KAISER AS A PEACEMAKER

Rumors of Early Peace Negotiations in London Take on a More Definite Form.

KRUGER HAS SANCTIONED THE MOVE

Something Apparently is on Foot Whether Emperor William is in It or Not.

London, July 25.—"The rumor as to early peace negotiations, which has pervaded the House of Commons for some days," says The Daily Express, "has taken the more definite form that Emperor William is soon to assume the role of peacemaker. Mr. Kruger and his advisers are represented as having empowered the Kaiser to act for the Boers, and he is considered willing to take the initiative in order to popularize his relations with the German people, who disapprove his friendship for Great Britain. Something apparently is on foot, whether Emperor William is in it or not."

Mr. Kruger's arrival at The Hague is connected, The Daily Express thinks, with the rumored peace suggestions.

KRUGER AT THE HAGUE.

The Hague, July 25.—Mr. Kruger arrived here this afternoon and proceeded to the residence of Mr. Wolmarans, one of the Boer envoys at Scheveningen, a watering place on the North Sea.

CANDIDATES NOMINATED.

G. N. Kidd in Carleton and D. MacPherson in Glengarry.

Ottawa, July 25.—G. N. Kidd, M.L.A., was chosen to-day at Stittsville to again represent Carleton in the next provincial election. The choice was unanimous and no other candidate was proposed. The convention was attended by Conservatives from all parts of the riding. Much enthusiasm prevailed. Mr. J. P. Whitney was expected, but he was unable to attend.

D. MacPherson in Glengarry.

Alexandria, Ont., July 25.—A convention was held here to-day by the Liberals of Glengarry County for the selection of a candidate for the coming provincial election. All but seven of the thirty-one polling divisions were represented. D. MacPherson of Lancaster, who represented the county in the Patrons' interest from 1894 to 1898, and who was unsuccessful in 1898, received the majority of the votes cast.

TRACKMEN RECEIVE AID.

Financial Support Coming in From Many Labor Unions.

The striking Canadian Pacific Railway Trackmen are receiving a great deal of financial support from labor unions, and other associations thruout the Dominion. Reports go to show that nearly all of the strikers are now working, many being employed by farmers, receiving from $35 to $40 per month. In Toronto a number of the men have been engaged by the Street Railway Company.

Donald Wilkinson, chairman of the Toronto Strike Committee, was in Peterboro last night, where he addressed a meeting of trackmen.

SERIOUS FIRE IN DAVENPORT.

One Hundred Families Homeless and Loss Over $700,000.

Davenport, Iowa, July 25.—Fire laid waste an area of sawmill and residence property here this evening equal to 30 blocks, causing a loss of $700,000. The flames started in a big pile of kindling-wood, and, with a brisk breeze blowing, were carried into the lumber yards of Meyerhauser Denkmann, which was totally destroyed, the workmen having barely time to desert the yards. The fire then pushed its way into the residence district. Over 80 houses were destroyed, 100 families being rendered homeless. At 10 o'clock the conflagration was under control. It is believed there were no fatalities.

LARGEST EVER MADE.

Mr. Clergue Contracts for 219,000 Cords of Hardwood.

Montreal, July 25.—(Special.)—Mr. F. H. Clergue has signed a contract with Mr. H. R. McLellan of St. John, N.B., which is the largest of its kind ever entered into in America, and means that Mr. McLellan has undertaken to cut and skid 300 cords of hardwood per day for two years.

This wood is to be used for the purpose of making charcoal for the steel plant at the Soo, and at the same time the by-products will be extracted and utilized for commercial purposes by the largest car bonization plant in the world.

Mr. McLellan reached here to-day and composed the above report.

THOUSANDS LEFT HOMELESS.

Great Distress in Yangtse Valley—Court's Present Headquarters.

Shanghai, July 25.—The floods in the Yangtse Valley are causing great distress. Two of the main embankments have broken above Wuhn and flooded a thickly populated district for 40 or 50 miles. Tens of thousands of people have been rendered homeless, and the crops are destroyed.

