

June 1, 1925.

Dr. F.C. Harrison,  
Principal, Macdonald College,  
Ste. Anne de Bellevue.

Dear Dr. Harrison:-

Sir Arthur, before he went into hospital, handed me your letter of the 28th inst. with proposals concerning the appointment of a graduate in Agriculture for teaching in rural schools.

Generally speaking the proposal is one which appeals to him. The financial position is, however, not quite clear. Would the teacher appointed be paid by the Protestant Committee or by ourselves? I rather understand from your letter that it is your idea that we should pay, but I am not quite sure if that was your meaning. If this is to be done, what would be the necessary amount. If you could let me have an answer to this as soon as you get it, I will speak to Mr. Beatty and get the matter settled.

I hope you enjoyed the conference.

Yours faithfully,

Wilfrid Bovey.
