### LAVERGNE MAKES FIERY STATEMENTS AT QUEBEC MEETING

Says French and Catholics Should Disobey Conscription.

TALKS AGAINST ENGLAND

Says War Could Have Been Averted in July, 1914.

QUEBEC, May 27. - Speaking at an anti-conscription meeting at Loretteville, today, Armand Lavergne formet member of Parliament for Montmagny said: "I believe I should say that, if the Government passes this damned law, if you have a heart, if you are still descendants of those who wrested the country from the Iroquois, of those who ascended the scaffold crying 'Vive a liberte,' 'Vive l'independence,' you of

la liberte.' Vive l'independence,' you of those who have written with their French and Catholic blood an epic such as no other act can show, you should take a pledge to disobey it.'

Over five thousand persons cheered wildly the words of the speaker as he denounced the Government for the proposed measure.

Mr. Lavergne stated that it was England who wished the war of today to crush Germany. "She may have a good reason for this from her own point of view," said the speaker, "but we have nothing against the Germans. If Sir Edward Grey had consented to say that England would aid France in July, 1914, as M. Cambon had requested, this war would have been averted. But he would not do this, but waited to the 5th of August. The war has increased Canada's debt to two billions, and after

of August. The war has increased Canada's debt to two billions, and after the war it will be four billions. If we add to this the debt of the provinces, of the municipalities, and parishes, we will easily reach six billions. This represents \$7.000 per head."

resents \$7.000 per head."

Will Pay For Being Nice.

"It was very nice to be blue or red in 1914 or 1911: you wished it." said the speaker, "very well, you will pay for it."

"There is, moreover," he added, "British protection; Ergland borrowed seven billions from the United States and mortgaged Canada."

"Have they the right then to tell us when the country is menaced by famine you shall send your son to the war in Europe?" I am not against conscription for the defence of Canada, because I believe it is the duty of all citizens to give their pure blood for this country, but I love my own enough to tell them they should not give one drop to defend England. If we have to spill it, let us begin as our fathers did by doing so for the defence of liberty."

Creates Impression.

The speaker then condemned the Government for trying to send Canada's sons to "butchery" without consulting the people and uttered the words quoted in the opening paragraphs, which made a great impression on the crowd. The meeting at Loretteville lasted four hours.

Mr. Lavergne declared he had received letters from persons of the Englasted four hours.

Mr. Lavergne declared he had received letters from persons of the English provinces, notably Toronto and Vancouver, telling him that the people of these provinces were opposed to continuous.

scription, and asking the province Quebec to aid them to crush the Go ernment.

Largely-attended meetings were held all over the city and district today; at St. Gregoire, Limoilou, Montmorency, Beauport, St. Casimir, St. Raymond, Chateau Richer, Beauceville, St. Joseph de Beauce and Loretteville. At the Jacques Cartier market place Mr. Lavergne addressed a gathering of ten thousand or more, speaking much along the usual lines, and he was wildly acclaimed.

OPPOSITION AT THREE RIVERS. Three Rivers, Que., May 27.—Five six thousand persons attended an ant ption meeting on the public square this afternoon, and a solution was passed to the effect that resolution was passed to the effect that before bringing in conscription the Dominion Government should either rold a general election or a referendum on the question and should protect its people against the high cost of living. One of the speakers, L. S. Durand, attorney, declared that "England has no right to call on Canada

and has no right to call on Canada or a forced blood taxation without the Canadian people consenting."

He said the contribution of 400,000 men was more than reasonable.

Dr. C. A. Bouchard presided.