The return of the Court to Pekin looks doubtful. Supplies have again been ordered sent to Singanfu, the present headquarters of the Court.

MR. REEVE'S PERSONAL AIDE

General Manager of Grand Trunk Will Not Retire to His Ranch To-Day.

RUMORS TO THIS EFFECT ALL BOSH

Hopes, However, to Turn Farmer When the Active Work of Railroading Grows Wearisome.

Montreal, July 25.—(Special.)—"What foolish stories the papers print, to be sure," said Mr. George B. Reeve, smilingly, this forenoon.

"You are about to retire from the managership of the G.T.R., according to the story."

"Oh, of course."

"And Mr. Morse is to be appointed to your place?"

"So it was said."

"And now, Mr. Reeve, is there any truth in the story?"

"Not an atom. It is all nonsense. There is a great deal of work to be done, and I am no longer a young man, and I desired an assistant to be at hand to help me. That is the whole matter."

"Of course the day will come when you will want to get back to that beautiful place of yours in California?"

"Certainly, I will retire some day and get back to my ranch. That was always my idea—to live a quiet life in the country when I have got thru with active duties."

"But that will not be to-morrow?"

"No, nor the day after."

"And in the meantime in Mr. Morse you have simply secured a personal assistant?"

"That is just it."

VISITED HOLT IN JAIL.

Wife No. 1 Entertains No Ill-Feeling Against Erring Spouse.

London, July 25.—James Holt, jun., of Dorchester, who was brought back from Saginaw, Mich., after eloping last week with a 16-year-old girl, was visited in jail this morning by his wife and pretty little girl. Mrs. Holt had a 15-minute interview with her erring spouse. She evidently nurtures no feelings of revenge for his desertion and unfaithfulness, for on going away she tearfully asked Governor Boston if "they had been treating him well down there." On being assured that Holt would receive good treatment she went away satisfied.

COOL SPELL WON'T LAST LONG.

Weather Continues Rather Warm in Other Parts of Canada.

The weather man in the Queen's Park reports the present cool spell as having developed in Ontario, and while there is no extreme heat in sight the conditions now existing will be of short duration. The atmosphere cooled off rapidly in Ontario and Manitoba, but in Eastern Canada it is still quite warm. Some sections of Ontario are having no rain at all, but in the Upper Lake regions an inch and a half of rainfall was recorded yesterday. The highest temperature marked in Toronto was 70. Detroit recorded a maximum of 86, and in the Western States there is very little relief, in some localities 102 and 104 having been recorded.

SAILOR HAD BUBONIC.

East Indian Taken to Hospital and the Ship Disinfected.

New York, July 25.—Health Officer Doty and his staff, while examining the crew of the German steamship Hohenfels, which arrived on Monday morning, 45 days from Calcutta, discovered that a stoker, an Indian coolie named Rabyiane, was afflicted with bubonic plague.

The patient was removed to Swinburne Island. The ship's decks have been disinfected. The cargo will be disinfected and discharged into lighters and the rats will be killed with sulphur.

Pony Hurt a Boy.

James Deacon, aged 8 years, who lives at McCarron's Hotel, Queen and Victoria-streets, while leading a pony along Richmond-street yesterday was knocked down and trampled upon by the animal. He received several severe bruises and cuts on his face and arms, and was removed to the hotel, where his injuries were dressed.

What You Must Do if You Use an "Approved Standard" Machine.

Warning to users of Acetylene Gas.

"Approved standard machines," a trap for the unwary.

The Canadian Fire Underwriters' Association requires a special warranty from the insured using machines they "approve."

1. That machine shall not be in cellar with furnace, stove or gas jet.

2. That it must always be attended to by daylight.

3. That you must never have more than 100 pounds calcium carbide on the premises at one time.

If you contravene this your plant may be a hundred times approved, but your policy is invalid.

