

BITTERLY DISAPPOINTED ARE TEMPERANCE PEOPLE

Rowell's Attitude on Liquor Question is Called Political Cowardice by Alliance.

"Disappointment and regret are the feelings of the temperance people of this province at the failure of the new leader of the Liberal party in his published platform or his expressions at Massey Hall Tuesday night to deal strongly and effectively with the liquor question," says the *Evening Telegram*. "The attitude of Rowell, speaker of the Dominion Alliance, yesterday, 'There was a right thing to do, but it was not done,' is a political cowardice, and a non-action of cowardice in masquerade under the name of caution."

"Mr. Rowell, the late chairman of the Ontario Liberal Association, publicly and fairly stated the case when he said: 'The Liberal party has made certain definite pledges and promises along temperance lines, which it has never kept. Until it fulfils them, it cannot be rehabilitated in public opinion in the Province of Ontario.'"

"This office is in close touch with the temperance sentiment of this province. We have, I believe, as good means of expressing our opinion as any other have the politicians of the Liberal party. Our secretaries and speakers are continuously at work through the province. The feeling generally is that the new leader of the Liberal party has missed the opportunity of his life in not now, at the very outset, stating straight and clear and true for the temperance principles which he has been supposed to hold. It would seem to be the Roman mistake over again."

"When Mr. Rowell, in Massey Hall, denounced the Whitney government as being responsible for the existence of the 1875 license places that today are doing their deadly work of demoralization."

"Temperance people cannot be expected to approve such an empty policy as that announced at Massey Hall last night."

"A meeting of the general executive committee of our Ontario Alliance will be held at an early date when the whole matter will be taken into consideration."

URGE GEORGIAN BAY CANAL

Montreal Chamber of Commerce Also Wants G. T. P. Branch.

MONTREAL, Nov. 15.—The Georgian Bay Canal, the necessity of having a branch of the Grand Trunk Pacific to Montreal, and the delay in the delivery of goods by the railway companies were questions which occupied the attention of the Chambre de Commerce this afternoon.

The Chamber adopted a report to the effect that the body should at once urge the government to take all possible steps for the construction of a Georgian Bay Canal and another to the same effect in connection with the desired branch of the Grand Trunk Pacific, adding a proviso that it be under the control of the railway commission.

The question of delay in the matter of delivering goods was brought up by a letter from the Calgary Grain Exchange, suggesting that freight trains be required to travel at a given rate under penalty. The Chambre de Commerce, however, adopted a report to the effect that railway companies should be required to deliver merchandise at their destination and to pay \$1 per day demurrage.

TAKE PESSIMISTIC VIEW

City Couldn't Make Money Out of Street Railway, Thinks Sir Henry.

Sir Henry Pellatt declared in an interview yesterday that the city could not make as much money out of the street railway system if it was taken over as it makes at present on percentage. He is one of the directors of the Toronto Railway Company.

As to the company, which had been formed to build the Canadian navy, of which he is president, he said it was inactive and would be so until the policy of the new government had been formed. The Canadian Shipbuilding Company should be ready to tender for the construction of naval vessels when the time comes.

Our Mutual Friend.

The November meeting of the Dickens Fellowship will be held on Friday evening, Nov. 17, in the Conservatory of Music, College-street. The program will be made up entirely of scenes, in costume and with stage accessories, from "Our Mutual Friend." There will be five in all, and the various characters will be played by members of the Dickens Fellowship Players.

Alfred Tennyson Dickens, eldest surviving son of the distinguished novelist, will visit Toronto under the auspices of the Toronto branch on February 15 next and will lecture on "My Father's Life and Works." It is intended to mark the Dickens Centennial (1812) by introducing the Dickens "Cot in the Home for Incurable Children."

Printer Commits Suicide.

Lying on the floor with a rubber tube connected with a gas pipe at one end and held in his mouth at the other, Thomas P. King, a printer, who ran a printing office at 411 West Queen-st., was found dead there yesterday morning by Robert Bennett, 98 Palmerston-ave., an employee. The death was evidently suicide. Financial troubles and ill-health of his wife are given as the reasons. King was 40 years of age. No inquest will be held.

