CHRISTMAS TRAFFIC OVER. Yesterday saw the close of the Christmas excursions, and thousands of people who had gone away to spend Christmas under parental roof returned to the city to enter once more upon the daily grind of office life. There was also the closing of the best Christmas season the railways have experienced. From 7 o'clock until midnight on Saturday, Monday and Tuesday the Union Station was a human beehive, and station employees say Saturday was the busiest they have had in their history. In an official of the C. P. Willing to Co-operate.

OTTAWA, Dec. 27.—The report that the proceedings against the Farmers' Bank were instigated by the financial department, was given a dental to-day when Hon. W. S. Fielding gave out this statement: "No such action is necessary at present. I must be remembered that while the Dominion Parliament enacts the criminal law, the administration of the law is in the hands of the provincial authorities, represented in each province by the attorney-general. The provincial authorities will, no doubt, require the co-operation of officers of the finance department to prove the filling of the bank's returns, and that co-operation will, of course, be given."

FOR TRIPLE MURDER

Arrested After Police Had Searched for Him Three Years. NEW YORK, Dec. 27.—Sought for three years, John Kaley, charged with a triple murder, was arrested here to-night. He admitted his identity. Three years ago this Christmas, there was a celebration among the Welsh miners at a house in Elkhorn, W. Va. Kaley lived on the ground floor and the noise of the family upstairs so angered him that he marched up, hammered on the door and threatened, it is charged, to shoot. If the racket did not stop, the guests laughed at him, for he is a little man. Three shots were the answer, and when the smoke cleared away, Kaley had vanished. Two persons were killed outright, and a third died shortly after in a hospital.

Superstitious Hungary.

In many country districts in Hungary superstition is still rife. One of the latest evidences of this comes from Grosswarden. In the communities of Vasek and Bared several earthquake shocks were experienced and in the former place the church bells were started ringing. A "witch" living in the neighborhood persuaded the peasants that the devil was hungry and scattered harmless on the sidewalk. Thereupon they collected a number of calves and goats and drove them into a cave where the devil was supposed to be dwelling. After this they set fire to the forest in two places to drive out the devil living there.—Indianapolis News.

Where the Bricks Came From.

(From The Philadelphia Times). A man was passing some building operations in West Spruce-street a few days ago when a dozen bricks came sprawling down from somewhere between earth and sky, and scattered harmlessly on the sidewalk at his feet. Decidedly startled, realizing that he might have been badly hurt, the man gazed about him and ejaculated foolishly: "Where under the sun did you come from?"

And out of the air above him, from the top of a ladder whence the bricks had fallen out of a young workman's hod, came the astonishing reply: "From the north of Ireland, beggin' your pardon, sir."

BRAZIL TRAILERS GROW TREES FOR TIES AND FUEL

Country Has Less Forest Than is Supposed, Much of Its Timber Being Too Heavy to Float. Consul-General George E. Anderson of Rio de Janeiro tells of the planting of forests by Brazilian railway companies to meet their firewood and the requirements, says The Baltimore American.

Brazil is far from having the amount of forest with which it is generally credited in the United States and Europe, tho' it has enough to supply all needs under normal conditions. The fact that the trees of value are so greatly scattered in the forests, that so many of them are heavier than water and cannot be floated, and that most of the timber is of such a heavy nature, that it is impossible to supply most portions of the country with a triple track of forest for its ordinary purposes. The result is that not only a large portion of the building lumber imports for Rio de Janeiro, but many other work which in the ordinary course of affairs should be Brazilian. One of the most striking proofs of this is the fact that appears in the immense sums of money expended by Brazilian railway companies, and the great quantities of which are used in securing proper supplies of timber at any price.

THE "LAZY" CHILD.

No-Such Thing—The Little One is ill or Poorly Nourished. (From The Youth's Companion.) In many ways the world is growing less cruel. For this we must largely thank the scientific spirit which is daily recognizing more and more of the ailments of life which belong to its original state. It is coming into fashion now to look the man who is down, but to call a committee to enquire into why he is not getting better, and more of the ailments of life which belong to its original state. HEALING BY MUSIC.

Newest Science Shows Strange Results in Tests on Sick. (Chicago Correspondence Chicago Inter-Ocean.) The newest science, which is also one of the oldest, is the science of healing by music. Tests are being made at the Samaritan Hospital under the supervision of Dr. Russell Conner, its president, famous for his eloquence on the lecture platform. Nurses who aided in making observations on the musical airs up on the temperature and pulsations of patients and the evil and depressing influence of other tunes.

The following is a translation of some of the rules for clerks which have lately been issued to the officers and employees of postal telegraph and telephone offices in Japan: "Work earnestly and soberly with your mind." "Do not be late." "Do not rely not upon to-morrow; without fail do to-day the work which should be done to-day." "In your daily social intercourse be whole-hearted and free; do not fall in discharging all obligations toward friends; be careful not to be a trouble to people."

She had landed ten minutes without a landing. "But what were you going to say, Regulus, when I interrupted you?" she asked. "Bellatrix" said the young man, looking at his watch and grabbing his hat, "I was going to ask you to marry me, but I shall have to put that off until the next time. I have less than five minutes to catch the last train. Good night!"—Chicago Tribune.

CATARH OF THE STOMACH

TORTURED HIM FOR 25 YEARS

"Fruit-a-tives" Brought Mr. Jones Quick Relief.

Sarbia, Ont. "I have been a sufferer for the past twenty-five years with Constipation, Indigestion and Catarrh of the Stomach. I tried many remedies and doctors, but derived no benefit whatever. Finally I read an advertisement of 'Fruit-a-tives' in which Hon. John Costigan (Senator for New Brunswick) stated that he had been cured of Constipation by 'Fruit-a-tives' so I decided to give it a trial. It is the only medicine that does me any good. I recommend 'Fruit-a-tives' and cannot praise it too highly."

PAUL J. JONES.

"Fruit-a-tives" is the only medicine that will actually and completely cure chronic Constipation and effectively regulate the bowels to move regularly and naturally. "Fruit-a-tives" is also the only medicine in the world made of fruit that acts directly on the liver—and the only possible way to cure constipation is to make the liver healthy and active.

AMUSING AND SIMPLE.

The success or failure of a party for young people depends largely on the amusement provided for the guests. There are times when conversation lags, particularly at the beginning of the evening, and at such junctures the introduction of some novel game or diversion serves to "break the ice" and put everyone at ease.

Here are two simple forms of entertainment. The first is in the nature of a "stunt," and requires no special preparation. An empty bottle is placed upon a small table, the cork being set loosely in the top of it in such a way that the least touch will dislodge it. The members of the party are lined up some distance away and with right arms extended horizontally, walk rapidly by the table on tiptoe, endeavoring as they pass to dislodge the cork by a snap of the finger, or, if possible, to make the bottle reach the table, or may the bottle be touched or overturned.