If you are a wise man you will insist on getting an unconditional permit. You can get it from your insurance agent, if you let him know that unless you do get it the policy will be changed to a company that will grant unconditional permit. Further, the law provides that you can collect the full unearned premium from any insurance company that prefers to cancel risk rather than grant unconditional permit.

SHAFFER IN STAGE DISGUISE

Visits Wellsville in Theatrical Make-Up to Make Observations of the Strike Situation.

SUFFERING FROM MENTAL STRAIN

Amalgamated Leader Turns Over Work to Other Officials—Prospects of Long Struggle.

Pittsburg, July 25.—President Shaffer of the Amalgamated Association is known to be in Wellsville, Ohio, directing the strikers and gathering information concerning the fight in a curious theatrical make-up. He arrived in Wellsville dressed in his rolling mill raiment and carried an old carpet bag and a cotton umbrella. Over one eye was a black patch and he wore a profuse false beard. He had been carefully prepared by the make-up man of a Pittsburg theatre. When he got off the train he was subjected to jeers from the striking steel workers, but he assured them that he was not going to work. The identity of Mr. Shaffer was disclosed at the station as he was about to take the train for Pittsburg. He at first denied, but finally admitted that he was the Amalgamated chief.

President Shaffer is said to be suffering from a severe mental strain, and has already turned over much of the detail work to other officials.

The organization of the tube mill men at McKeesport was made stronger yesterday and the association is aiming to close the tin plate mills at Monessen. Strikers and sympathizing coal miners will march upon the mills and hold a big mass meeting. The idea is gaining ground that the strike will be continued the rest of the summer, as the announced policy of the trust is no compromise. The impression is that the trust will attempt to starve the men into submission.

PEACE MISSION FAILED.

Pittsburg, Pa., July 25.—The peace mission of M. M. Garland, who went to New York on behalf of the conservative element in the Amalgamated Association has failed. Mr. Garland was unable to secure from the steel manufacturers any terms on which a settlement could be reached. They would not recede an inch from the attitude they have taken, holding that the workers' leaders precipitated the fight and peace negotiations are off. At the same time, a more powerful influence is being sought to carry the olive branch to J. P. Morgan.

Joseph Bishop, secretary of the Ohio State Board of Arbitration, is working as mediator, and will try to reach the combine thru Senator Hanna, who, there is no doubt, will receive the association mediator graciously.

Organizer Flynn of the American Association of Labor, stated to-day that the organization was ready and waiting to assist the Amalgamated Association whenever this assistance was asked.

PEACE AT PEKIN.

Deadlock of Ministers of the Powers Has Ended—All Now Agree.

London, July 26.—The deadlock of the ministers of the powers has ended, says the Pekin correspondent of The Daily Mail. "Russia has withdrawn her proposal to increase the duties to 10 per cent., and has accepted with some important reservations Great Britain's counter proposal that the sources of revenue earmarked now shall be considered adequate, the powers providing for a shortage if it arises."

WHOLE TOWN WRECKED.

Loss of Life and Property Large, But Cannot Be Estimated.

Batum, July 25.—A terrific explosion of petroleum to-day in the most thickly populated quarter of Batum wrecked the whole centre of the town. It is impossible at the time of filing this despatch to estimate the loss of life and property, but in both cases this is very large.

FOUND BODY IN A MINE.

Pittston, Pa. July 25.—When the miners resumed work in the Archibald mine this morning they found the body of John Harvard, who has been missing for a week, lying under a pile of huge boulders.

CAUGHT DISEASE FROM COW.

WANTS LYNCHERS FOUND.

Rome, July 25.—Signor Prinetti, Minister of Foreign Affairs, in acknowledging the note from Washington regarding the lynching of two Italians at Erwin, Miss., declared his conviction that the search for the guilty persons should be instituted by the proper authorities so that the crime might not go unpunished as in previous cases.

MORRISON MYSTERY AT OTTAWA.

Detective Greer Says He Thinks the Girl Suicided.

