rupted "Levee." Believes She'll Win. The fight made by Miss Drake, how-ever, not only has caused the search-light to be thrown on the "Bath's" bailiwick and forced the city's riffraff to run to cover, but has created a wholesome respect for public opinion by political gangsters and ward heelers. Despite the odds confronting her, Miss Drake professes confidence of victory. Phil. I. Orme is the Republican candidate and Charles M. Leffler the Socialist.

The most innocent and the most absorbing hobby of all. Gardening makes you well and keeps you well-think of the mornings and evenings in the fresh spring air.

The outlay is trifling. Seeds with a pedigree cost very little more than ordinary kinds; inexpensive, too, is a kit of Sheffield steel tools, and they last practically for ever.

HE founder of Arbor Day, J. S. Morton, wrote: "The tree planter shall be declared the best benefactor of modern times,—the chief provider for posterity."

In spring our thoughts turn to beautifying and renovating our homes to the best of our ability, and when this is done we long to be out of doors in the mild, bright, growing weather, making the outside of our house correspond with the beautifying the course.

California poppy is most effective for large beds, but these graceful flowers win praise wherever they grow. Amelia Barr said that she used to plant the tiny seed in halves of empty egg shells and when the frost was well out of the ground she set the shell and plants well in the ground without disturbing the tender rootlets that soon burst thru the shells.

Jack London and Walt Whitman are other literary lights that have praised the poppy, but it remained for a northern housekeeper to tell us all how we

"Go to any baker shop where pumpernickel or 'poppy-seed' bread is made, and buy five cents' worth of the seed. You will have enough to plant a great yard. Strew the seeds in the fence corners and wherever the plants will not be crushed down. Five weeks after sewing the poppies will be blooming." We tried this last season and a riot of gorgeous but small poppies, repaid us amply.

Cosmos must be planted as early as ground is ready; it blooms late in season but is beautiful. It may be planted among the hollyhocks, as they will season before it is well grown.
