consists in seizing the flying mo-men', and in pressing upon it the seal of the eternal and enduring ; that is the great course of moral endeavor under which life receives its due form, like the block of marble under the hands of the sculptor. The eternal and endurhands of the sculptor. The eternal and endur ing here, on earth, consists in the morally artis-tic use of time.

HOW TO GET RID OF VEBMIN. - A writer says he cleared his premises of all detestible vermin by making whitewash yellow with copperas and covering the stones and rafters in the cellar with it. In every crevice in which a rat might go, he put the crystals of the copperas, and scattered it in the corners of the floor. The result was the c mplete disappearance of rats and mice. Every spring the cellar is cratt d with the yellow wash as a public-r, and as a rat exterminator, and no typhoid, dys ntery, or fever attacks the

family. BRAUTY .-- Peop'e's ideas of brauty differ ro

tries to rouse Erglish Tory feeling to interven-tion for the saf-ty of the threatened class; but the rea-on hc gives for being satisfied that a further reduction of rents spells ruin for the landloid is about as go d a reason as human ingenuity could adduce for sweeping the class out of existence as being worthless beyond all preocdent. "The owners of estates," he says, "have been for generations providing for their younger children out of the land itself, adding mortgage to mortgage : the consequence is that at least two-thirds-some ray three-fourths-of the ren al of all Ireland is due to mortgages and chargeants of different kinds; therefore an Act which promises the reduction of judicial rents by some 20 per cent, and of lease-hold rents by some 40, sail reductions to continue for the space of three years, mears simply the destruction of the class as a class. Was ever a more startling picture painted of harmony here in providence than this of of happy-go-lucky improvidence than this of generations one after another quartering younger children on the land, instead of bring-ing them up; to some business in which they could obtain the means of livelihood by honest labor? And was there ever a more impodent claim than that tenants and their families should not only slave inc as ntly on their farms, but half starve themselves into the bargain, to main-tain in idleness and luxury a class of which so darnning a depiction can be truthfully given ?

## VERY VALUABLE.

"Having used B.B. for biliousness and torpid liver, with the very best results, I would recommend it to all thus troubled. The medi-cine is worth its weight in g.Id." Tillie White, Maritumping Ott Manitowaning, Ont.

### MISTAKES IN LANGUAGE

A professor of Euglish literature has prepared the f.llowing lists of words and phrases to be avoided in conversation and writing: Guess, for purpose or think. Fix, for arrange or prepare. Ride and drive interchangeably. Res as an adverb, instead of really, as real good, Some for somewhat, as I have studied some. Some ten days, for about ten days. Storms for mins. Try an experiment for make an experiment. Singular subject with contracted plural, as sh- don't skate well. Plur I pronoun with singular antecedent; every man or woman should do their duty. Expect, for suspect. First rate, as an adverb. Had rather, for wou d rather. Right away, for immediately. Party, for person. Promise, for assure. Posted, for informed. Post graduate, for graduate. Depot, for station. Nice, for indiscriminately. Stopping, for staying. Try and do, for try to do. Cunni g, for small. Cute, for acute. Funny, for odd. Above, for foregoing. Looks good enough, for well enough. Somebody else, for comebody's else. Like, for as. Not as good, for not so good. Feel badly, for feel bad. Feel good, for feel we'l. Between stven, for among seven. Seldom or never, for seldom if ever. More than you think for, for more than you These kind, for this kind.

Nicely, in reply to inquiring health. Heal hy, for wholesome. Just at oon, for just as lisf. Kind of, to indicate a moderate degree. The mat'er of instead of the matter with.

## HAVE YOU TRIED IT?

If so you can testify to its marvellous powers merits be known to all who have not used it. ..