Too Rough to Dive.

Rough weather has prevented Capt. Midford, employed by the city to make an independent inspection of the intake pipe, from going to the bottom of the lake. It has been so rough that diving would have been dangerous.

The Copland Brewery Co. has taken out a permit for a \$50,000 brewery at King and Ontario-sts.

The Wm. Davies Co. have taken out a permit calling for the construction of an addition to their factory at 521 East Front-st. The addition will cost \$20,000.

LADY TEACHER IN TRIAL FOR BEATING CHILD

Little Girl Nearly Died From Severe Usage—Miss McCrea Paid \$500, But Law is Obdurate.

BROCKVILLE, Nov. 15.—(Special.)—Miss McCrea, a bright young school teacher, from Merrickville, where she is connected with one of the best families, was committed for trial in the Brockville police court today on a charge that she did assault and beat Helen McCoubrie, occasioning actual bodily harm. The child, aged nine years, is the adopted daughter of James McCoubrie, a farmer of Kitley Township and was taken by him four years ago from the local shelter of the Children's Aid.

Miss McCrea had charge of the classes in Sopers School near the Village of Frankville and the evidence of McCoubrie disclosed that on Oct. 19 the child reported that she had been whipped with the butt end of a blackboard ruler for dropping a water bottle on the floor. Three lumps on her head indicated where the stick had been applied.

Child Severely Beaten.

The father made complaint to two members of the board of trustees and sent a note to the teacher, reprimanding her.

The warning displeased Miss McCrea, who immediately proceeded to administer another whipping, using the pointer vigorously across the hands and arms of the child, so that discolored marks were produced. Subsequently the pupil became ill with an affection of the brain, which the doctors attributed to the first thrashing and for several days little hope was entertained for her recovery, but eventually she rallied.

Teacher Dismissed.

Miss McCrea made no statement, but her solicitor signified her willingness to plead guilty to a common assault, but the crown would not consent to a reduction of the charge. After due investigation, the board of trustees dispensed with the services of Miss McCrea and McCoubrie accepted from Miss McCrea a sum of \$500, to suspend prosecution. However, Deputy Sheriff Drail of Brockville, agent of the Children's Aid, advised the board of trustees to lodge the information upon which Miss McCrea was arraigned.

Neighborhood Aroused.

The young woman, who feels her position keenly, furnished bail to appear for trial at the next court of competent jurisdiction. The case attracted much interest as was shown by the attendance from the district where the offence was committed. Miss McCrea previously taught school at Addison, where her methods of corporal punishment gave rise to complaint.

Political Intelligence

RACINE IN RUSSELL.

VARS, Nov. 15.—Dr. Racine, M.D., was the unanimous choice of the Russell County Liberal convention today to contest the riding in the coming provincial elections. There were 203 delegates in attendance, and no opposition was offered to Dr. Racine.

HEA IN WEST KENT.

CHATHAM, Nov. 15.—James Clayton, reeve of Raleigh Township, decided today not to accept the nomination for the West Kent riding at the convention of the West Kent Reform Association, held on Saturday, Nov. 11. The Liberals will, therefore, endorse the candidacy of Ed. Hea of the same township, who has entered the campaign as an independent Liberal.

JARVIS IN FORT WILLIAM.

FORT WILLIAM, Nov. 15.—C. W. Jarvis is the choice of Fort William Conservatives. The convention was held this afternoon. Jarvis is a bank manager here, and an old resident.

WILL CONTEST KINGSTON.

KINGSTON, Nov. 15.—(Special.)—The Liberals of the city held a meeting tonight to consider the question of appointing a candidate, deciding to place a man in the field, but no names were mentioned. A committee was appointed to act in the matter and to report at another meeting to be held as soon as possible.

MULHURN IN STORMONT.

CORNWALL, Nov. 15.—(Special.)—The Liberals of Stormont County in convention at Finch, unanimously nominated F. Mulhern, mayor of Cornwall as their standard bearer in the approaching provincial election.

