

A Horrid Monster

From a little boy 4 years old; it is a slate color, having a black stripe which runs the full length of it. This monster is like a great Blood Sucker and could stretch itself out from five to twenty-five feet in length. Just imagine the dear little fellow, having a Demon like this sapping his life away. Is it any wonder he was wasting away, sickly and miserable? This horrid monster can be seen in a glass tube in my office window at 167 Dundas St. It is the only one of its color in my possession and is from Mr. Walton's little boy. Their address is 234 Berkeley Street. I have also another from Mrs. Bowman's little boy, age 4 years, which was brought to me May 29, 1913. It is quite a different specie altogether, but is not at all a desirable pet to be inhabiting the bowels. They live at 51 Globe Ave., city. It can be seen at my office where it has been added to my collection of many hundred others. More could be said. Let this be sufficient.

How People Feel When They Have TAPE WORM

Tape worm is bred from a parasite. This parasite is a creature male and female in one. It is of pear shape, having two, four and six suckers. It lays the eggs, which are only connected together with slime. They develop and form a body, which is the worm. Each joint is an individual, having a sucker or mouth. The worm grows much longer than the bowels, where it is located, and sometimes a whole colony of them are found, enough to fill

a quart of solid worm, and when put in a bucket of water would apparently fill it. It is the hardest task in the world to destroy this parasite without doing injury to the individual who may be so unfortunate as to have it, as the parasite clings to the bowels, freeing itself from the body of the worm, and remains there to breed another. It is an internal demon, and causes its victim to suffer all the symptoms of disease imaginable. The cleverest physicians are led to believe that the patient is suffering from some other disease, as nearly every person has different symptoms. Some have been treated for cancer of the bowels, consumption of the lungs, chronic dyspepsia, nervous prostration, melancholia, hypochondria, hysteria, inflammation of bowels, appendicitis and other complaints when one or more of these internal demons were eating their lives away.

Prof. Mulveney has made the discovery to free the victim of this monster without injury to the system, destroying the parasite as well as expelling the worm with one dose of medicine without any previous starvation. Visit his office, where he has in his possession the most wonderful collection of these death-dealing monsters in the world, which have been expelled from hundreds of people by his famous remedy, some bottles containing colonies of worms, and anyone seeing them cannot imagine how a person could possibly live with them in his bowels. It is surprising the number of people that have them. Thousands have them and are not aware of the fact. The letters and testimonials the professor has in his possession are enough to convince us of this alarming fact. Some of the most prominent symptoms are ravenous appetite, dizzy spells, headaches, cramps in the bowels, also a feeling as though something was crawling up the throat. The only certainty of having one in the system is when segments or joints are seen, which come almost any time. They are flat and from three-quarters of an inch to an inch long, which have often been mistaken for pin worms by those who do not know the difference. There are many other feelings of distress, which would take too long to enumerate. Strange to say, some people of strong constitutions have very little distress.

Prof. Mulveney's world famous Tape Worm Extractor is safe, pure and harmless. No starvation, no danger, is not disagreeable to take. One dose

Just Arrived from Ireland

A Monster Tape Worm About 20 Feet Long.

Mr. John Campbell of 23 Napier street, called on Prof. Mulveney about a month ago and purchased a remedy to destroy Tape Worm. His wife's sister, Miss Hill, of Glenkiln, Ireland, had been suffering for some time with a Tape Worm, and had been treated without success. He sent her the remedy, which expelled the monster, head and all. Mr. Campbell received the worm by parcel post from Ireland on Nov. 23, 1912, and took it to Prof. Mulveney the same day, and it was found to be all there, a four-hooked demon. Mr. Campbell states that on July 29, 1908, his little girl, three years old, was relieved of a monster Tape Worm, head and all, without sickness or trouble, and the little one is healthy and well at the present time. This is how he came to recommend his sister-in-law in Ireland to try the same remedy. And now they are rejoicing over a friend across the sea whose life has been saved, who is restored to health and happiness by Prof. Mulveney's world's famous cure, which may be purchased at 167 Dundas street, Toronto, Ont.

CHESTERTON FOUND GUILTY OF LIBEL

Editor's Attack on Godfrey Isaacs Proves a Costly Boomerang.

BLINDED BY PREJUDICE

Says Judge in Imposing Fine—Tempted to Give Prison Sentence.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World. LONDON, June 8.—Cecil Chesterton, was found guilty by a jury at Old Bailey, Saturday, of libelling Godfrey Isaacs, managing director of the Marconi Wireless Company, in articles in the Eye Witness, and the New Witness, alleging corruption in connection with the government contract.

