Considering Everything, Prices Yesterday Were as High as Last Week.

ogs, 126 sheep, 358 calves and one horse. There were 666 cattle all to the stockers and feeders, as well as the milkers, and there would be about 600, counting a the left-overs, that could be counted in the fat class. There were few choice, about six bables that sold at \$9; about 10 loads at \$8.25 to \$8.85, and only one load at the latter price. Taking in the whole situation, quality of cattle and the tremendous "fill" on many of them, prices were as high as at the close of last week. This makes prices up to what they were before we took off the 10c to 15c last Monday. We do not say that the prices were higher than when all the peak loads were in, because the quality of the cattle was worth 25c more as a rule than those sold yesterday.

Butchers' Cattle.

Choice heavy steers of Easter quality, \$8.75 to \$9; choice butchers' cattle at \$8.50 to \$8.75; good butchers at \$8 to \$8.50; medium butchers at \$7.60 to \$7.90; common butchers at \$6.75 to \$7; choice cows at \$7 to \$7.25; good cows at \$6.25

Wall street's attention was so evenly divided between the market and developments at the national capital that it paid little attention to such matters as the opening of awards for \$55,000,000 of New York City 4½ per cent. bonds, the optimistic statements of the steel and iron trade reviews and the irregular movements of foreign exchange, the latter embracing a further strengthening of rates on Berlin and Italy.

Appended are some of the more extreme recessions of the day: Bethlehem Steel, 22½ to 447: Baldwin Locomotive, 7 to 86½: Studebaker, 5% to 131; Crucible Steel. 4% to 81½, and U.S. Industrial Alcohol, 4½ to 146½. Trading was more circumscribed than recently and outside of Steel of Canada and Brazilian, business was on a comparatively small scale.

THE WONDERFUL GROWTH of the Chiropractic idea, since its discovery twenty years ago, is due to its grand achievements and restorations to health when all other systems had failed. failed.

MANY OF THE LEADING medical physicians and surgeons in the United States have thrown medicine and surgery into the discard—have studied Chiropractic and are now giving spinal adjustments only, for the removal of the true cause of disease. quality steers at \$9; cows at \$6 to \$7.50; bulls, \$5.50 to \$7.75.

The Swift-Canadian Company bought 250 cattle; bteers and heliers at \$7.55 to \$8.55; amongst them were one at \$8.50, one at \$8.50, one at \$8.65, one at \$8.65, one at \$8.65, one at \$8.65, one at \$8.65; me dium cows at \$6.75; good bulls, \$7 to \$7.55; me dium cows at \$6.75; good bulls, \$7 to \$7.50; medium bulls, \$6.25 to \$7.

H. P. Kennedy bought yesterday 40 feeuers, \$00 to 900 lbs., at \$7.50 to \$7.80.

Fred Rowntree, well-known to the cuttle trade in general, and particularly for the milker and springer end of of the business, is again on deck. He bought 31 milkers and springers at \$55 to \$10, and one extra quality cow at \$100.

J. B. Dillane who has been ill for several weeks, commenced operations again yesterday by usying 20 yearing steers weighing 650 o 750 lbs., at \$6.85 to \$7.50.

Alex. Levack bought 3 carloads of outcher cattle at \$8.10 to \$8.50 and 3 tancy steers of Easter quality at \$9 for Guns.

HE SPECIFIC SPINAL ADJUSTMENT THE SPECIFIC SPINAL ADJUSTMENT takes but three minutes daily until Nature has built up tissue holding the vertebrae into a position where the spinal nerve (leading to diseased part) will not be obstructed.

to a false god, begotten of diseased mind.

NATURE AND ITS LAWS built the body, and it alone can restore it to normal and free it from bondage of disease and its brother—the chemical substitute. Christian science is a form of religion, and its curative powers are the outcome of passive resistance and sane drugless method of using no dictation to Nature and divine intelligence.

MEDICINES AND SURGERY are of the past, as the candle has made way for better ways of illumination.

THIS EXPLANATION of Chiropractic is necessary, because there are numerous imposters using the name to cover up their lack of ability—these may be known by their use of much machinery and old-time method of manipulation, which only wears the patient's vitality out.