All the various sections of the county were represented and several gentlemen were nominated, including W. J. McCarr, Lt.-Col. Morgan, Wales; Col. R. Smith, K.C.; Geo. A. Stiles, John A. Chisholm, D. B. MacLennan, K.C.; J. R. Simpson, Finch; J. W. McLeod, Grant Corners; P. E. Campbell, P. J. Iny, A. W. McIntyre. All withdrew their names except Mr. Mulhern, who was declared the unanimous choice of the convention.

SOCIALIST IN BROCKVILLE.

BROCKVILLE, Nov. 15.—(Special.)—An unexpected three-cornered fight for provincial honours has developed in the Brockville riding on Saturday afternoon. Byron Wing, a prominent local socialist, that he will become a candidate.

According to the socialist, at a meeting of his following he had no criticism of the platform of either the Conservatives or the Liberals. He was offered to leave it to the intelligence of the electorate to decide which party had the best record for an afternoon session in the interests of the working man concerned. Mr. Wing follows the occupation of a carter.

Friday, Carleton Munn, Liberal candidate for Welland, spoke at Niagara Falls, N. Y. Mr. Munn will speak at Niagara Falls, N. Y. Mr. Munn will speak at Niagara Falls, N. Y. Mr. Munn will speak at Niagara Falls, N. Y.

Friday, Carleton Munn, Liberal candidate for Welland, spoke at Niagara Falls, N. Y. Mr. Munn will speak at Niagara Falls, N. Y. Mr. Munn will speak at Niagara Falls, N. Y. Mr. Munn will speak at Niagara Falls, N. Y.

GOVERNMENT TO TAKE CONTROL OF ELEVATORS

Speech From Throne To-day Expected To Throw Light on Important Borden Policies.

OTTAWA, Nov. 15.—(Special.)—Important announcements will be made tomorrow in the speech from the throne. The World understands that the speech will foreshadow legislation to enable the government, thru a commission, to take over the terminal elevators of grain in accordance with the promise made in the west last summer by Mr. Borden. The various measures providing for grain inspection will likely be consolidated in this legislation.

Other bills promised in the speech will implement the Conservative program of greater aid to agriculture, the proposal being, it is understood, to co-operate with the provinces in the building of model highways and in the promotion of scientific agriculture.

It is expected that the Duke of Connaught will express his gratification at being called upon to deliver the annual address to the Dominion, and will congratulate the country upon its increased prosperity and the fact that the revenue is greater than ever.

Some reference will also be made to the fact that the census, while not revealing the more sanguine hopes, showed a substantial increase in population.

Reorganizing Department.

The general plan of departmental reorganization will be touched upon, probably in a reference to a bill respecting the department of external affairs, and a bill respecting the archives.

The intention of the government to study the question of a new route for the Hudson Bay railway, is also likely to be mentioned. It is believed that the establishment of a tariff commission, whose work will form a basis for sound tariff legislation, will be referred to, and negotiations looking to better trade relations with the British West Indies and British Guiana will be touched upon.

There will be, however, no reference to the navy, if the naval issue is raised at all, it will be by amendment of the opposition, of which there has been so far no notice.

HONEYED WORDS

Apiarists' Association Meet and Discuss Beekeeping Topics.

About 80 members of the Ontario Beekeepers' Association met for opening of their annual convention in the York County Council Chambers yesterday afternoon. Addresses were given by President H. J. Craig of Brantford, and Vice-President Denis Holm of Toronto. The convention is attended to a talk by Morley Pettit, provincial apiarist, of the O. A. C., Guelph, on "County Associations and Their Work." This was followed by an address on "The Co-operative Purchase of Supplies," by Robert Thompson, manager of the St. Catharines Cold Storage Company.

The convention will sit morning, afternoon and evening to-day, as well as to-morrow morning, and the program contains special features of interest to apiarists.

ST. CLAIR COR. TRANSFERRED

Rumors Rife as to What Will Be Built at Avenue-Road.

It is learned that the vacant piece of property at the northeast corner of St. Clair-avenue and Avenue-road has been sold. The land, which has a frontage of about 400 feet on St. Clair, as well as considerable depth along Avenue-road and Oriole-road, had remained in the hands of one owner for nearly twenty years.