Chesterton was fined \$500 and ordered to be kept in prison until the money was paid, and to pay all costs of the prosecution. Judge Chesterton was ordered to surrender on Monday, to pay the fine, being released on bail, meanwhile.

The amount of the fine is small compared with the cost, which is estimated at \$25,000, the hearing having lasted ten days. Justice Phillimore in passing sentence said:

"I entirely agree with the verdict. It gives me pain to see a man like the defendant in such a position—bearing an honorable name, with literary gifts and good friends.

"Racial Prejudice to Blame.

"I think a great deal of this matter was due to what theologians called 'invincible ignorance and prejudice.' The defendant was partly incited by racial prejudice and was blind to business matter.

"When I consider the cruelty of Chesterton's conduct, and how he might have rendered Mr. Isaacs a beggar by driving him from his employment, it is extremely difficult to refrain from sending Chesterton to prison."

"The jury's verdict is a complete vindication of the prosecutor's honor."

TIMES ENDORSES PAGE RECEPTION

"Such Compliments Are Reserved For U. S. Ambassadors," Says Thunderer.

HIS SALARY IS MEAGRE

London Paper Criticizes "Jeffersonian Parsimony" of Uncle Sam.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World. LONDON, June 8.—In a gushing editorial on the "Pillars of Democracy," Walter Hines Page, the new American ambassador, The Times emphasizes the unique character of the tributes paid to the American ambassador to London.

"Nothing like it exists anywhere else," the newspaper says. "No ambassador to this or any other nation is similarly honored. For the recognition of a foreign power to be conferred upon his recall in the capital of a state to which he is accredited is common enough. But for the representative of a foreign power to be hailed with welcoming words almost at the moment of his arrival when he has but barely had time to present his credentials and before he has given any token either of personality or his diplomatic policy this is an experience which alone among the diplomatists of the world is enjoyed by an American ambassador to the court of St. James."

"It is intended to be precisely what it is, a unique complimentation on our part of the fact that Great Britain and the United States stand to one another in special relationship, and that between them some departure from the merely official attitude is of all things the most natural."

The article also refers to the "greeting of appreciation of Mr. Page personally, and referring to the duties of his office says: 'Difficulties have not been hitherto in any way lightened by the refusal of a permanent official residence and by its more than Jeffersonian parsimony in the matter of salaries.'"

THE HOWE SHOW.

When the late P. T. Barnum remarked that the American people liked to be humbugged, he evidently had in mind the people of the world in which he was famous, but it is the saddest thing in the world that it could not be applied to the people of the present day. Of course, when the dean of showmen made this remark he referred to amusements. The Howe Great London Show, which is to be here, is a direct contradiction to the opinion of Mr. Barnum, and on June 16, when this show is to be seen here, the thousands who will flock to it will have the opportunity of seeing how differently the management of this show thinks of amusements.

The word humbug was eliminated from its vocabulary when the first thought of the show's organization sprung into existence and has remained eliminated ever since.

The management has carefully avoided the least thing that would have a tendency to detract from its truthfulness and honesty. The show has been organized along lines which have given it a universal reputation for merit and fairness that has placed it in a class by itself. In its features and acts, care at all times has been taken to offer only such as could be given in the most dignified and elevated, while entertaining, manner. As are entirely new and a place on the extended program, and in several instances, money is never considered. It is the same in the detail selection. While there are a certain number of animals which have been seen before by some, there are many rare ones that have never found their way into any zoological collection before. To sum up, there is no show on the road today where the performance given is of equal merit and where the manager has been so carefully selected as that with the Howe Great London Show, which will be here June 16.

NORTH GERMANY IS IN DANGER

Will Become an Arid Desert Unless Trees Are Planted.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World. BERLIN, June 8.—A large part of northern Germany is in danger of drying into a desert unless arbor day and irrigation methods are adopted, says Prof. Otto Panmer, warden of Berlin Royal Botanical Garden. He is widely known. East Prussia and the Province of Brandenburg, which Emperor William regards as the "apple of his eye," is nearly 50 per cent. sand; and the great fresh water lakes, which until now have saved it from becoming a desert, are gradually diminishing, Panmer asserts.

He wants Germany's young folk and her old folk to turn out once a year to plant trees—larch, beech and oak—to save the country from turning into a parched and sandy waste.