## WOMEN AS PHYSICIANS.

There are 150 female physicians in New York to day, and the number in Brooklyn and the eurrour.ding cities about doubles that. Among those in New York city there are quite a numthose in New York city there are quite a num-ber who have incomes of \$10,000; two or three make yearly sums ranging from \$15,000 to \$20,-000, and one has averaged for the last four years a stready income of \$25,000. Dr. Emily Blackwell is the president of the Woman's Medical College, and has besides a large prac-tice. She has adopted children and makes a charming home for them. Dr. Mary Putnam Jacobi has a large cliente le and consults with the first male physician sof the city; indeed, more than ine physician has a regular female confrore, to whom he recommends some of his patients to go for special courses of treatment. confrace, to whom he recommends some of his patients to go for special courses of treatment. Several of these female practititioners are house physicians to hospitals, and the Lucretia Mott Hospital in Brooklyn is entirely officered by them. Some women physicians work in part-mership with each other, among whom are Drs. Elza M. Mosher and Lucey M. Hall, of Dereklem and the two sites dortors Sarah and Brooklyn, and the two sister doctors, Sarah and Julia McNutt. Dr. Sarah has charge of the bab es' ward of the Post-Graduate Hospital, and Dr. Julia has founded a training school for nurses. Both are physicians in high standing and have a large practice, especially among children. Drs. Annie Daniels and Kate Parker are both women of influence and of the widest are both women of influence and of the widest reaching charity. Dr. Elizabeth Cushier is a celebrated an tomist and successful ovario-tomist, and yet is a small, feminine, quiet-voiced little woman. Drs. Lozier, Post and Faunce are all well known for good work. Without exception these women are quiet, well-bred, gentle-mannered and soft-voiced.--Neto Work World York World.

Canons of the Cathedral of Siens, they were conducted to the room in which the archives are kept, and which is the depository of some of the oldest and most rare and valuable manuscripts in Italy. St. Catherine's tomb was next visited, and there the rout was and a the little and there the royal pair assisted at the Holy Sacrifice in the upper chapel. Before leaving, a pleasant surprise awaited them. A precious parchment, enclosed in a handsome red velvet

Free and easy expectoration immediately re-lieves and frees the throat and lungs from viscid phiegen, and a medicine that promotes this is phiegen, and a medicine that promotes this is the best medicine to use for coughs, colds, un-flammation of the lungs and all affections of the throat and chest. This is precisely what Bickle's Anti Consumptive Syrup is a specific for, and wherever used it has given unbounded satisfaction. Children like it because it is pleas ant, adults like it because it relieves and cures the discase.

## DEATH FROM TIGHT LACING.

Young women whose mothers' admonitions against tight lacing have been unheeded should listen to the story recently reported in the British Medical Journal of the death of one of their sisters.

their sisters. A spinster lady, aged 52, recently dropped dead in a London street and was taken to the hospital. She had died from syncope. Her in the street and broken a blood vessel as it was said. Perhaps she had, but the surgeon knew that it was because she had squeezed her ribs by her dressing appliances tighter than any lover's arms could press a beloved waist; and the great difference between that powerful instrument of compression and the well made corset is that the latter is tireless and never lets

go. This lady was fifty-two. Young ladies ambitious of small waists may think that a single woman of 52 had better die anyway. But whatever they think now, we warn them that if they should ever arrive at that age, even un-marized, that they will still wish to live kunger, and if they desire to live even as long as that in health and in happiness, they must let that lating go.

Holloway's Ointment and Pills. —Travellers and Emigrants. —Those who cross the seas change the climate, but they do not change the cons. itu-tion. The altered conditions of life, the exigen-cies of travel and other causes, render the traveller and any manufacture light.

At a certain debating society an English doctor recently argued that the Irish were na-turally a deprayed and dishonest race, and in support of his position he adduced his own ex-perience. He remarked that he had at Man-chester 800 Irish patients on his books, and ont of this number only thirty mid him his out of this number only thirty paid him bi

An Irishman rove when the doctor sat down. An instance over a phenomenon which is a explanation. How, sin, can we explain the extraordinary phenomenon to which the doctor has called our attention? He finds an explanation in the patural depravity does not somit of an explanation. How, sir, can we explain the extraordinary phenomenon to which the dotor has called our attention? He finds an explanation in the natural depravity of the Irish nature. I, sir, have another ex-planation to offer, and it is this: That the 30 patients that paid him were the only ones that recovered."—London Zruth.