Inspector Greer of the Provincial Criminal Investigation Department returned yesterday from Ottawa, where he has been looking into the circumstances surrounding the death of Bella May Morrison, the young woman whose body was found floating in the river at the capital.

Mr. Greer feels assured that it was a case of suicide, and he scouts the idea of murder or accident. The girl, who was about 25 years of age, met her death on July 14, and near the spot where the body was found she had been seen twice, sitting at the side of the river, holding her head in her hands, and, apparently, suffering from despondency. Her sister died recently, and she took the bereavement very much to heart. Detective Greer thinks she jumped into the river while demented thru brooding over her troubles, and he will report accordingly to the department.

Miss Morrison had been keeping company with a young gentleman named Devlin, but they were not engaged, and he could not throw any light upon the mystery of the girl's death.

Asked regarding a sensational letter received by Detective Robillard of Ottawa, warning him and Greer to drop the case. Mr. Greer laughed, and said it was evidently a hoax, put up by someone with a queer idea of humor. Robillard received the letter, but tore it up, and Mr. Greer did not see it.

The step has been taken with the consent of the Conservatives in the riding. We are hopeful that he will accept, and he can be elected.

The Hon. Mr. Foster was asked by The World if he had received the letter mentioned by Hon. Mr. Rogers tendering him the nomination.

Mr. Foster said the despatch showed "what a lot of good things were turning up." The first, however, that he had heard of the matter was thru The World bringing the despatch to his attention. He had no previous intimation of it, and was not prepared to make any further statement in regard to it.

EIGHT MEN DROWNED.

Left White Horse for Dawson in Scows June 10 and Are Missing.

Lord Ernest Hamilton's claims in the Atlin district, for which he paid $40,000, have netted him $50,000 this season.

Eight men who left White Horse for Dawson in scows on June 10 are missing. The scows have been found wrecked at Treeman's Point, and the eight prospectors are believed to have been drowned. Their names are: George McLeod, J. McGuire, D. O'Connor, F. Lynch, Antoine Currene, G. Tyrell, J. M. Taylor and T. McDonald.

The Moors assert that the French government has 90,000 troops on the Moorish border."

BOY KILLED BY A BUS.

Niagara-on-the-Lake, July 25.—John Richardson, the little five-year-old son of Mr. William H. J. Richardson, builder of this place, was run over by a bus, driven by H. Longhurst, on Queen-street, this afternoon and so seriously injured that he died a few hours later.

The little fellow was playing on the street and did not see the approaching rig, which had pulled in towards the curb to avoid a passing carriage. He was struck and trampled under the horses' feet. The wheels of the bus also passed over his body, crushing in his chest.

The coroner was notified, but an inquest was deemed unnecessary, as the fatality was purely accidental. The sympathy of the entire community is extended to the bereaved parents.

LOVE WAS CRUEL.

Newcastle, N. B., July 25.—A young man, Thomas Hurst, who worked in the Boston Theatre, arrived here a few days ago, having followed from Boston Victoria McTavish, a young lady, with whom he was desperately in love. To-day he called to see the young lady, but was refused an audience. The disappointment of the young man was so great that he pulled a pistol from his pocket and blew out his brains.

Woodstock, July 25.—Charles Hughes, a farmer from near Salford, was nearly killed in an accident at Whitelaw's foundry yesterday afternoon.

Mr. Hughes had a thresher at the foundry which he was having repaired. He was putting on the wheels of the engine himself when the engine toppled over on him, pinning him down to the ground.

The man was released from his most uncomfortable position, and Dr. Murray was sent for. A big cut in his head required several stitches, and Hughes was badly bruised about the breast and shoulders. He was able to go home last night, and said he was feeling pretty well.

KAISER GROWING A BEARD.

New Appearance Makes Striking Resemblance to His Father.

London, July 25.—"Emperor William is letting his beard grow," says the Berlin correspondent of The Daily Mail.

Wealthy Mrs. Silliman Drives Her Own Cart and Makes Dairy Pay.