J. L. Burnand, the real estate broker in charge of the deal, refused to tell anything about the price or to whom it was sold, or to what use the vacant land will be put. Estimates of the property's value run as high as \$150,000.

MORE LIGHT NEEDED

Great Danger of Accidents at Water-front Railway Crossings.

There is no hydro-electric light at the railway crossing at the foot of Bay-street and the crossing is decidedly dark. Engineer K. L. Aitken in the general scheme, constantly preparing for operations that are to follow, for in the making of a high-grade shoe there is very little minor operation. Some of the operations may seem to the less important than others, but if you watch carefully the work of succeeding machines in the sequence, you will find the inaccurate work of a single machine, like the ineffectiveness of a single generation, if not discovered is visited upon each of the machines which follow until the completed product emerges a pariah among his fellows and scornfully known among shoemakers as a "bat," a "crab," or a "cripple."

No Pulp From South America.

NEW YORK, Nov. 15.—South American forests will never yield pulp timber worth importing into the United States for paper manufacture, according to Louis Chabrie, representative of the International Paper Co., who arrived here to-day. Mr. Chabrie said he had made an inspection of all the important forest lands of the southern continent and found no pulp timber fit for papermaking.

First Wife Was Forgiving.

MONTREAL, Nov. 15.—Charles Mann, the ex-detective, who pleaded guilty to a charge of bigamy, will eat his Christmas dinner with his first wife, but in the meantime will have the opportunity of developing an appetite for the occasion by breaking stones with a little hammer. He appeared for sentence before Judge Choquet to-day, and, on his first wife offering to take him back, was sentenced to 35 days in jail.

Will Discuss Federal Square.

The mayor received a telegram from Ottawa yesterday stating that the department of the board of trade and city council which wishes to interview the government with regard to the proposed Federal square, will be received on the 23rd inst.

East York Election.

As announced by the local papers a few weeks ago, H. H. Lunau of Markham is likely to be in the field for East York as the Conservative candidate. He is a Liberal and an Orangeman. At present it looks like a three-cornered fight in the old historic riding. He will run as the local candidate.

In response to the request of more than twenty foreigners, Inspector Hughes has recommended the opening of a new night school class in Strathcona school.

MAKING FINE SHOES IN CANADA

WONDERFUL PROGRESS OF THE INDUSTRY IN THE PAST TEN YEARS

Products that Compare Favorably With the Best Produced in Other Countries—Remarkable System of Machines Now Used—Interesting History and Estimate of an Important Industry—Howland E. Watson in October Issue of Canadian Magazine.

Have you ever watched a shoe in the making? Have you traveled from one intricate mass of cams and levers to another and so on down the long line of machines, performing seemingly impossible operations, with an accuracy and despatch that almost passes understanding? If you have never done so, take firm hold on the first opportunity for every operation performed by these machines has some thing to do with your comfort, your pocketbook, or your vanity.

The Canadian boot, like good wine, needs no bush. Its reputation is firmly established. Upon any equitable basis, it will at the present time bear favorable comparison with the best produced in any other country.

Such customs charges as were levied against it, and all the expenses of the expert usually sent from Boston to set up the machine, and teach its operation from the time he left Boston until he returned. Under these conditions, it is not surprising that the boot and shoe manufacturing industry of Canada advanced but slowly.

Many manufacturers preferred to cling to such primitive means as a saw, waxed ends and hammer-shoemaking implements as old as the Egyptian temples—operating only such machines as seldom required adjustment, rather than to submit to the vexations and losses which attended the use of improved

machinery. But expert shoe-makers, who were competent not only to repair machines, but to teach their operation and to give expert advice. This corps of men, in placed at the disposal of the patrons by the company, if any office of the company is notified to take care of it. The very best shoe-makers and the losses which best the trade so short a time ago have disappeared. Each one of the company's patrons, be he large or small, knows that he is entitled to the same service that his competitor receives.

It seems to have been a cardinal principle in the building of the machinery of Canada advanced but slowly. Many manufacturers preferred to cling to such primitive means as a saw, waxed ends and hammer-shoemaking implements as old as the Egyptian temples—operating only such machines as seldom required adjustment, rather than to submit to the vexations and losses which attended the use of improved