### THE BEHRING SEA SEIZURES. OFFICIAL REPORT OF THE SECRETARY OF THE U. S. TREASURY.

WASHINGTON, Aug. 16 .- The Secretary of the WASHINGTON, Aug. 16.—The Secretary of the Treasury has received reports from Captain Shepard, commanding the revenue steamer Rush, dated Ounalaska, Alaska, July 11th and 16th, in regard to his cruise in the waters of that vicinity. He says that on July 9th, in Behring's Sea, fifty-nine miles distant from Cape Cheerful, he boarded and examined the British schooner W. P. Sayward, of Victoria, B. C., and found that she was on a scaling yourge and parchment, enclosed in a handsome red velvet cover, was presented to the King; and the famous commemorative gold medai of the Oratory of St. Catherine was given to the Queen. This medal, it should be explained, had only been twice presented to anyone previously—to Charles V. of Germany and Spain, and to Pius IX. Queen Marguerite was deeply affected at this touching homage from the Sienness clargy; and she gave felicitous expression to berfeelings. Indians was out scaling at the time. Her crew consisted of six white men and seventeen Indians. The yessel was seized for violation of the revised statutes and towed to Ounalasks, where the captured scalakins were delivered to the U.S. Deputy Marshal. The yessel and crew were then sent to Sitks for delivery to the United States Marshal, and the crew was set at liberty. On the 12th of July Capt. Shepard seized the British steam schooner Dolphin, of Vistoria, B.C., in Behring Sea, 40 miles from Cape Cheer-ful. She had been in the sea for three days. ful. She had been in the sea for three days, and contained 618 sealskins. Ten cances and one boat were out sealing at the time of the seizure. A dozen dead seals were taken on the schooner from the canoes while the Rush was approaching, and three skins from seals recently k lied were found in small boats. The crew consisted of seven white men and twenty-six Indians from British Columbia, They had a number of fire arms with ammunition. She A spinster lady, aged 52, recently dropped dead in a London street and was taken to the hospital. She had died from syncope. Her heart had stopped beating; her lungs had ceased to work, and the hospital surgeon said that this was due only to tight lacing. He had known her of old. Only two years ago she had fallen in the street and broken a blood vessel as it was said. Pethane she had, but the surgeon have for a surgeon between the surgeon have for a surgeon to be the surgeon have for a surgeon be had fallen in the street and broken a blood vessel as it was

nine mile limit from shore. On July 17th, Capt. Shepard seized the British steam schooner Grace, in Behring Sea, 96 miles from Ouna-laska, for violations of the seal fishery laws. She had been in Behring Sea ten days, and had 769 sealskius on board. Capt. Shepard saw one seal shot and taken into a small boat while he seal shot and taken into a small oost while he was approaching the schooner, and he saw many more seals which had been recently killed. The vessels were all sent to Sitka, and turned over to the United States Marshal for prosecution. The British schooner Anna Beck, previously seized, has also been sent to Sitka.

## THE LUGGACURBAN TENANS. CAMPAIGN SQUARE.

## (Leinster Leader, Aug. 6.)

Friends of the Campaigners of Luggacurran and those who sympathize with the plucky ten-ants in the great struggle in which they are engaged with their pitiess landlord for the right to live in their fathers' homes, will be the climate, our will be constantly liable to diseases and accidents when far from efficient medical aid. With these associated remedies at hand they may be said to have a physician always at their call, and they may be cortain that situations will be constantly arising in which they will require a ready resource in time of need. The directions for use which accomp-any each box and pot of Holloway's Pills and Ountment are written in plain and simple language, and are applicable in all cases. THE IRISHMAN WAS AHEAD. At a certain debating society an English At a certain debating society an English of the struggle, and must them with a closed-fist and set-teeth determination to per-evers even for years, if needs be, in a fight which they look upon as mared. The appearance of the cottages as viewed from the road is most picturesque, and when driving by the scene of operations, one experiences a most pleasing surprise when, for the first time, the camping ground of the campaigners is seen, with the pretty, comfortable looking, white cottages or rather tents of the frieze-coated soldiers out rather tents of the frieze-coated soldiers out there smiling in the sunshine, and the strokes and the noise, and the busy hum of the workers, breaking with strange effect the silence of the lonely valley. A brief description of the cottages might be desirable. Those at present being constructed are rectangular in shape, both wings facing a famished and hungry-looking habitation called the "rent-office," sacred to the presiding genius of the place—Townsond Trench. Each cottage

of the place-Townsend Trench. Each cottage consists of three bedrooms consists of three being provided with a service-able cooking-range. The comfort of the houses is unusually good, as they are all slated, with two layers of boards inside and outside, and have each a sheet of indorous felt in addition, and are entirely air and water-tight, being care-fully secured in this respect with asphalt of best quality.