Vineland, N.J., July 25.—Mrs. Annie F. E. Silliman, a young society woman from Washington, D.C., is running a dairy and milk route here. Both Mrs. Silliman and her husband are wealthy, and the enterprise is Mrs. Silliman's fad. Mrs. Silliman rises at 4 o'clock in the morning, superintends the work of the farm hands in feeding the stock and milking the cows, and then, frequently before daylight, starts on her milk route, almost always alone. She finishes the route at about 9.30 a.m. Her milk wagon is unusually large, with many windows and an artistically decorated interior. People who take milk from her say she measures it out as gracefully as if she were pouring afternoon tea. Mrs. Silliman says she got tired of society and wanted to live a rural life. So she induced her husband to buy a fine farm, near Vineland, and started in to make it pay.

By his own story he was present at the scene of the tragedy on Friday, and, when seen in the village, he wore bandages on his head to cover wounds which he said were received while helping to repair a canal boat.

TO CORNER CATTLE TRADE

Standard Oil Company Capital Will Control the Whole World's Business Within Ten Years.

INVOLVES COMMUNITY OF INTEREST

Visible Supply of Herds Suitable for Food Has Greatly Shrunk During a Decade.

London, July 25.—"Standard Oil capital will control the cattle trade of the world within 10 years."

Such was the assertion made to-night by a prominent American promoter who lately accepted the presidency of one of the subsidiary corporations formed by the Standard Oil Company for this purpose. This authority states that the Rockefellers, after a critical survey of the American industrial situation, came to the conclusion that cattle is the most promising investment for the future that the country holds. Their statistical experts report that the visible supply of herds suitable for food uses is one million head less than a decade ago, and there is a tendency to still greater shrinkage.

Already Messrs. John D., William and Frank Rockefeller own extensive ranches in Texas, while Representative Joe Sibley of Pennsylvania, also interested in the Standard Oil Company, operates large establishments in Florida.

The plan involves ultimate community of interest such as characterized the formation of the Steel Trust and the recent railway pools. Standard interests will foster the growth of breeding farms and ranches in all parts of the country, and when the propitious moment arrives will consolidate them by huge capitalization. Eventually the great packing plants of Chicago, Omaha, Kansas City and Milwaukee will be invited to pool their issues.

MODERN APARTMENT HOUSE.

New Company Formed With Prominent Torontonians Directors.

The Modern Flat Building Co. has been incorporated with head offices in Toronto, the object being to erect apartment houses in various portions of the city. Among the directors of the new company are Dr. Pyne, M.L.A.; E. L. Sawyer, Hartley Dewart, K.C.; C. H. Riggs, George H. Fensom, George A. Baker and A. T. Lawson. The first building will be erected at the northeast corner of Jarvis-street and Wilton-avenue; will be six storeys in height and have eight suites of apartments on each flat, or 48 suites in all. There will be three elevators in the building. The building, accommodation and designs are all to be of the most modern and improved character, and, notwithstanding this, will admit of comparatively cheap rentals, from $20 to $30 a month for each suite. In each suite there will be a drawing room, three bed rooms, kitchen, pantries and closets, as well as a first-class lavatory. The building will be steam heated. The Provincial Trust Co. has already underwritten the first $100,000 of stock. Work on the structure will be commenced almost immediately.

ROAD TO COST $6,000,000.

Chicago and Western Indiana Railway Officials Decide to Build.

Montreal, July 25.—(Special.)—The officers and directors of the Chicago & Western Indiana Railway met again this morning. An effort was made to try to come to some decision respecting the elevated road to be erected by the company in the City of Chicago, between Sixteenth and Seventy-Third-streets. It was definitely decided that the road should be built by the company. Different plans were further discussed, and it is now thought that the undertaking will cost about $6,000,000. Before adjourning for lunch, the representatives of the different companies interested were unable to come to any unanimous opinion as to exactly what kind of a road would be erected.

Also let us tell you, this is the proper season to purchase furs of any description, because you have a large and new stock to select from, and prices happen to be now at the bottom notch.
