Because our clothing is made of as good material, is as well trimmed and as good fitting as the best merchant tailors, while the handicap of high price is entirely

Gold is an expensive sort of material-whether used in coining eagles or employed in dental crown or bridge work.

Skill also in the latter is not by any means a cheap factor of good work-but consider the matter purely upon a

Among others the medium conjured up the spirit of C. W. The faith of some was somewhat shaken when the spirit of a certain John Yonge failed to find a relative in the audience.