A DIG BOUDLER. NEW YORE, Aug. 16 -- Richard Searman Scott, who absconded with \$100,000 that be-longed to the Manhattan Bauk, of which he had been a pet employ é. in 1885, and about whose disappearance and whereabouts there was such profound mystery, has made a cosf-ssion before Consul-General Waller at Londou. For a time there were all manner of rumura about his location. there were all manner of rumors about his location, there were all manner of rumors about his locaticn, but after a spasmodic story, which it took over a year to tell in the newspapers, it was dropped by the people. People who were directly interested in the case were more active, and have long since known of his movements. A suit has just been instituted in the Supreme Court, which discloses not only Scott's action, but the fact that he was not along in his stonendous de-

which discloses not only Sout's action, but the fact that he was not alone in his stupendous de-falcation. This suit is against John R. Dunn, Scott's colleague, f.r the recovery of \$140,000. The ducuments included in this case embrace an siftidawit by the defaulter, which is a statement of the history of the case, but it is in truth a

## THE CROWNING OF STE. ANNE DE BEAUPRE.

QUEBEC, Aug. 16 -The feast of the crowning QUEBEC, Aug. 16.—The feast of the crowning of Ste. Anne at the shrine will take place in Sep-tember at that period when all the bishops are at Quebec for the public instructions. Pope Leo XIII. has delegated His Eminence Cardinal Taschereau, Archbishop of Quebec, to crown in his name the statue of Ste. Anne. His Highness the Archbishop of Ottawa will preach the English sermon. His Highness Mgr. Antoine Racine. Bishon of Sherbrooke, will preach the Racine, Bishop of Sherbrooke, will preach the French sermon.

Much dis'ress and sickness in children is caused by worms. Mother Graves' Worm Ex-terminator gives relief by removing the cause. Give it a trial and be convinced.

## VERDICT IN THE CHATSWORTH HORROR.

HORKOR. CHATSWORTH, Ills., Aug. 17.—The coron?r's jury in the railway disaster, after a deliberation of three hours, returned a verd:ct that Sec-tion Boss Coughlan was guilty of gross criminal negligence in leaving fires burn-ing across the track. It was recommended that he be held to the grand jury. The com-pany are consured for not having the track patrol'ed all the evening. Coughlin will be arrested. arrested.

A SUCCESSFUL COMBINATION .- The successful combination of the six oils composing Dr. Thomas Eclectric Oil is a genuine triamph of chemistry. Whether applied externally for the relief of pain or to allay inflammation, or taken internally to remedy a cough, it is speedily and entirely offective.

## HOME RULE ON THE EVE OF SUCCESS.

DUBLIN, Aug. 17.---At the regular fortnightly meeting of the National League yesterday, Mr. Harris, M.P., announced that the receipts since the last meeting amounted to £2,138, of which £2,000 came from the Parliamentary Aid Society of New York. The Nationalists, he in Northwich virtually made Gladstone premier. Of his Home Rule measure, he (Harris) hoped it would be an advanced one. If the landlords got one half of what Mr. Gladstone offered them before they ought to be happy.

FOR THE BELIEF and cure of the inflammation and congestion called a "cold in the head" there is more potency in Ely's Oream Balm than in anything else it is possible to prescribe. This anything else it is possible to prescribe. This preparation has for years past been making a brilliant success as a remedy for cold in the head, catarrh and hay fever. Used in the initial stages of these complaints Cressu Balm prevents any serious development of the symp-toms, while almost numberless cases are on re-cord of radical cures of chronic catarrh and hay fever after all other modes of treatment have prevent of no avail proved of no avail.

HENRY GEORGE NOMINATED. THE SYRACUSE CONVENTION NAME HIM AS A CANDIDATE FOR SECRETARY OF STAFF.

SYRACUSE, Aug. 19 .- The United Labor party SYRACUSE, Aug. 10, --- The United Labor party nominated Henry George for Secretary of State and filled out a complete state ticket. Mr. George stated that he did not want the office, but was in the hands of his friends.

THERE IS A WIDE DIFFERNCE between medicines which affect merely the symptoms of diease and these which affect its cause. The first are useful as pallistives, the second, if of genuine efficacy, produce a radical cure. To the latter class belongs Northrop & Lyman's Voretable Discovery and Dyspeptio Cure. Thoroughness of operation is its special attri-bute in all cases of Biliousness, Costiveness, Indigestion, Kidney Complaints, and Female Weakness.

A BIG BOODLER.

THE ENTHUSIASTIC CRIPPLE A CHICAGO TRAVELER INTERVIEWED IN LONDON.

A Chicago man who had recently returned from Europe leaned up against the coally stone paint of the County Building yesterday. A fried accosted him and he at once opened up on the story of his travels. "There isn't a more popular man in England than Gladstone," he will with emphasis "and there is no one in the said, with emphasis, "and there is no one in the whole blarsted, bloomin' country who can hold the respect and reverence of the common people as he does. I often wondered how he did it. It as he does. I often wondered how he did it. It was about a year ago when he requested Queen V ctoris to call a leader to form a new Parlia-ment after his defeat on the Home Rule ques-tion. He was driving through London's great-est highway when I tirst saw him. All along the line people of all classes were waving their hats and handkerchiefs and shouting lustily in honor of the venerable statesman, who publicly saluted them as his vehicle passed on. In Whichall star ling against the fence sur-in an attic in a remote part of London. I was given up for dead, and the few friends I had among my own poor kind deserted me. One morning I awoke expecting to consume my last function of the set average in the bad crust of bread, when, to my surprise, I beheld a fine old man bending over my prostrate form. He told me to be quiet, and his manner was so pleasant that I could not but obey him. He gave me the nicest kind of food, which he had brought in a basket, and left some pretty flow-ers by my bedside. He went away, only to re-turn next morning at the same hour when no-body else was astir. His visits were repeated until I was thoroughly well and able to renew my old occupation of selling papers here on this stand. I haven't spoken to him since, nor has he called on me, but don't think he hasn't got my love. It was the Right Honorable Mr. Gladstone, though he himself never found his crust of bread, when, to my surprise, I beheld name, or who he was. How he ever, found his way to my garret I don't know. He's got a heart, and saved my life. That's enough, for me to know. He, is a Grand, Old Man. See, how the people cheer—God bless him !"

ASTONISHING SUCCESS. ASTONISHING, SUCCESS. It is duty of every person who has used Boschee's German Survey of labits wonderful qualities be known to their friends in curing

KING HUMBERT. QUEEN MARGUER-ITE, AND THE ITALIAN CLERGY.

ITE, AND THE ITALIAN CLERGY. The marked change which has recently come over the attitude of the Italian dergy in rela-tion to King Humbert and his Queen is not without a certain significance. Wherever their majastics go, they are the objects of respectful attention and loyal demonstrations on the part of the Bishops and priests. His Lordship of Turin was the first to set the example. On his arrival at the house where the King was lunching, the latter rose up from the table to greet, him, and they immediately entered upon an intimate conversation which lasted an hour. The effect of this important incident was sought to be explained away by the instead an hour. The effect of this important incident was sought to be explained away by the iterated statement that the prelate had acted on his own personal responsibility, and that, had the Pope known of his intention beforehand, he qualities be known to their friends in curring Goaumption, swite it without immediate Resear. HORSFORD'S ACID PHOSPHATE CHARMING EFFECT.

Dr. J. R. SCHWARTZ, Harrisburg, Ps., says "I used it on a case of dyspepsia, with charming effect, and am much pleased with it."

## A DISTINGUISHED CORKMAN.

Sir Ambrose Shea has, says the Newfoundland Mercury, now forever retired from the field of local politics, and in the Imperial service his talents will find a wider sphere of action. The appointment conferred on him must be revarded as a recognition of his services and abilities by the Imperial authorities. The Governorship of the Bahamas will prove a stepping stone to a higher appointment, should his life be prolonged. All Governors have to go through their degrees like other mortais. The appointtheir degrees first other mortais. The appoint ment he has now received is, in many respects, a very desirable one. The emoluments of office are considerable; the duties are not very onerous; the climate, though tropical, Nassau being but 25 degrees north of the equator, has a reputation for salubrity. In fact the Baha-masenjoy perpetual summer.

Holloway's Corn Cure destroys all kinds of corns and warts, root and branch. Who then would endure them with such a cheap and effectual remedy within reach?

NOT A DEFENDER OF IGNORANCE, (Catholic Review.)

Of what, pray, does the Church seek to keep the people ignorant? Is it of theology, the queen of sciences? Is it of philosophy, ethnes, or politics? Is it of astronomy, mathematics, mechanics, chemistry, electricity, cosmology, zoology, biology, physiology, history, natural, civil, or ecclesiastical? I have yet to learn of the part of the civil, or ecclesiastical? I have yet to learn of any prohibition on the part of the Church sgainst the studying of any of these sciences. True, the Church may not accept all the doctrines and theories put forth by scientists. She stremuously sets her face against the deification of the intellect—against the canonizing of the human passions. She allows no altar to be raised to intellectualism, nor does abe arplaud the deep ubilosonby of doubt. She she applaud the deep philosophy of doubt. She has given to this country its leading scientist, its greatest scholar, and its purest and brightest mind in the persons of Father Secchi, Cardinal Wiseman and Cardinal Newman. She holds up as a model for her children the lives of pious men and women whose souls become strong in communion with God. She wants no share in the glory of Darwin or George Eliot; nor do her children desire to ape the dangerous doc-

true of the one, or the revolting concubinage of the other. P. M. MARKELL, West Jeddore, N. S. writes :- "I wish to inform you of the wonder-ful qualities of Dr. Thomas' Eclectric Oil. I had a horse so lame that he could scarcely walk;

the trouble was in the knee; and two or three applications completely cured him."

DISPOSAL OF SEWAGE.

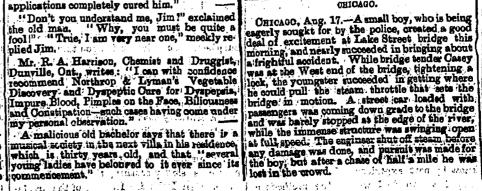

The method of dry removal is still in most general use, and costs, in Leeds, England. twenty four cents a head per year. The great twenty-four cents a head per year. The great defect of removal by water carriage, such as prevails in all large cities, is that usually it only takes the nuisance to another place, with-out abating it. This fact and the failure; of the currents depended upon to carry the stuff far enough away have led to the introduction of the method of water carriage with works for purification by precipitation. This is effected at the Knostron works. Leeds. by means of a set of

the method of water carriage with works for purification by precipitation. This is effected at the Knostrop works, Leeds, by means of a set of settling basins, with milk of lime as the precipi-tant. At Frankfort alumina ferric is to be used. The method of water carriage, with filtration or irrigation, can be applied with great advantage in small towns; but in cities of more than 100,-000 inhapitants it is met by the difficulty of getting enough land to make the effectual appli-cation of filtration or irrigation practicable. The method of dry removal and making up into saleable products is practised on a large scale at Manchester. England. Urine and fieces partially deodorized with the house ashes are converted into a manure and a variety of useful compounds at a cost of from twenty-four to thirty-seven cents per head a year. The Liernur separate pneumatic system is judged to be more expensive than any other well arranged method. In some places in England and in Holland refuse not suitable for the sewers is burned in destructors at small for the sewers is burned in destructors at small

cost. Dr. C. Weymouth Tidy, according to the au-thority quoted from, says that no single answer can be given to the question of the disposal of sewage. The adviser must sink his hobby, and prepare to find conditions under which he would counsel irrigation, and other conditions under which he would recommend precipitation. Success at one place furnishes no argument that a process will be successful everywhere. His own experience of all kinds of schemes has led him to prefer a scheme combining the principles own experience of all kinds of schemes has feed him to prefer a scheme combining the principles of precipitation and irrigation. It has the ad-vantages that its efficient working is indepen-dent of the weather; and that, if the works are sufficiently large, any emergency of quantity

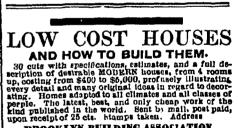

can be met. ..... A YOUNG RASCAL

NEARLY CAUSES A TERRIBLE CATASTROPHE IN OHICAGO.

The conduction of the second second also have a set of the provide and the state of the state of the set of the state of the EVICTIONS POSTPONED.

As the question of sewerage is now a lead-ing one in this city, the following from the August number of the Popular Science Magistrate Plunkets having stated that he was Monthly will be of interest :-
